### Introduction of Guest.

President Gallagher introduced Joseph Edward Smith, Mayor of the City of Oakland, to the members of the Board.

### Statement by President Gallagher.

Please allow me, as retiring President, to express my appreciation and thanks for the many courtesies, the cooperation and the help extended to me by my colleagues, our staff, the press and all the civic groups of San Francisco.

I am most grateful to the members of the Board for placing in my trust its presidency for the past four years. The discharge of its responsibilities, and the rich experience which it has been my good fortune to enjoy, are invaluable object lessons in the worth of cooperative effort looking to the best interests of all our people.

During the past four years we have seen many changes take place, of deep significance to San Francisco. The groundwork has been laid for a program of civic improvement which will establish beyond question our city's rightful position as a model community in every respect.

But after all, only from the people themselves must come the worthwhile accomplishments and achievements we will enjoy. The members of this Board are merely servants of the people.

If we bear that in mind, and all pull together shoulder to shoulder for a better and greater San Francisco, much good can be done by this Board; and if we are accorded the wholehearted support of the large body of our citizenry, our highest ideals and fondest dreams for the city's betterment will come true.

I thank you again for your support.

It is now my pleasure to entertain nominations for the office of President of the Board of Supervisors.

#### Election of President.

Thereupon Supervisor McMurray moved that the name of Supervisor J. Joseph Sullivan be placed in nomination. Motion seconded by Supervisor Fazackerley.

Supervisor Christopher thereupon moved that the nominations be closed. Motion seconded by Supervisor John J. Sullivan.

Motion *carried* by the following vote:

Ayes: Supervisors Christensen, Christopher, Fazackerley, Gallagher, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

The President asked that Supervisors MacPhee and Mead escort the newly appointed President, J. Joseph Sullivan, to the rostrum.

President J. Joseph Sullivan: My fellow Colleagues, Ladies and Gentlemen:

I want to thank you for the honor of having been elected your President for the next four years. I did not come here today with a prepared election speech but do want to say that I consider acceptance of this office as a challenge which I accept but with the request that I have your cooperation and support. The confidence you repose in me is deeply appreciated.

As to committee assignments, those appointments will be made prior to Monday's meeting.

For many years we have had with us two venerable men, Fred W. Meyer and Jesse C. Colman. This is the first time since I have been around that they have not responded to roll call. By their own choice they have retired from the Board of Supervisors. The people have selected to serve in their place Supervisors Chris J. Christensen and Don Fazackerley. I have known them personally only a short time. In Chris J. Christensen, I have found a man who has devoted 20 years of his life to civic enterprises in San Francisco. He is currently President of the Mission Street Merchants Association, is a Director of the Chamber of Commerce and is a Director of the Y.M.C.A. He will bring to this Board a wealth of experience to assist in the solution of our intricate problems. I now introduce to you, Supervisor Chris J. Christensen.

Supervisor Christensen: Mr. President, my fellow Colleagues, Ladies and Gentlemen: I am indeed grateful for this day. This is a cornerstone in my life that I will long remember and I want to congratulate you, Mr. President, on your appointment to your present job and I pledge you my full support and cooperation in the solution of the many problems confronting San Francisco. I am particularly grateful to my constituents who have expressed their confidence in me. I do feel that 1948 will be a year of accomplishments for our city. Our voters have expressed confidence by electing the Supervisors they have. I am, of course, aware of the responsibility that I have been given and I shall pledge myself to do all in my power for the welfare of the people of San Francisco. In closing, I want to again give assurance of my support and cooperation to our new Mayor, to the Chairman of the Board and to my fellow members so that a better job may be done for the people of San Francisco.

At this point the President asked Supervisor Christensen to introduce his family to the members of the Board.

President J. Joseph Sullivan: Don Fazackerley is the youngest member of the Board. At 31 Don Fazackerley is a seasoned executive. During the war years he rendered outstanding public service, the extent of which is almost unbelievable. My experience with him only goes back a few months but in checking him up, I have found him to be a man of sound judgment. I believe that Don Fazackerley's judgment will be a balance wheel in our many discussions. I now introduce to you, Don Fazackerley.

Supervisor Fazackerley: Thank you very much, Mr. President, for the wonderful eulogy. Fellow members of the Board, it is, of course, a great pleasure to be occupying this chair. Last night while I was thinking of the many problems confronting San Francisco, such as transportation, off-street parking, recreation and many others, my little girl came around and asked me what I was doing. I told her I was going down to the City Hall today and make a speech. She went away and came back with an election card and handed it to me and said, "Daddy, you may need this in your election tomorrow." Which reminds me of two promises, first, that I would devote every bit of my youth and vision to the progress of city affairs and secondly, I would keep my mouth shut if I did not know what I was talking about.

I again want to say that being here as a member of the Board fills me with gratitude to the people who made this great opportunity possible for me and fills me with the determination that in the conduct of my affairs as a member of the Board of Supervisors, I shall ever try to hold my head high, my eye on the ball and my feet dry.

At this point, the President asked Supervisor Fazackerley to introduce the members of his family.

#### Introduction of Guests.

The President of the Board introduced State Senator Gerald J. O'Gara and Assemblyman Thomas F. Maloney.

#### ADJOURNMENT.

There being no further business, the Board, at the hour of 12:45 p. m., adjourned.

### Explanation of Vote.

Supervisor MacPhee stated that he was going to vote against the measure because the passage of it would open the door to additional employments. Supervisor MacPhee further stated that it was his belief that one main switchboard should be installed in the City Hall to take care of calls for the entire building and thus eliminate the individual switchboards now in use by several of the departments.

Lowell High School.**

Supervisor Lewis informed the members of the Board of the inability of the student body of Lowell High School to avail themselves of the use of voting machines and desired that the City Attorney be requested for a ruling looking into the interpretation of the ordinance recently passed by the Board relating to the use of voting machines.

In answer to a query propounded by Supervisor Lewis to the Chief Administrative Officer, Mr. Brooks stated that he would order his Executive Secretary, Mr. Ben Kline, to permit the use of the voting machines to the student body of Lowell High School; however, Mr. Brooks warned the Board that such procedure will mean a considerable expense to the City and County and that he was serving notice that he will ask for more money for the next election.

**Statement by Supervisor Lewis.**

Supervisor Lewis informed the members of the Board that he believed that the privilege of the floor should be extended only under unusual circumstances, and that if a committee is to have any force and effect, the committee members should be allowed to express their views. If the Board is to sit and listen to everybody Monday after Monday, committees should be abolished and he hoped the Board would back him up on his stand in support of the rules. Supervisor Lewis concluded by stating that it was his hope that (1) the Board would try to live up to its rules, and (2), that the Board should try to put down personalities, and that he believed 1948 would prove to be a great year.

**Adopted.**

**Opposition to Supervisor Lewis' Stand With Regard to Privilege of the Floor.**

Supervisor Mead stated that while he was in sympathy with Supervisor Lewis' stand with regard to strict observance of the rule of the Board relating to the privilege of the floor, he felt that many of those who are interested in matters before a committee are unable to get time off from their work to appear before the committee and to deprive them of the right to appear before the Board was not the proper thing to do.

**Reference to Committee.**

President of the Board, J. Joseph Sullivan, referred to the Finance Committee a recommendation of the Grand Jury that a stenographic reporter be used at meetings of the Board of Supervisors.

**Eulogizing Former Supervisor Fred W. Meyer.**

Former Supervisor Fred W. Meyer was introduced to the Board and was warmly applauded.

Supervisor Lewis arose and eulogized Mr. Meyer by stating that he was a man who never uttered an unkind word, one who seldom used time in speech-making and that when legislation was before the Board, he knew how to vote and voted accordingly.

**Meeting of Chairmen of Committees.**

Supervisor Lewis moved that the President of the Board call a meeting of the chairmen of the various committees for the purpose of arriving at a schedule of committee meeting dates which would not conflict with one another. Motion seconded by Supervisor Gallagher. There being no objection, the motion *carried*.

Accordingly, the President of the Board set Monday, January 19, at 1:30 p. m., Room 228, as the time and place for a meeting of the various committee chairmen.

Supervisor Gallagher presented:

Proposal No. 7519, Resolution No. 7197 (Series of 1939).

Resolved, That the typographical error appearing in Resolution No. 7124 (Series of 1939), designating the year 1958 as the final year of retirement of a \$534,000 group of Series B Bonds, described in said resolution, be, and the same is hereby corrected to read 1953.

### Consideration of Calendar Matter Out of Order.

### Adopted.

Supervisor Gallagher moved that No. 14 on the Calendar reading as follows:

**Authorizing Controller to Transfer Allocation of Funds for Purchase of Trolley Coaches from the 1947 Municipal Railway Bond Fund to the Allocation for Purchase of Motor Coaches.**

Proposal No. 7528, Resolution No. 7207 (Series of 1939).

be taken up out of order and that the rules be suspended for the purpose of considering such legislation. Motion seconded by Supervisor MacPhee. No objection and so ordered.

### Privilege of the Floor.

The privilege of the floor, on motion of Supervisor Gallagher and seconded by Supervisor Christopher, was accorded Mr. James H. Turner, Manager of Utilities. No objection and motion carried.

Mr. Turner informed the Board members that an expenditure of \$6,500,000 had been approved by the Public Utilities Commission after careful study and survey in connection with the Municipal Railway modernization program; that a study had been made of

the market; efforts made to purchase equipment as rapidly as possible; letters were sent to the various manufacturers and that it recently developed that although trolley coaches could be had in six months or less, gasoline coaches could be had within 30 days. In spending the \$6,500,000 it was his desire to get modern busses and put them on the street at the earliest possible date. In making this change, none was made in the basic program; the only change was in the timing in the purchase of equipment. These gas coaches are needed in the ultimate plan; however, these coaches do not displace or take the place of trolley coaches. The delay in acquiring trolley coaches is due to the fact that overhead materials cannot be procured except in 180 days. The gas coaches will be used on those lines that will ultimately become trolley coach lines. In the interim period pending construction of overhead and installation of trolley coaches, the Department of Public Works can get the needed street work done.

Supervisor Mead wanted to know why trolley coaches could not be used on Polk Street in lieu of the existing gas coaches, which are far from satisfactory, to which Mr. Turner replied that new busses will serve certain lines and that the old busses when taken off, will be used in the outlying districts in shuttle service.

#### Privilege of the Floor.

Supervisor Lewis moved the privilege of the floor to Mr. DeLeuw, Consultant to the Technical Committee on Long-Range Transportation Plan; motion seconded by Supervisor John J. Sullivan and carried.

Mr. DeLeuw informed the Board members that the plan to be recommended by his firm to the Technical Committee would embrace street cars, a considerable number of trolley coaches and some gas coaches. The report would be ready in about three weeks.

To a query propounded by Supervisor Lewis as to what course of action should be taken with respect to the proposal under consideration, Mr. DeLeuw stated that the suggested action of reallocation of funds was the sensible thing to do.

Supervisor Mead expressed his position in the matter and that was of being unalterably opposed to the proposed plan of the Public Utilities Commission regarding the purchase of motor coaches; that he didn't care in whose doghouse he would get into; that nobody could convince him that there isn't a difference between a trolley coach and a motor coach; further he could not see why the city should spend a million and a half of the taxpayers' money in order to save two or three months' time; that this was the first time he ran counter to the desire of the Public Utilities Commission in many, many years but that under the circumstances, he could not do otherwise.

To a query by Supervisor Fazackerley if the use of motor coaches would mean the loss of jobs, Mr. Turner replied that with the shortage of help now existing and with the usual turnovers, plus retirements, he was of the belief that no jobs would be abolished.

Thereupon the roll was called and Proposal No. 7529 was adopted by the following vote:

Ayes: Supervisors Fazackerley, Gallagher, Lewis, MacPhee, Mancuso, McMurray, J. Joseph Sullivan, John J. Sullivan—8.

Noes: Supervisors Christopher, Mead—2.

Absent: Supervisor Christensen—1.

#### Consideration Continued.

Supervisor Gallagher moved, seconded by Supervisor Christopher, that the rules be suspended for the purpose on considering the following proposal out of order. No objection and motion carried.

Authorizing Controller to Transfer Allocations Within the 1947 Municipal Railway Rehabilitation Bond Funds in Order to Expedite Acquisition of New Modern Street Cars and to Provide Appurtenances Necessary in Connection Therewith.

Proposal No. 7529, Resolution No. . . . (Series of 1939).

No objection and motion carried.

MONDAY, FEBRUARY 16, 1948—2:00 P. M.

In Board of Supervisors, San Francisco, Monday, February 16, 1948, 2:00 p. m.

The Board of Supervisors met in regular session.

## CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Christopher, Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.  
Absent: Supervisor Lewis—1.

Quorum present.

President J. Joseph Sullivan presiding.

Supervisor Lewis noted present at 2:30 p.m.

Presentation of Certificate of Appointment to Hon. James L. Halley, New Member of the Board of Supervisors.

President J. Joseph Sullivan extended the hand of welcome to the new Supervisor, Hon. James L. Halley.

Mayor Elmer E. Robinson: In appointing James L. Halley to the vacancy created on the Board of Supervisors, I know that I am presenting to the service of the people of the City and County of San Francisco a man who comes from the people; a man who knows the problems of San Francisco; a man in whom I personally have the greatest confidence. Mr. Halley, I am sure, will bring harmony to the deliberations of the Board. I am not going to take up any more of your time because you have a lengthy calendar.

Here his Honor the Mayor presented Supervisor James L. Halley with his certificate of appointment and wished him every success in his new position; further expressing the hope that the Supervisor will find the work pleasant and that his efforts will redound to the benefit of the people of San Francisco.

Supervisor Mancuso: On behalf of the members of the Board of Supervisors, I have the honor and pleasure of saying a few words on behalf of the other members. I have had the pleasure of knowing you for a long time. You have shown in your activities as Director of the Civic League of Improvement Clubs of which you are now President, as well as your activities generally, that you do have the interest and welfare of the people of San Francisco at heart. You will find here on the Board of Supervisors probably the best place you can possibly find, to do something for the people. You will have the opportunity on many occasions, to pass judgment on matters of vital interest to the people. Your judgment in the past; your interest in civic affairs will make you a very valuable member of the Board. You will find that even though on many matters members disagree, when we leave the Chambers we are still good friends. You can be assured of our cooperation in every way and if you will help us with counsel and advice, the people of San Francisco can be really proud that a man of your character and ability saw fit to accept the appointment.

Supervisor Halley: Mayor Robinson, Mr. President, Members of the Board, Ladies and Gentlemen: First, I want to say that I am deeply grateful for the honor that Mayor Robinson has conferred upon me; secondly, I will do everything in my power to make your administration, as President of the Board of Supervisors, the success that it so richly deserves, and to my fellow workers, I will work with you and ask your cooperation in the solution of the many problems facing the people of San Francisco.

ready specific legislation in effect to provide for the return of all moneys received by the Sheriff apart from his salary; however, he had no particular objection to the proposed charter amendment, but felt there was sufficient legislation on the subject.

Proposal No. 7553, Resolution No. 7230 (Series of 1939).

increase the parking time to an initial twelve minutes; that this procedure, if true, was not a proper one and only tended to confuse the people.

Supervisor Mancuso requested that the Chief Administrative Officer supply information to the Board with respect to whether or not parking meters used by San Francisco actually give notice that they are out of order when such is the case, and whether or not it is true that some machines have been taken out of service by other communities after some three months' service or so.

He further stated he desired a few days in which to study the latest opinion of the City Attorney.

Mr. Raymond Smith, Executive Secretary of the San Francisco Real Estate Board, also termed the measure as "special legislation" for the benefit of two or three people living in cooperative housing, and further stated that a state of emergency as implied by the measure, certainly does not exist.

Motion for Privilege of the Floor—Carried.

Supervisor Gallagher moved, seconded by Supervisor Halley, that the rules be suspended for the purpose of hearing representatives of the different classifications, starting with the "A" classification.

No objection and motion *carried*.

Statement by Supervisor Gallagher.

Supervisor Dan Gallagher, Chairman of the Finance Committee, gave a brief talk on the study conducted by the Finance Committee on the subject of Salary Standardization; how the committee spent hours in hearing the various organizations interested in their respective classifications and at the conclusion of such hearings, such data as submitted by the organizations was considered in joint sessions by the Finance Committee and the Civil Service Commission, and as a result of these joint sessions, additional increases were agreed upon. The Committee feels, Supervisor Gallagher continued, that a fair and impartial study has been conducted all along and as a result a salary standardization program is being presented to the Board which is fair and equitable in every respect and hoped that the Board would accept the Finance Committee's recommendations.

The privilege of the floor was accordingly granted to the following:

1. John Jeffery, representing the C.I.O., who informed the Board that his organization was on record as favoring a straight across the board \$30 increase for the clerical workers, but presented no additional data to substantiate a possible further study by the Civil Service Commission.

2. Mr. J. D. Vanderlaan, representing Technical Engineers' Division, Operating Engineers, Local No. 9, A. F. of L., stated that he had

new data to support an additional increase of \$10 per month for the position of F604, Surveyor's Field Assistant, which he claims to be comparable to the position of F100, Junior Draftsman, and which would, if granted, have a range of \$240-300.

Supervisor Mead thereupon moved that the report of the Civil Service Commission be amended and that the request of Mr. Vanderlaan, together with such additional data supporting his contention that the position of F604, Surveyor's Field Assistant, should be granted an additional increase of \$10, be referred to the Civil Service Commission for analysis and report pursuant to the provisions of Section 151 of the Charter. Motion seconded by Supervisor McMurray and lost by the following vote:

Ayes: Supervisors McMurray, Mead—2.

Noes: Supervisors Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, J. Joseph Sullivan, John J. Sullivan—8.

Absent: Supervisor Christopher—1.

3. Mrs. Molly Minudri, representing an A. F. of L. Council of Municipal Employees, stated she was keenly disappointed at the Board's refusal to sit as a Committee of the Whole.

Mrs. Minudri stressed the necessity and justification of increasing the salary range for the position of T35, Group Supervisor.

Accordingly, Supervisor John J. Sullivan moved, seconded by Supervisor McMurray, that the report of the Civil Service Commission be amended, that request of Mrs. Minudri, accompanied by the additional data covering the position of T35, Group Supervisor, be referred to the Civil Service Commission for analysis and report. Motion lost by the following vote:

Ayes: Supervisors Lewis, McMurray, Mead, John J. Sullivan—4.

Noes: Supervisors Fazackerley, Gallagher, Halley, MacPhee, Mancuso, J. Joseph Sullivan—6.

Absent: Supervisor Christopher—1.

5. Mr. Richard Liebes, representing the maintenance employees, spoke for the following groups: C104, Janitor; C106, School Janitor, and C202, Window Cleaner.

Motion lost by the following vote:

Ayes: Supervisors Lewis, McMurray, Mead, John J. Sullivan—4.

Noes: Supervisors Fazackerley, Gallagher, Halley, MacPhee, Mancuso, J. Joseph Sullivan—6.

Absent: Supervisor Christopher—1.

6. H. E. McCormick, representing the Construction and General Laborers' Union, Local 261, spoke in favor of the following classes: J112, Supervisor of Street Cleaning; O298, Supervisor of Street Repair; J214, Assistant Superintendent, Bureau of Sewer Repair, and claimed that the foregoing positions are comparable to position of A8, Assistant Superintendent of Maintenance and Repair to Public Buildings, and accordingly asked for a range of \$500-600, for the three positions mentioned above, as well as for the position of J108, District Director of Street Cleaning.

Thereupon Supervisor Mead moved that the report of the Civil Service Commission be amended and that the four positions listed above be referred to the Civil Service Commission, together with proposed range of \$500-600 and such additional data as available, for

the Commission's analysis and report. Motion seconded by Supervisor John J. Sullivan and lost by the following vote:

Ayes: Supervisors McMurray, Mead, John J. Sullivan—3.

Noes: Supervisors Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, J. Joseph Sullivan—7.

Absent: Supervisor Christopher—1.

7. Mr. Joseph Meehan spoke for the following groups: O58, Gardener, and O60.1, Foreman Gardener.

Thereupon Supervisor John J. Sullivan moved, seconded by Supervisor Mead, that the report of the Civil Service Commission be amended and that the request of Mr. Meehan covering the position of C58, Gardener, together with such additional data as available, warranting the proposed range of \$200-240, be referred to the Civil Service Commission for analysis and report.

Accordingly, Supervisor Mead moved, seconded by Supervisor John J. Sullivan, that the report of the Civil Service Commission be amended and that the new data on position E52, Fire Dispatcher, together with the proposed range of \$260-320, be referred to the Civil Service Commission for analysis and report. ## Passage for Second Reading.

*Passed for Second Reading by the following vote:*

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan—10.

Absent: Supervisor John J. Sullivan—1.

**Salary Standardization Ordinance—Charter Sections 151 and 151.1,  
Effective July 1, 1948.**

Bill No. 5205, Ordinance No. . . . (Series of 1939).

## Communications.

The Clerk read communications from the Civil Service Commission, reporting on proposed amendments to the salary standardization schedules and relating to advice that further proposals for salary standardization adjustments would give the Commission no opportunity for necessary study, and from the San Francisco Bureau of Governmental Research, transmitting analysis of salary standardization recommendations prepared by the San Francisco Employers' Council.

Supervisor Gallagher moved adoption of the amendments to the schedules of compensations contained in Bill No. 5205 (Series of 1939), the Salary Standardization Ordinance effective July 1, 1948, heretofore proposed by the Finance Committee, and referred with accompanying data to the Civil Service Commission, and on which the said Commission has submitted its report pursuant to the provisions of Charter Section 151; seconded by Supervisor Mancuso.

At this juncture, Supervisor Mead brought up the question of additional compensation for Classification B454, Telephone Operators. The Supervisor contended that it was his understanding that this particular classification has always received the pay attached to the position of General Clerk, and accordingly he moved the privilege of the floor for Mr. Irving Breyer, representing the Board of Education, who expressed a desire to speak for the Telephone Operators.

## Point of Order—Well Taken.

Supervisor Mancuso rose to a point of order, contending that at the present time the only thing before the Board was the adoption of the Finance Committee's recommendations.

The Chair ruled the point of order well taken.

The roll was then called on Supervisor Gallagher's motion that the recommendations of the Finance Committee be adopted, and it carried by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

At this point Supervisor Mead inquired of the Deputy City Attorney as to the procedure that may be followed in regard to his request that Class B454, Telephone Operators, be accorded an additional ten-dollar increase in salary to bring them to a parity with the rate of General Clerk, to which Mr. Peddicord replied that if the Board adopted a motion to refer such a request to the Civil Service Commission, it must do so today; however, it was problematical whether the Civil Service Commission could report on the matter in **sufficient time** so as not to jeopardize the passage of the salary standardization ordinance by not allotting the measure the required time specified in the charter.

Supervisor Mead then inquired of Mrs. Kathleen Dolen, Supervisor of Wage Schedules and Classifications for the Civil Service Commission, whether it was true that the position of Telephone Operator had heretofore been paid the same rate accorded the position of General Clerk, to which Mrs. Dolen stated that prior to 1944, Telephone Operators were paid a lower salary than General Clerks; since 1944 and up to the present time, Telephone Operators and General Clerks were paid the same scale; however, in the conduct of the current salary standardization survey, facts were developed to prove that there existed a differential between the position of General Clerk and that of Telephone Operator.

#### Privilege of the Floor—Motion Lost.

Supervisor Mead moved, seconded by Supervisor John J. Sullivan, that the privilege of the floor be accorded Mr. Irving Breyer of the Board of Education. Supervisor Mancuso objected, stating that there was nothing before the Board and therefore saw no reason to listen to what Mr. Breyer might have to say.

The roll was then called and the motion to accord the privilege of the floor lost by the following vote:

Ayes: Supervisors McMurray, Mead, John J. Sullivan—3.

Noes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, J. Joseph Sullivan—8.

Supervisor Gallagher then moved, seconded by Supervisor Mancuso, that the Salary Standardization Ordinance—Charter Sections 151 and 151.1, effective July 1, 1948, be Passed for Second Reading.

Motion carried by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

#### Legislation Considered Out of Order.

Supervisor Gallagher moved, seconded by Supervisor John J. Sullivan, that the Board rescind its action in putting the legislation involving the transfer of funds for street cars, over for a period of two weeks.

Supervisor Christopher, in clarifying the situation, moved as a substitute, that the hereinafter captioned proposal, a Finance Committee recommendation, the consideration of which was postponed by the Board last week for a period of two weeks, be now considered. Motion seconded by Supervisor MacPhee and carried by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

Authorizing Controller to Transfer Allocations Within the 1947 Municipal Railway Rehabilitation Bond Funds in Order to Expedite Acquisition of New Modern Street Cars and to Provide Appurtenances Necessary in Connection Therewith.

#### Privilege of the Floor.

The privilege of the floor was accorded Mr. James H. Turner, Manager of Utilities, who replied to several questions propounded by the Supervisors.

#### Inviting Presence of Mayor.

Supervisor Fazackerley requested that the Mayor be invited to come to the Board meeting and speak on his proposed transportation plan.

The President ruled the request a reasonable one and requested that the Mayor be invited to attend.

Supervisor Mead moved, that pending arrival of Mayor, consideration of the foregoing matter be temporarily deferred and that the remainder of the calendar be taken up.

No objection and motion carried.

#### Supervisor Mancuso Excused From Attendance.

Supervisor Mancuso asked that he be excused, advising that he had a special committee meeting scheduled for 4 p.m.

Supervisor Christopher accordingly moved, seconded by Supervisor McMurray, that Supervisor Mancuso be excused.

No objection and so ordered.

Supervisor Mancuso excused at 4:10 p.m.

#### Resumption of Consideration of Bill No. 5061, Relating to Mechanical Amusement Devices and Bill No. 5113, Relating to License Fees of Mechanical Amusement Devices.

Sullivan, that consideration of Bill No. 5061, regulating the Mechanical Amusement Devices, and Bill No. 5113, imposing license fees on Mechanical Amusement Devices, be continued for a period of one week.

Proposal No. 7645, Resolution No. 7294 (Series of 1939).

Adopted by the following vote:

Supervisor Mancuso moved as a substitute, that in lieu of reference to committee, the Board authorize submission of declaration of policy on the matter. Motion seconded by Supervisor John J. Sullivan.

#### **Explanation of Vote.**

Supervisor Christopher stated that he was against submitting a declaration of policy to the people because he believed that the matter of Post Street widening might evoke quite a bit of prejudice and further he did not believe that such a matter was proper legislation to be submitted to the people.

#### **Point of Order.**

Supervisor MacPhee rose to a point of order, explained his reason therefor, whereupon the President ruled the point of order well taken and Supervisor Mancuso's substitute out of order.

#### **Statements by Supervisors.**

Supervisor Mead informed the Board members that the subject of Post Street widening has, periodically, been before the Board for the past ten years and that it was the duty of the Board to dispose of the matter in one way or the other.

Supervisor Lewis contended that the widening of Post Street was not the answer to the traffic problem; that there were many traffic engineers including those of the Joint Army-Navy Board who have contended that the widening of Post Street was not the answer, and that such proposed work on Post Street should be considered as a part of an over-all master plan for San Francisco.

#### **Motion to Resolve Into Committee of the Whole—Lost.**

Thereupon, Supervisor Gallagher moved, seconded by Supervisor Mead, that the Board resolve itself into a Committee of the Whole. Motion *lost* by the following vote:

Board of Supervisors to hear protests, if any, of all persons interested in the following described work done or in the assessment, diagram or warrant, for pay of the cost of the same, or in any property affected thereby: Improvement of portions of Gaven Street between Boylston and Merrill Streets by the construction of paving, etc., by Eaton and Smith, as described in Declaration of Intention, Order No. 26,171 of April 2, 1947, of the Department of Public Works.

Supervisor Gallagher presented a communication from the Chief Administrative Officer, submitting report on proposed establishment of one central private branch exchange telephone system to serve all departments located in the City Hall, Health Center Building, Public Library Building and Hospitality House.

**Discussion.**

Supervisor MacPhee stated that he desired to know how Mr. Brooks could curtail those departments not under his jurisdiction, and that he believed that the Clerk could direct a communication to each department setting forth the desires of the Board on this matter.

Mr. Brooks remarked that the Board should notify the Mayor that in his consideration of the budget he accommodate these changes, and also notify the Civil Service Commission that there will be a transfer of personnel and also a reduction.

Supervisor Mancuso moved that the communication of Mr. Brooks be sent to the City Attorney with the request that he report to the Board, next Monday, as to what procedure should be followed to make it effective.

Seconded by Supervisor Christopher.

Supervisor Gallagher said that before a vote it taken on the motion it might be possible to have the City Attorney and Controller explain to the Board.

The Controller explained that Mr. Brooks should put in his budget a central private branch exchange telephone system and the Board should eliminate wherever a telephone board appears in any other department.

Supervisor MacPhee moved that Mr. Brooks be requested to put in a supplemental budget to provide funds sufficient to operate a master switch board as outlined in his letter to us.

## Verbal Opinion of Deputy City Attorney.

Supervisor MacPhee inquired of Mr. Walker Peddicord, Deputy City Attorney, if the procedure outlined in the foregoing proposal was a legal one and whether a hearing can be held in the Civic Auditorium, to which Mr. Peddicord replied that the proposed meeting would be legal under Section 10 of the Charter, last paragraph, which provides that ". . . meeting of the board shall be held in the City Hall provided that, in case of emergency, the board, by resolution, may designate some other appropriate place as its temporary meeting place. . . ."

Mr. Peddicord continued by stating that existing conditions constituted an emergency and that Section 21 of the Community Redevelopment Act of the State of California provided that there shall be a hearing on the ordinance designating a redevelopment area and that at the time set for hearing, the legislative body shall afford an opportunity to all persons who desire to be heard and shall hear and consider communications. **Charter Amendment—Section 10, Relating to Number, Compensation and Meetings of Supervisors—Establishing Compensation for Office of Supervisor at \$400 Per Month and Changing Certain Wording With Respect to the Clerk's Keeping of Records so as to Clarify the Section.**

**Statements by Supervisors.**

Supervisor Lewis contended that while he was in favor of an increase in the compensation for the office of Supervisor, he believed that this should be accomplished through the process of Salary Standardization, but with the proviso that once an amount is recommended by the Civil Service Commission, the Board of Supervisors shall not have the power to either amend or reject such recommendation.

Supervisor Christopher expressed the opinion that the people should have the right to decide what salaries the Supervisors should be paid. However, he stated that the proposal of Supervisor Mancuso in submitting a monthly rate of \$400 is out of line and is not morally right. He believed that a monthly sum of \$300 would be more nearly correct and would have a better chance of obtaining the people's approval.

**Amendment—Lost.**

Supervisor Christopher accordingly moved that the amount contained in the foregoing charter amendment be reduced to \$300.

Motion lost for want of a second.

**Amendment—Lost.**

Supervisor MacPhee then moved that the amount of \$400 be reduced to \$350. Motion seconded by Supervisor Christopher, and lost by the following vote:

At the end of the title, add the following words: "An emergency ordinance."

In the first sentence of Section 1, after the words ". . . to be allowed and paid. . . ." add the following "subject to the fiscal provisions of the Charter."

In Section 5, add as new language at the beginning of the sentence the following: "Subject to the fiscal provisions of the Charter. . . ."

Add new Section 7 to read as follows:

"Section 7. This ordinance is passed as an emergency ordinance, the nature of the emergency being: there is a scarcity of electric power and energy throughout the State of California and particularly in the community in and about San Francisco, the Governor of the State has declared such an emergency to exist and it becomes necessary that immediate conservation of electric energy and power be effected, which makes it necessary for this ordinance to become effective forthwith."

*Ordered filed.*

The privilege of the floor was extended to Mr. Milton Marks, attorney-at-law, who explained the circumstances surrounding his appeal from the decision of the City Planning Commission in disapproving his request that land located on the north side of Lake Street, 82.5 feet east of 19th Avenue, be rezoned from First Residential District to Second Residential District, and that this date, April 5, was the last day on which the Board could act.

To a query propounded to John J. O'Toole, City Attorney, Mr. O'Toole replied that the statement just concluded by Mr. Marks could be construed by the Board as opening the hearing on the appeal.

Supervisor Lewis then moved that the matter be set up as a Special Order of Business in two weeks, at 3:00 p. m.

No second to the motion.

Supervisor Lewis then stated that he would introduce a resolution later in the meeting which would set April 5, at 3:00 p. m., as the time to hear the appeal from the decision of the City Planning Commission.

Attorney Milton Marks stated that if the Board deemed it necessary, he would waive any time limit which was obviously intended for the benefit of the appellant.

(\$2,750,000.)**

Proposal No. 7682, Resolution No. 7359 (Series of 1939).

### Privilege of the Floor.

The privilege of the floor was extended to the following:

George W. Ososke, Chief Probation Officer, Juvenile Court, who outlined the difficulties encountered by his department since the initial \$1,250,000 was voted upon by the people in 1944; the time that was spent in trying to obtain a suitable location for the new institution; then, when the site was finally located near the Laguna Honda Home, another long delay was occasioned by a suit brought against the Department of Public Works involving the architect's contract; and now that everything is in readiness to proceed, including completion of the architect's plans, it has been found that the costs of wages and building materials have risen tremendously, necessitating a bonded debt of \$2,750,000 to complete the edifice and necessary appurtenances.

Alfred H. Smith, representing the San Francisco Bureau of Governmental Research, who interrogated Mr. Ososke on several points.

At the conclusion of the statements above mentioned, Supervisor MacPhee moved that the foregoing proposal be submitted to the voters. There was no second; however, the President informed the Supervisor that no action could be taken in Committee of the Whole but that when the Board reconvened as a Board of Supervisors, motions would then be entertained.

**Determining and Declaring That Public Interest and Necessity Demand the Acquisition, Construction and Completion by the City and County of San Francisco of the Following Municipal Improvement, To-Wit: Buildings, Lands, Structures and All Other Works, Properties and Appurtenances Necessary or Useful for Sewage Treatment Works and Appurtenant and Outfall Sewers, All Within the City and County of San Francisco, and That the Estimated Cost of Said Municipal Improvement Is and Will Be too Great to Be Paid Out of the Ordinary Annual Income and Revenue of Said City and County. (\$15,000,000.)**

Proposal No. 7683, Resolution No. 7360 (Series of 1939).

### Privilege of the Floor.

The privilege of the floor was extended to the Hon. Thomas A. Brooks, Chief Administrative Officer, who informed the Board that state law provided that all raw sewage must be treated before being passed into the bay, and that San Francisco must have the use of three treatment plants and one sludge plant to perform the task required.

**Determining and Declaring That Public Interest and Necessity Demand the Acquisition, Construction and Completion by the City and County of San Francisco of the Following Municipal Improvement, To-Wit: Buildings, Lands, Structures and All Other Works, Properties and Appurtenances Necessary or Convenient for School Purposes Within the City and County of San Francisco, Including Additions to and Remodeling of Existing School Properties, and That the Estimated Cost of Said Municipal Improvement Is and Will Be too Great to Be Paid Out of the Ordinary Annual Income and Revenue of Said City and County. (\$87,000,000.)**

Proposal No. 7681, Resolution No. 7358 (Series of 1939).

### Privilege of the Floor.

The privilege of the floor was extended to Mr. George W. Johns, President of the Board of Education, who informed the members of the Board that the Board of Education had given the matter of rehabilitating and constructing new schools very thorough considera-

tion and many hearings. That in securing the services of Mr. Nicholas Engelhardt, the Board of Education had acquired the finest services available in the land and that the fee for Mr. Engelhardt's services would be one-half of one percent of the finished job; that the \$87,000,-000 requested is the very minimum for the emergency program.

Mr. Perlis stressed the fact that many of the owners in this area are war veterans and therefore cannot renew their application for another GI loan if forced to buy elsewhere.

The following, from Finance Committee without recommendation, was taken up:

Present: Supervisors Gallagher, Fazackerley, MacPhee.

Determining and Declaring That Public Interest and Necessity Demand the Acquisition, Construction and Completion by the City and County of San Francisco of the Following Municipal Improvement, To-Wit: The Improvement, Enlargement and Completion of the John McLaren Park, Golden Gate Park and Other Existing Parks, Squares, Athletic Centers, the Zoological Gardens and Yacht Harbor; for the Acquisition of Lands and the Improvement of Lands for New Parks; for the Construction and Rehabilitation of Buildings, Structures, Facilities and Other Improvements, Consisting of Irrigation Systems, Roads, Paths, Grandstands, Field Houses, Convenience Stations, Yacht Berths, Baseball Diamonds, Stadium, Pitch and Putt Golf Course, and for Other Works and Facilities Necessary or Convenient for Public Parks, Squares, Athletic Fields, Zoological Gardens and Yacht Harbor, and Buildings, Lands, Structures and All Other Works, Properties and Appurtenances Necessary or Convenient for Park Purposes All Within the City and County of San Francisco, and That the Estimated Cost of Said Municipal Improvement Is and Will Be too Great to Be Paid Out of the Ordinary Annual Income and Revenue of Said City and County. The privilege of the floor was extended to the following:

Mr. W. Lansing Rothschild, representing the San Francisco Convention and Tourist Bureau, who stated that lack of convention space was losing millions of dollars to the city, that countless requests from organizations have been turned down due to lack of space and that the proposed bond issue is a "must" if the city is to enjoy millions of dollars' worth of trade each year.

Mr. Walter Swanson, representing the San Francisco Convention and Tourist Bureau, stated that he is compelled to reject many requests for conventions due to lack of sufficient accommodations. That if the present proposed edifice were constructed, it would take the revenue of only part of the proposed accommodations to pay an interest rate of 2 per cent on the bonds to be sold and that the income from the project would assist materially in paying off the bond issue.

Mr. Henry S. Foley, representing the Carmen's Union, C. I. O., who spoke against the proposed bond issue.

Mr. R. H. Turner, Manager of Utilities, who answered the several questions propounded by different Supervisors.

Supervisor Christopher inquired of Public Utilities Counsel, Dion R. Holm, as to whether the existence of any contingent liabilities would fall upon the shoulders of the people, should the electorate approve the bond issue, and Mr. Holm replied that as far as he was able to determine by looking into the law, all that the city can do would be to go by comparison. He mentioned the fact that there were 191 suits which the city assumed by reason of the purchase of the Market Street Railway, and that the people who believed that they possessed liability suits against the city have been given wide opportunity to assert their claims. Mr. Holm concluded by stating that his interpretation of the law as it is presently written is that the city was proceeding as legally as it possibly could.

To another query propounded by Supervisor Christopher that, if after a study by competent authorities, the assets of the California Street Cable Company were found to be less than the proposed bond issue of \$200,000, is the city obligated to pay the full amount proposed, Mr. Holm replied that the city cannot make a gift of public money.

### Privilege of the Floor.

The privilege of the floor was accorded to the following:

Mr. Milton Marks, attorney-at-law, representing Mr. Louis Epp, the appellant.

Mr. Marks spoke to some extent and stated that he would be willing to enter into a stipulation to the effect that the area in question would be limited to the construction of flats.

Mr. Ernest Torregano, representing the City Planning Commission.

Mr. A. M. Brown, in opposition to the appeal.

Mr. Harry I. Zemansky, in opposition to the appeal.

### Explanation of Vote.

Supervisor Lewis stated that the proposed construction of flats would not only add to the appearance of the neighborhood but would bring much-needed revenue to the city coffers.

The President then put the question to the Board:

A vote "Aye" overrides the City Planning Commission; a vote "No" sustains the Commission.

The roll was then called and the City Planning Commission was sustained by the following vote:

Aye: Supervisor Lewis—1.

#### Privilege of the Floor—Denied.

Supervisor Christopher moved the privilege of the floor for a representative of the California League of Women Voters. Supervisor Halley objected.

Supervisor Lewis asked for a ruling on the matter as it applies to Rule 42 of the Rules of Order.

Mr. Walker Peddicord, Deputy City Attorney, stated that the form of the question governed its relation to Rule 42 and that it was entirely within the discretion of the President of the Board whether the question violated the intent of Rule 42.

A question was then asked of the representative of the California League of Women Voters on the charter amendment, whereupon Supervisor Lewis rose to a point of order, stating that the question was an attempt to circumvent the intent of Rule 42 of the Rules of Order; if the question was to be asked, it should not be a broad one nor should it take ten minutes to answer it.

The President ruled the point of order well taken.

Whereupon the roll was called on submission of the proposed charter amendment and it was *ordered submitted* by the following vote:

Proposal No. 7707, Resolution No. 7386 (Series of 1939).

April 5, 1948—Consideration continued to April 12, 1948.

#### Amendments.

Supervisor Gallagher moved that consideration of the foregoing be deferred for one week.

No second to the motion.

Supervisor Christopher asked the question as to whether the private interests of Mr. Keesling would interfere with the proposed duties as Counsel for the City and County of San Francisco, and accordingly moved that the proposal before the Board be amended to provide that Mr. Keesling be required to keep a record and file same with the Controller and the City Attorney, giving the names of all firms that he represents in Washington, D. C., and shall notify the Controller and the City Attorney of any additions to or deletions from said list.

Supervisor Lewis rose to a point of order, stating that he believed it was not within the province of the Board of Supervisors to offer any suggestions that would alter the contract between Mr. Keesling and the Mayor.

Supervisor Christopher then asked Mr. Dion Holm, Public Utilities Counsel, as to whether his amendment is a proper one, to which Mr. Holm replied that the language of the proposal permitted the making of such an amendment.

Supervisor Christopher then withdrew his previous amendment, there being no objection, and offered the following as an amendment: ". . . provided, further, that the contractor shall maintain with the Controller and City Attorney, a continuous list of the names of all clients represented by the contractor in Washington, D. C., and shall immediately notify the Controller and the City Attorney of additions or deletions to the list of the contractor's clients." Motion seconded by Supervisor McMurray.

Supervisor Lewis again rose to a point of order, stating that he believed that an amendment to a contract entered into between the Mayor and Mr. Keesling is not in order.

No action taken on point of order.

The roll was then called on Supervisor Christopher's amendment and it carried by the following vote:

### Discussion.

In connection with the above, Supervisor Christopher asked several questions of Mr. John Jeffrey, representing the C.I.O.

Question was also propounded to Mr. Irving Breyer, attorney for the Board of Education, who informed the Board members that the Board of Education had approved the ballot argument now being considered by the Board.

Supervisor MacPhee presented:

#### **Explanation of Vote.**

Supervisor Lewis: Supervisor MacPhee is correct insofar as having the matter heard in committee is concerned. If Resolution No. 7415 had not been signed by the Mayor, I would have been glad to second the motion to allow the matter to be considered by the Board. I am afraid if the Resolution passed by the Board is repealed, this action may be used by an organization to say that this Board of Supervisors, by resolution, was against universal military training. For that reason, I will vote against the suspension of the rules.

Motion seconded by Supervisor Halley.

#### Explanations of Vote.

Supervisors MacPhee and Mancuso voiced their opposition to the amendment, contending that since the benefits accruing from such an amendment would affect only a few, it was not proper that the cost of the arguments be borne by the taxpayers.

The roll was called on the proposed amendment by Supervisor Gallagher and it lost by the following vote:

Ayes: Supervisors Gallagher, Halley, McMurray, Sullivan—4.

Noes: Supervisors Christopher, Fazackerley, Lewis, MacPhee, Mancuso, J. Joseph Sullivan—6.

#### Resumption of Special Order of Business Set for 3:00 P. M., at Which Time His Honor the Mayor and James H. Turner, Manager of Utilities, Were Scheduled to Speak on Matter of Trolley Buses and on the Subject of Transportation Generally.

His Honor, Mayor Elmer E. Robinson gave a comprehensive talk on the subject of trolley buses, events beginning from September, 1946, when the thought of running for the office of Mayor first entered his mind. From then on the subject was carefully considered and upon his election, His Honor made a trip to Seattle to study the problem first hand from a city that had achieved fame as one possessing a model transportation system. His Honor then made a tour of eastern cities, gathering, as he went along, all possible information that might prove of value in solving the vexing transit problems confront-

ing San Francisco. Subsequently, the Board took action in appropriating money for 90 trolley buses. Bids were sent to 12 prospective bidders, only two bids were received and one of them was disqualified, and the other, the Westinghouse Electric Company, stated that it would take 305 days before the equipment would be ready. Action was then taken with respect to purchase of gas buses, and a letter was received by the Mayor from the Chief Administrative Office to the effect that the gas buses ordered were being loaded on flat cars and shipped here as fast as cars were available. After the Board had voted and the purchasing department took action to place orders for the gas buses, it became apparent to the electrical industry that here was cause for concern. They got busy and decided to do something to their interest, and began to say that they could procure overhead equipment sooner than previously stated. The Mayor concluded this phase of the discussion by stating that it was his intention to provide the people of San Francisco with the best possible transportation at the earliest possible moment.

With reference to the California Street Cable Railroad Company, the Mayor stated that the present Management of that company cannot operate as it stands today. If and when the city acquires the property and if and when the Public Utilities Commission decides that such cable lines do not afford the best possible service to the people, taking all other factors into consideration, the cable lines must go.

#### Consideration of Proposal Re Argument Favoring California Street Cable Railroad Company.

#### Authorizing Ballot Argument Favoring Passage of Proposed Bond Issue for Acquisition of California Street Cable Railroad Company.

The Clerk presented:

Proposal No. 7794, Resolution No. 7447 (Series of 1939).

#### Motion to Adopt—Amendment.

Supervisor Mancuso moved, seconded by Supervisor MacPhee, that the foregoing proposal be adopted.

Supervisor Lewis moved as an amendment, that the following language be incorporated into the ballot argument now under discussion:

"That it is the present policy, subject to changing conditions, to allow the cable cars to run on California Street for many years to come; with reference to the O'Farrell Street line, the cable cars are to be removed on Jones Street between McAllister and O'Farrell Streets and the cable cars on the remaining portion of O'Farrell Street are to be replaced as soon as it is practicable to do so, by modern means of transportation." No second to the foregoing motion.

#### Point of Order—No Action.

Supervisor Halley rose to a point of order, stating that the foregoing proposed amendment was not in accord with the policy of the Public Utilities Commission.

No action taken on point of order.

The roll was then called on Proposal No. 7794 and it was adopted by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, J. Joseph Sullivan—8.

## Statement by Supervisor MacPhee.

Supervisor MacPhee informed the Board members that since the opponents of an expanded air force and universal military training were not given the opportunity to discuss the merits of the contents of Resolution No. 7415 hereinabove mentioned, he believed that it would only be fair and proper to rescind previous Board action and have both proposals, the one on which action has been rescinded as well as the one he will re-introduce shortly, before the committee and thus afford an opportunity for both sides to express their views. Supervisor MacPhee further stated that his proposed action should not be construed as opposition by him to universal military training, but merely a desire to see that both sides of the question are thoroughly aired.

### Explanations of Vote.

Supervisors Halley, Mancuso and Christopher explained their opposition to Supervisor MacPhee's intention to rescind previous Board action in adopting Resolution No. 7415 (Series of 1939).

Supervisor Christopher stated that to take the action requested by Supervisor MacPhee would be tantamount to aiding and abetting those people whose avowed purpose is to destroy free government.

### Rescission of Action in Suspending the Rules.

Supervisor Halley moved, seconded by Supervisor John J. Sullivan, that the Board rescind its action whereby it had approved the suspension of the rules for the purpose of rescinding its action in adopting Resolution No. 7415 (Series of 1939).

Motion carried by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Mead—1.

### Re-introduction of Proposal—Suspension of Rules Refused.

Supervisor MacPhee moved the suspension of the rules for the purpose of considering the following proposal.

Motion seconded by Supervisor Fazackerley.

Repealing Resolution No. 7415 (Series of 1939), Which Memorializes the Senate to Approve a Program for an Expanded Air Force and Universal Military Training.

### CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Christopher, Fazackerley, Gallagher, Lewis, MacPhee, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—9.

Absent: Supervisors Halley, Mancuso—2.

Quorum present.

Supervisor J. Joseph Sullivan presiding.

### Explanation of Meeting and Rules of Order by President.

The President of the Board, J. Joseph Sullivan, informed the assemblage that the purpose of the meeting was to hear those parties interested in the proposed 1948-1949 budget; that ten minutes would be allotted to each speaker and that everyone would be given the opportunity to be heard; further, that the rules of order prohibiting applause or demonstration of any kind would be observed.

### Privilege of the Floor.

The privilege of the floor was extended to the following persons:

1. Mr. Carroll Newburgh, representing a number of apartment house people as well as owners of smaller real estate holdings.

Mr. Newburgh stated that San Francisco was facing a grave crisis and the very distinct possibility that many homes would be foreclosed by the end of the year, and recommended drastic cuts in the budget.

2. Mr. Joseph A. Sullivan, attorney-at-law, representing the Apartment House Industry.

Mr. Sullivan stressed the necessity of cutting the proposed budget to the bone and thus avert a probable run of foreclosures.

3. Charles A. Christin, president, the Owners' and Lessees' Apartment House Association.

Mr. Christin spoke of the urgency of finding other sources of revenue aside from the ad valorem taxes; that the tendency of increasing the taxes of real property owners has reached the saturation point beyond which it would be impossible to go.

4. Mr. Kenneth Evers, chairman, Tax Committee, San Francisco Real Estate Association of San Francisco.

Mr. Evers reiterated the stand of previous spokesman to the effect that the tax burden was assuming unbearable proportions and that every possible economy must be effected.

5. Mr. Harold Mills, representing the Industrial Section of the San Francisco Chamber of Commerce.

Mr. Mills asked that the privilege of the floor be granted to certain people who desired to speak on the airport phase of the proposed budget. No objection.

6. Fred Ellsworth, representing the Bay Area Aviation Committee, spoke on necessity of not trimming the airport budget and thus assist materially in maintaining San Francisco's status of having one of the nation's outstanding air fields.

7. Mr. Edward V. Mills, chairman, Mayor's Committee for the Airport Bonds, urged that no cuts be made in airport budget.

8. Mr. George Kenney of the Bay Area Aviation Committee spoke of the tremendous progress achieved by Mills Field and that it is necessary to increase the airport budget by \$200,000 in order to enlarge the Administration Building to take care of the growth and also to accommodate the United States Weather Bureau offices; that information had been received that in the event the building was not enlarged, the United States Weather Bureau would be compelled to seek space elsewhere, probably at the Oakland Airport.

#### Statement by Harry Ross re Capital Improvement.

To a query propounded to Mr. Harry D. Ross as to whether the Board had the power to add a capital improvement to the proposed budget, the Controller replied that the Board had no such authority.

9. Mr. Jack Silvey, representing the Bernal Progressive Club, spoke of desirability of the city embarking on a building program.

10. Mr. Harry D. Sullivan, representing the Committee for the development of Aquatic Park, spoke of the two million investment in Aquatic Park, and that the city should allocate one hundred thousand dollars to finish the job and consider the expenditure not in the light of a capital improvement but rather as a replacement expense.

11. Mrs. A. Crowe, representing Ingleside Coordinating Council, spoke of necessity of creating seven additional jobs of Public Health Nurse.

Mr. Jack Helms, representing the Bay Area Aviation Committee, urged the construction of fire house at Mills Field and employment of necessary personnel as there are no facilities available at the field in event of a calamity.

12. Mrs. Mona Bun, president, Home Division, Apartment House Owners of San Francisco, stated that those people who do not pay property taxes should pay, by some means or other, their proportion of the upkeep of government.

13. Dr. Henry Eggert, a member of the Owners' and Lessees' Apartment House Association, added his plea for a drastic reduction in the proposed budget.

#### Motion to Adjourn—Lost.

In view of the fact that the assemblage insisted on clapping, booing or showing other signs that were direct violations of the edict of the President of the Board in his effort to keep order, Supervisor Mead moved that the Board adjourn.

Motion lost for want of a second.

#### Privilege of the Floor (Cont'd)

14. Dr. Harold A. Grady, who asked that no effort be spared in alleviating the tax burden of the real estate holder.

15. Mr. Edmond Sullivan, president, Parkside District Improvement Club, asked that the Board be civic-minded and still keep the tax rate within bounds.

16. Mrs. Annie Scanlan, president, Women's Civic Center, spoke on advisability of keeping the tax rate on a reasonable basis and still keep apace with its construction program.

17. Mr. H. B. Jacobson, representing himself, expressed the opinion that if the taxpayers continued to be faced with increases in the tax rate, he would like to know what they (the taxpayers) were going to use for money.

**Statement by Supervisor Gallagher.**

Supervisor Gallagher informed the Board members and the assemblage, how certain items in the budget, totaling around \$7,500,000, were of a mandatory nature, such as increases requested by the Board of Education, increases for policemen and firemen, increases for the clerks of the Municipal Court, aid to needy blind, to the aged and to needy children. However, he assured those present that every possible reduction in the proposed budget that could be made would be made.

**Explanation of Policy by Supervisor Christopher.**

Supervisor Christopher stated that his policy with respect to the budget would be one against new employments and proposed capital expenditures.

**ADJOURNMENT.**

There being no further business, Supervisor John J. Sullivan moved, seconded by Supervisor Mead, that the Board adjourn. No objection and motion *carried*.

The Board adjourned at 10:10 p. m.

The Municipal Railway, the Supervisor contends, is having difficulty in meeting its payrolls unless it dips into the fund usually set aside for depreciation reserve, and that in view of the present condition of the railway, the best thing to do would be not to purchase property but to buy additional equipment.

Thereupon the roll was called and Proposal No. 7779 was refused adoption by the following vote:

Noes: Supervisors Christopher, Fazackerley, Gallagher, Lewis, MacPhee, J. Joseph Sullivan—6.

Accordingly, Supervisor Gallagher moved, seconded by Supervisor MacPhee, that Supervisors Lewis, Fazackerley and Mead be authorized to appear before the Oakland City Council for the purpose of explaining the objectives and plans of the proposed Bay Area Transportation Authority, and for the further purpose of requesting said Council to reconsider the action whereby association with such a proposed Authority was repudiated.

The President directed that the record show that under date of March 25, 1948 the City Planning Commission in a letter addressed to the Clerk of the Board Certified the following:

**"Convention Center Bonds."**

"The Master Plan contains no specific suggestion as to the location of a Convention Center. The construction called for in Proposal 7684 is not in conflict with the Master Plan as to its purpose. The location of such a building would have to be the subject of later review, since it is not mentioned in the Proposal.

"The City planning Commission recommends that studies of possible sites be undertaken in connection with the development of a comprehensive new site plan for the enlarged Civic Center."

It was pointed out to the Board by Mr. Dion R. Holm, Assistant City Attorney, that the language contained in both Proposals No. 7684 and No. 7899 is identical and that therefore the approval given as to Proposal No. 7684 would also apply to Proposal No. 7899.

### Motion to Suspend Rules.

Supervisor Fazackerley, seconded by Supervisor Halley, moved suspension of the rules for the immediate consideration of the proposal.

### Explanation of Vote.

Supervisor Christopher, in explaining his vote, stated that he was going to vote against suspension of the rules because in voting to broaden the tax base you are going to spend more. Purpose of voting against the suspension of the rules is way of protesting the additional expenditure of increased revenues.

Supervisor Mancuso, in explaining vote, remarked that the matter should be referred to Committee and a hearing had upon it. It is an important matter and should be given every consideration by the Board.

### Motion Withdrawn.

Supervisor Fazackerley withdrew his motion.

No objections and motion carried.

### Adoption.

The foregoing proposal was unanimously adopted by a rising vote.

### Collection of Sales Tax by the State of California.

Supervisor MacPhee stated that since so many cities and counties in the State of California have either a sales, use or purchase tax and since the percentage of the tax varies, it would be of great benefit to the cities and the counties if the State of California would collect all the taxes and then make a return to the respective cities and

counties. It might be possible under this plan to have the State increase the percentage of return to the cities and counties.

Supervisor Mancuso informed the Board that he would present this proposal at the convention of the County Supervisor Association.

**Investigation of the Matter of Regulating and Synchronizing Traffic Signals Throughout San Francisco.**

## UNFINISHED BUSINESS.

Consideration Continued.

The following recommendation from the Public Buildings, Lands and City Planning Committee was taken up:

Present: Supervisors MacPhee, Halley.

An Ordinance Designating and Describing a Redevelopment Area Within the City and County of San Francisco as Defined in and Pursuant to the Community Redevelopment Act of California.

Bill No. 5253, Ordinance No. . . (Series of 1939).

June 3, 1948—The foregoing bill was the subject of discussion by the Board of Supervisors, sitting as a Committee of the Whole in the Civic Auditorium, and action thereon was deferred until July 12, 1948.

Supervisor MacPhee moved that consideration of the foregoing bill be deferred for one week. Motion seconded by Supervisor Halley.

Supervisor MacPhee then attempted to dispel any possible anxiety of those persons residing in the Western Addition regarding rumors circulating in that district relating to wholesale evictions, by stating that the Urban Redevelopment Act of the State of California contained specific safeguards, guaranteeing that every person displaced shall be provided with adequate housing facilities at comparable rentals.

#### Amendment—Lost.

Supervisor Mead stated that before he could vote for Supervisor MacPhee's motion he desired certain information having to do with assurances that adequate housing would be furnished the evictees and that if and when the new housing units were finished, the evictees would be accorded priority of returning thereto.

Thereupon Supervisor Mead moved, seconded by Supervisor John J. Sullivan, that consideration of the foregoing bill be continued for a period of four weeks.

#### Speakers Against the Amendment.

Supervisor MacPhee stated that consideration of the subject bill had already been postponed for six weeks and that if Supervisor Mead desired any further information, he had plenty of time to get it.

Supervisor Mancuso stated that nothing would be gained by postponing consideration beyond the one week suggested by Supervisor MacPhee. What the Board is doing now is merely considering the adoption of an area within which the City Planning Commission would select a project area, and just as soon as this is done, then the question of seeking additional information regarding that particular project area would be in order.

Whereupon the roll was called on Supervisor Mead's amendment and it lost by the following vote:

Aye: Supervisor Mead—1.

Noes: Supervisors Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, J. Joseph Sullivan, John J. Sullivan—8.

Absent: Supervisors Christopher, McMurray—2.

#### Speaker Against Original Motion.

Supervisor Mead stated that he would vote against Supervisor MacPhee's motion for a week's continuance on the grounds that it is his policy not to vote on any matter about which he is not thoroughly familiar.

The roll was then called and consideration of Bill No. 5253, was continued for one week:

Ayes: Supervisors Fazackerley, Gallagher, Halley, MacPhee, Mancuso, J. Joseph Sullivan, John J. Sullivan—7.

Noes: Supervisors Lewis, Mead—2.

#### Consideration Continued.

The following, from Public Buildings, Lands and City Planning Committee with recommendation "Do Not Pass," was taken up:

Present: Supervisors MacPhee, Halley, Mead.

**Approving Rezoning of Certain Property in Marshall Square, Civic Center, from Second Residential District to Commercial District.**

Proposal No. 7941, Resolution No. . . . (Series of 1939).

The above proposal was the subject of much discussion. Chief Administrative Officer, the Honorable Thomas A. Brooks, informed the Board that in 1943 as a war measure, the area was turned over to the Navy Department for a parking lot. Now it is the desire of the city that the area be rezoned from second residential district to commercial district so that a gasoline station and parking lot lease may be entered into, and that bids have been offered by individuals and oil companies.

Supervisor Lewis expressed the thought that the area should be used to provide parking facilities for city employees and city officials' cars, in which thought Supervisor Gallagher concurred.

Supervisor Mead stated that he did not desire the area to be used in the manner described by Supervisors Lewis and Gallagher as he did not care to walk the intervening distance between the parking area and the City Hall.

However, since it was revealed that the proposed lease would contain a 30-day revocable clause, Supervisors Halley and Mead stated they would be in favor of the legislation.

At this point, Supervisor MacPhee stated that this matter should

be considered by the entire Board and accordingly moved that consideration of same be continued for a period of one week.

No objections and motion *carried*.

*Consideration continued one week.*

July 12, 1948—Consideration continued to July 19, 1948.

Supervisor MacPhee moved, seconded by Supervisor Mancuso, that the foregoing bill "do pass."

### Queries by Supervisor Christopher.

Supervisor Christopher inquired of Mr. Walker Peddicord of the City Attorney's office if the occupants displaced from their housing accommodations would be accorded the opportunity or preference of moving back, to which Mr. Peddicord replied that such arrangements or details would have to be worked out if and when the selection or approval of a project plan within the redevelopment area is before the Board for consideration.

### Explanation of Vote by Supervisor Mead.

Supervisor Mead stated that up to the present time he had not been assured that the persons displaced would be allowed to return and charged the same rentals previously enjoyed; that the temporary housing units to be constructed to accommodate the persons displaced would be demolished upon their being vacated, and that until the assurances could be given him, he could not vote affirmatively.

### Queries by Supervisor MacPhee.

Supervisor MacPhee asked Mr. Walker Peddicord, Deputy City Attorney, the following questions:

By the action of the Board of Supervisors today, will the property be condemned and the people forced to move out?

Mr. Peddicord: No.

Will anybody be able to bypass the Board of Supervisors in connection with action affecting a project plan?

Mr. Peddicord: The Project Plan must come before the Board for passage.

Thereupon the roll was called and Bill No. 5253 was *Passed for Second Reading* by the following vote:

**Printing of Board Calendar.**

Supervisor Mead called the Board's attention to the fact that for the past two meetings the calendar of the Board had been mimeographed instead of printed and wanted to know the reason for the change, and if such a change would not affect the employment of men in the printing trade.

The President of the Board, Supervisor J. Joseph Sullivan, ruled the inquiry out of order and suggested that such inquiry be brought up on roll call.

## Statement by Supervisor Christopher.

It was brought to Supervisor Christopher's attention that a portion of the money was to be used for the repair of small tools, whereupon the Supervisor stated that such expenditures should be made from daily earnings and not taken from a bond fund and that it was bad practice for the Board members to condone such a policy.

It was the understanding of the Board in approving the appropriation, it was doing so with the knowledge that the Public Utilities Commission would contact the City Planning Commission for approval as to conformity with the Master Plan.

Passage for Second Reading.

Recommendations of Finance Committee.

Fixing Schedule of Compensations, Effective July 1, 1948, to be Paid Certain Employees Subject to the Provisions of Section 151.3 of the Charter.

Supervisor Gallagher presented:

Bill No. 5414, Ordinance No. . . . (Series of 1939).

Discussion.

The Chairman of the Finance Committee, Supervisor Dan Gallagher, posed the following question to Mr. Dion Holm, Public Utilities Counsel:

Is it incumbent upon this Board of Supervisors to pass this schedule of compensation as an emergency measure?

Mr. Holm: You shall pass it not later than July 25. You are justified in considering this as an emergency measure for the purpose of meeting provisions of the law as outlined in the charter.

Supervisor Gallagher: We have been informed on previous occasions by the City Attorney's office that the ordinance should be passed on two separate readings.

Mr. Holm: If such is the case, it is merely good insurance. However, you are justified in passing it as an emergency measure.

Amendment.

Supervisor Gallagher moved that the following amendment appearing at the end of Section 8 and preceded by an asterisk, be adopted:

\*When, in addition to their usual duties, such employees are assigned duties of instructors of platform employees or bus operators, they shall receive twenty (20) cents per hour above the rate of pay fixed for platform employees and bus operators as herein provided.

Motion seconded by Supervisor McMurray.

Discussion.

Supervisor Mancuso observed that in view of the City Attorney's opinion, the proposed rates of pay should not be adopted but rather the Board await the outcome of the court case and in the meantime impound such monies as are necessary to make up the difference between the present and proposed rates so that if the City is overruled by the courts, the increase can be available.

Memorandum from Controller's Office.

The Clerk read portion of a memorandum from the Controller's office dealing with the effect of the Board of Supervisors fixing the rates of compensation for municipal employees under formula used in previous years instead of that recommended by the City Attorney in his opinion of July 6, 1948, together with points and authorities.

Reply of Mr. Henderson to Certain Allegations Made by Supervisor Mancuso.

In reply to certain allegations made by Supervisor Mancuso that the Civil Service Commission had passed the buck to the Board of Supervisors instead of the Commission fixing the rates of pay to be paid platform men and bus operators of the Municipal Railway, Mr. Henderson, Secretary and Personnel Director of the Civil Service Commission, stated that the Charter provides that the Civil Service Commission shall report to the Board of Supervisors the two highest rates of pay and the Board of Supervisors shall thereafter fix the rates of pay from the data submitted.

Mr. Henderson concluded his remarks by stating that when the first schedules were submitted in 1947, the Civil Service Commission

questioned the City Attorney's opinion. The Commission felt that the rates should have been paid on a sliding scale. However, the Civil Service Commission respected the opinion of the City Attorney and paid on the basis as outlined by the City Attorney.

#### Explanation of Vote.

Supervisor Mancuso: I am going to vote against the schedule not because the carmen are not entitled to \$1.48 per hour because I was one of the first to take the position that carmen were entitled to more pay than laborers were receiving. I took the position at that time that platform men were entitled to more money. However, here is an opinion from the City Attorney stating that the schedule is contrary to the provisions of the charter. Under the circumstances, I will go along with the City Attorney. I feel as one, that he is absolutely correct. The opinion should have been rendered two years ago.

Whereupon the roll was called and Bill No. 5414 was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisor Mancuso—1.

Declaring It to Be the Intent of the Board of Supervisors That in the Drafting and Submission of the Charter Amendment With Respect to the Salary for Platform Men and Bus Operators Employed by the Municipal Railway, They Should Receive One Rate of Pay Based Upon and Consisting of the Two Highest Rates Paid to Platform Men and Bus Operators in California.

Supervisor Gallagher presented:

Proposal No. 8078, Resolution No. 7721 (Series of 1939).

#### Statement by Supervisor Fazackerley.

Supervisor Fazackerley stated that in view of the fact that he was not a member of the Board at the time the rates of pay for bus operators and platform men were originally agreed upon, he did not feel that he should vote on the matter.

#### Amendment.

Supervisor Gallagher moved, seconded by Supervisor MacPhee, that the following language appearing in the eighth "Whereas" and reading as follows: ". . . upon the advice of the office of the City Attorney . . ." be deleted.

No objection and motion *carried*.

#### Explanation of Vote.

Supervisor Mancuso stated that he had voted against requests for the waiving of the Statute of Limitations; that under the oath of office and the Constitution of the State of California, it is unlawful to pass such a resolution now before the Board; that if these matters are statements of fact, they speak for themselves.

Thereupon the roll was called and Proposal No. 8078 was *adopted* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisors Mancuso—1.

#### Motion to Dispense With Roll Call.

Supervisor MacPhee moved, seconded by Supervisor Christopher, that the calling of the roll with respect to introduction of bills, proposals and communications, be dispensed with.

No objection and motion *carried*.

**Supervisor MacPhee Excused from Attendance.**

Supervisor MacPhee requested that he be excused from attending the recessed meeting of the Board to be held on Friday, July 23, 1948, at 10:00 a. m.; accordingly, Supervisor Christopher moved, seconded by Supervisor John J. Sullivan, that Supervisor MacPhee be so excused.

No objection and motion carried.

**RECESS.**

There being no further business, the Board of Supervisors at the hour of 4:20 p. m., recessed to reconvene on Friday, July 23, 1948, at 10:00 a. m. for the purpose of considering legislation amending the Annual Salary Ordinance and Annual Appropriation Ordinance to reflect changes in the compensation for employees subject to the provisions of Section 151.3 of the charter.

Board of Supervisors now sitting as a Board of Equalization. (See Board of Equalization Journal.)

JOHN R. McGRATH, Clerk.

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—9.

No: Supervisor Mancuso—1.

#### Explanation of Vote.

Supervisor Mancuso desired the record to show that since he had, on Monday, July 19, voted negatively on Bill No. 5414, fixing the rates of pay for platform men and bus operators of the Municipal Railway at \$1.484 per hour, because of an opinion of the City Attorney's office to the effect that such rate of \$1.484 was not reached in manner prescribed by Section 151.3 of the charter, and further, since he had also voted negatively on the proposal which declared it to be the intent of the Board of Supervisors that in the submission of the charter amendment with respect to salaries for platform men and bus operators of the Municipal Railway, they should receive one rate of pay based upon the two highest rates of pay paid such classifications in California, he expressed a desire to be consistent and also vote negatively on Bills Nos. 5425 and 5422 hereinabove outlined.

#### Passage for Second Reading.

An Amendment to Bill No. 5280, Ordinance No. 5024 (Series of 1939), the Annual Salary Ordinance for the Fiscal Year Ending June 30, 1949, Amending Section 77 Public Utilities Commission, Interdepartmental Services, for Construction Outside of San Francisco, by Reflecting Rates of Pay Established Since the Adoption of the Annual Salary Ordinance; This Ordinance to Become Effective as of July 1, 1948.

**Statement by Supervisor Lewis on Municipal Railway.**

Supervisor Lewis informed the members of the Board that in his opinion, it was just about the time for the Board to consider the possibility of turning over the management of the Municipal Railway to private enterprise, because it appeared apparent that even with a possible increase in fare to a straight ten cents, offset in some measure by the distinct possibility that an increase in salaries for platform and bus operators may be realized, it will be necessary for the Municipal Railway to obtain relief by an increase in the tax rate.

**Statement by Supervisor Lewis Regarding Electrical Inspection Fee of \$10.**

Supervisor Lewis stated that he had been contacted by the proprietors of many small firms who sell electric clocks and small radios, of their objection to paying the \$10 a year inspection fee in view of the fact that it was entirely unnecessary. Supervisor Lewis desired that the matter be referred to the appropriate committee for study.

*Referred to Finance Committee.*

**Statement by Supervisor Mancuso on Municipal Railway.**

Supervisor Mancuso stated that he thought it advisable for the Mayor to begin appointing a committee whose function it shall be to study the transportation problem. The Supervisor stated that he believed San Francisco should pattern its transportation policies after those now in effect at Seattle, where the fixing of rates and salaries is controlled by the railway management and not by the city councilmen.

**Report from Other Communities Regarding Transportation.**

Supervisor John J. Sullivan ventured the opinion that it would be a good idea if reports could be obtained from various communities relating to the financial structure of their respective transportation systems.

**ADJOURNMENT.**

There being no further business, the Board, at the hour of 11:00 a. m., adjourned.

Proposal No. 7941, Resolution No. . . . (Series of 1939).

July 19, 1948—Re-referred to Buildings Committee.

**Discussion.**

Supervisor Halley stated that he would be in favor of the rezoning if assurances were given him that no gasoline station would be permitted to be erected on the site. In replying, Mr. Brooks, the Chief Administrative Officer, stated that if such was the desire of the Board, he would be so guided.

**Statement by Supervisor Christopher.**

Supervisor Christopher stated that if the rezoning were permitted, it would only be a question of time before a service station would be erected; that the Civic Center is one of the most beautiful in the world; that the real solution would be the construction of an underground garage through the medium of a bond issue; that if the rezoning were permitted, it would be the first step in a period of deterioration, and if a vote must be had today, he would be compelled to vote against the proposal and move for reconsideration.

The Chief Administrative Officer, Mr. Brooks, stated that the area, if rezoned, would be used for parking purposes. As used today by the Navy, for parking purposes, there is no revenue derived by the city, and if the city should decide not to rezone the area, then steps would be taken to restore the location to its former status.

#### Motion to Adopt.

Supervisor Mancuso moved, seconded by Supervisor Halley, that Proposal No. 7941 be adopted.

#### Explanations of Vote.

Supervisor Halley stated that it was his understanding that plans were under way for a Civic Center Underground Garage and when that time arrived, he would go along with the views expressed by Supervisor Christopher; however, for the time being, he believed the city should attempt to get the revenue as well as providing parking space for cars.

Supervisor Lewis stated that he agreed with Supervisor Christopher's views; that the rezoning does not have to take place; parking meters would take care of the parking problem; further, the Board of Supervisors has been confronted by zoning appeals where the applicant desired a change from a residential to a commercial district and the City Planning Commission, in many cases, had stated that such rezoning to commercial should not be done. If this change is not good enough for the citizens, it is not good enough for the city. The Supervisor concluded by stating that in his opinion, the zone change requested is contrary to good government.

#### Motion for Reconsideration.

Thereupon the roll was called on Proposal No. 7941 as follows:

Ayes: Supervisors Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan—8.

Noes: Supervisors Christopher, Lewis, John J. Sullivan—3.

Before the result of the foregoing roll call was announced, Supervisor Christopher changed his vote from "No" to "Aye" and moved for reconsideration. Motion seconded by Supervisor Lewis.

The vote then stood:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan—9.

Noes: Supervisors Lewis, John J. Sullivan—2.

#### Motion for Suspension of Rules for Purpose of Immediate Reconsideration—Withdrawn.

Thereupon Supervisor Mancuso moved the suspension of the rules for the purpose of immediate reconsideration.

However, upon learning from Supervisor Christopher that his motive for requesting reconsideration was for the purpose of gathering additional information, Supervisor Mancuso withdrew his motion for the suspension of the rules, there being no objection.

*Consideration continued for one week.*

2:00 p. m.

The Board of Supervisors met in regular session.

## CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

Quorum present.

President J. Joseph Sullivan presiding.

City Planning Commission Overruled.

## SPECIAL ORDER—2:00 P. M.

Hearing of Appeal from the Decision of the City Planning Commission by Its Resolution No. 3432 Dated June 16, 1948, Disapproving Application to Rezone Property Located on the Westerly Line of Alemany Boulevard, 80 Feet South of the Southerly Line of Onondaga Avenue, from First Residential District to Commercial District.

## Privilege of the Floor.

The privilege of the floor was accorded to the following:

Mr. John Hagopian, Attorney for the appellant, who asked that the appeal be granted, as the area in question, only 10 feet in width, would merely provide storage space for materials used in the ice cream business operated by the appellant.

The following parties spoke in opposition to the appeal:

Mr. Clarence Loveridge, Vice-President of the Cayuga Improvement Club.

Mrs. Menicucci.

Mr. George Johns spoke on behalf of protestant.

Mr. Arthur Costa, former owner of property adjacent to area sought to be rezoned. Mr. Costa told the Board that he had just sold his home due to the constant noise caused by the machinery used in the ice cream store.

## Explanation of Vote.

Supervisor Mead stated that he had been convinced that the City Planning Commission should have approved the application to rezone the property in question but that upon hearing Mr. Costa make the statement that he had sold his home due to the noise caused by the machinery in the ice cream establishment adjacent to the property sought to be rezoned, he could not conscientiously vote to overrule the City Planning Commission.

### Procedure Outlined.

The President of the Board informed the members as to the parliamentary procedure:

A vote "Aye" overrules the City Planning Commission; a vote "No" sustains the City Planning Commission.

### Consideration of Proposal.

Thereupon the Clerk read the following proposal:

Disapproving Action of the City Planning Commission by Its Resolution No. 3432 Dated June 16, 1948, Denying Application to Rezone Property Located on the Westerly Line of Alemany Boulevard, 80 Feet South of the Southerly Line of Onondaga Avenue From First Residential District to Commercial District.

*Finally Passed* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

**Authorizing City Attorney to Enter Into Agreement With Orrick, Dahlquist, Neff, Brown and Herrington, for Securing Legal Opinion in Connection With Sale of Bonds.**

Proposal No. 8083, Resolution No. 7756 (Series of 1939).

July 26, 1948—Consideration continued to August 2, 1948.

#### **Motion—Withdrawn.**

Supervisor Gallagher moved that the language of the resolution be changed to provide that the President of the Board of Supervisors be empowered to enter into a contract with the bond attorneys for securing legal opinion on sale of bonds, instead of empowering the City Attorney to do so.

At this point, Supervisor Mancuso stated that he had additional information concerning the matter before the Board and has arrived at the conclusion that the procedure outlined in the resolution now being considered by the Board in which the City Attorney is being empowered to enter into contract with the bond attorneys, is the proper one to follow.

In view of the above statement, Supervisor Gallagher withdrew his motion.

The roll was then called on Proposal No. 8083 and it was *adopted* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

#### **Directing Clerk of Board of Supervisors to Advertise Notice of Sale of Bonds.**

#### **Motion to Change Date of Sale of Bonds.**

At the direction of Mr. Dion R. Holm, Public Utilities Counsel, City Attorney's office, Supervisor Mancuso moved, seconded by Supervisor Gallagher, that the date of bond sale be changed from August 16 to August 23, 1948.

No objection and motion *carried*.

Thereupon the roll was called on Proposal No. 8088, as amended, and it was *adopted* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

#### **Adopted.**

The following recommendation of Public Buildings, Lands and City Planning Committee heretofore considered, was taken up:

Present: Supervisors MacPhee, Halley.

**Approving Action of City Planning Commission in Rezoning the Northerly Line of Ocean Avenue Between Phelan Avenue and Westwood Park From First Residential District to Second Residential and Commercial Districts.**

Proposal No. 8103, Resolution No. 7760 (Series of 1939).

July 26, 1948—Consideration continued to August 2, 1948.

**Motion to Refer to City Planning Commission for Further Study—Lost.**

Supervisor Mancuso moved, seconded by Supervisor McMurray, that the foregoing proposal be re-referred to the City Planning Commission for further study.

Supervisor MacPhee stated that he had no objection of re-referring the matter to the City Planning Commission provided that the City Attorney stated that it could legally be done.

Mr. Holm, Public Utilities Counsel, City Attorney's office, stated that he knew of no law that prohibited the re-reference of the subject matter to the City Planning Commission but stated that a specific request should be made upon the City Planning Commission.

#### **Explanation of Vote.**

Supervisor Mancuso stated that he was not opposed to the idea of rezoning portion of Ocean Avenue but insisted that he believed the whole of said area should be rezoned commercial instead of only a portion of it; that there must be selfish motives somewhere to have inspired only the partial rezoning of Ocean Avenue, and since the City Attorney had ruled that the matter can properly be re-referred to the City Planning Commission for further study, he believed that this action should be taken.

Thereupon the roll was called on Supervisor Mancuso's motion to re-refer to the City Planning Commission and it lost by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Halley, Mancuso, McMurray—5.

Noes: Supervisors Gallagher, Lewis, MacPhee, Mead, J. Joseph Sullivan, John J. Sullivan—6.

The roll was then called on the adoption of Proposal No. 8103 and it was adopted by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mead, J. Joseph Sullivan, John J. Sullivan—9.

Noes: Supervisors Mancuso, McMurray—2.

#### **Final Passage.**

The following from Public Buildings, Lands and City Planning Committee, heretofore considered, were taken up:

Present: Supervisors MacPhee, Halley.

**An Ordinance Designating and Describing a Redevelopment Area Within the City and County of San Francisco as Defined in and Pursuant to the Community Redevelopment Act of California.**

Bill No. 5253, Ordinance No. 5082 (Series of 1939).

July 12, 1948—Consideration continued to July 19, 1948.

#### **Point of Order—Sustained.**

Supervisor Mead attempted to call the Board's attention to the fact that some 80,000 people were to be moved from the Western Addition once the redevelopment program was under way. At this point Supervisor MacPhee rose to a point of order, stating that such remarks should not be made at this time since they could not be construed as applying to the subject under discussion.

The President ruled the point of order well taken.

Thereupon the roll was called and Bill No. 5253 was *Finally Passed* by the following vote:

Ayes: Supervisors Christopher, Fazaackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisor Mead—1.

#### Consideration of Legislation Out of Order.

Supervisor MacPhee moved the suspension of the rules for the purpose of considering the following proposal out of order. Motion seconded by Supervisor John J. Sullivan. The Supervisor requested that same be referred to the Public Buildings, Lands and City Planning Committee as well as sending a copy of it to the City Attorney for determination as to legality.

No objection and motion *carried*.

**Declaring Necessity for Formation of Redevelopment Agency as Defined in Section 34 of the Community Redevelopment Act of California.**

Proposal No. 8131, Resolution No. . . . (Series of 1939).

*Referred to Public Buildings, Lands and City Planning Committee.*

#### Supervisors Excused.

Supervisor Gallagher moved that Supervisors Fazaackerley, Mancuso and MacPhee be excused from further attendance. Motion seconded by Supervisor John J. Sullivan.

No objection and motion *carried*.

However, attention of the Board was called to the fact that there was an emergency measure on the calendar; accordingly, it was duly moved, seconded and carried that the rules be suspended for the purpose of considering the following bill out of order.

#### Final Passage.

**Appropriating \$3,500 From General Fund Surplus, 1948-1949, to the Credit of the Retirement System, to Provide Funds to Defray Cost of Actuarial Survey Incident to the Changes Contemplated by Proposed Charter Amendment Granting Increases in Monthly Retirement Allowances, Payable in the Future on Account of Employees Heretofore Retired or Hereafter Retiring Under Section 165 of the Charter; an Emergency Ordinance.**

Bill No. 5436, Ordinance No. 5087 (Series of 1939).

*Finally Passed* by the following vote:

Ayes: Supervisors Christopher, Fazaackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

#### Reconsideration—Lost.

From Public Buildings, Lands and City Planning Committee Without Recommendation.

Present: Supervisors MacPhee, Halley.

#### Reconsideration.

**Approving Rezoning of Portion of Marshall Square From Second Residential District to Commercial District.**

Proposal No. 7941, Resolution No. 7755 (Series of 1939).

July 19, 1948—Re-referred to Buildings Committee.

July 26, 1948—Adopted by the following vote:

Ayes: Supervisors Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan—8.

Noes: Supervisors Christopher, Lewis, John J. Sullivan—3.

Before the result of the foregoing roll call was announced, Supervisor Christopher changed his vote from "No" to "Aye" and moved for reconsideration. Motion seconded by Supervisor Lewis.

#### Communication.

The Clerk read a communication from the San Francisco Planning and Housing Association requesting the Board of Supervisors to disapprove the proposed rezoning of Marshall Square.

#### Explanation of Vote.

Supervisor Lewis reiterated his stand expressed at a previous meeting of the Board, that parking meters would do the job expected to be performed by rezoning and that he was, accordingly, opposed to the proposed change in zone.

#### Statement by Chief Administrative Officer.

The Chief Administrative Officer, Mr. Thomas A. Brooks, informed the members of the Board that about two years ago the Board, by resolution, instructed the Director of Property to lease the land in question. By reason of the Board's request, he asked the City Planning Commission to rezone the property. The then Commission refused, and he then asked the present Commission to do so and they have. The only purpose to rezone the property was to determine if anyone would be interested in leasing it. Mr. Brooks concluded his remarks by stating that the city should derive a monthly income of around \$1,000.

Thereupon the roll was called on Supervisor Christopher's motion to reconsider and it lost by the following vote:

Ayes: Supervisors Christopher, Lewis, Mead, John J. Sullivan—4.

Proposal No. 8154, Resolution No. 7797 (Series of 1939).

Determining and declaring that public interest and necessity demand the acquisition, construction and completion by the City and County of San Francisco of the following municipal improvement, to wit: Improvement of the San Francisco Airport in San Mateo County, including additions thereto so as to provide the necessary facilities for the landing, taking off, housing and harboring of aircraft engaged in national and international air commerce, together with all other planes engaged in air commerce generally, patronizing said airport, together with additional lands, operating area and runways for said planes, hangars, shops, harbors, channels, wharves, jetties, piers, ramps, breakwaters, and other structures including lighting facilities, drainage and sewer facilities, buildings and equipment for utility service and for the accommodation of passengers and patrons, the grading, draining, filling and paving of any portion of said airport and the airport lands now under the jurisdiction of the Public Utilities Commission, together with the doing and acquisition of all other things and matters which will enable said San Francisco Airport to meet the requirements and regulations of the several departments of the Government of the United States, as well as of air transport companies, relative to the operation, landing, taking off, housing, and harboring of aircraft, the construction of roads and ways on or through said airport, and the aiding of the State of California or the Government of the United States in the construction of roads adjacent to said airport, all in order to do and perform any and all of the matters hereinabove referred to for the improvement of said San Francisco Airport, and that the estimated cost of said municipal improvement is and will be too great to be paid out of the ordinary annual income and revenue of said City and County.

### Discussion.

Supervisor Mead made inquiries as to why it was always necessary, on matters of this kind, to come back and request that additional bonds be sold. He requested information as to whether or not this bond issue included everything to be done at the Airport.

### Explanation of Vote.

Supervisor Mancuso, in explaining his vote, stated that he was going to vote against the proposal because he did not believe that the Board should go on record at this time as favoring the establishment of tennis courts in the Palace of Fine Arts, but should see what could be done with the property before committing itself.

Supervisor Lewis, in explanation of his vote, remarked that he was going to vote for the proposal because tennis courts are necessary in the Palace of Fine Arts, and that they were there before the war and if the war had not come along they would still be there.

Supervisor Lewis moved that in the drafting of the resolution there be a separation of continuances and discontinuances and that the matter be postponed for one week.

**Point of Order.**

Supervisor Christopher rose to a point of order and stated that the motion is out of order because every person whose relief has been discontinued has an opportunity to appear before the Public Health and Welfare Committee and appeal from the ruling of the Public Welfare Commission.

**Requesting Careful Study of All Requests for Appropriations or for Expenditure of Moneys in Any Manner, and Requests for Additional Employments.**

Supervisor Gallagher remarked that he had been informed that the tax rate would be approximately \$6.00 and that from now on the Board should scrutinize each request for appropriations very carefully and that appropriations should not be passed in a haphazard manner. Everything possible should be done to curtail expenditures for the remaining portion of the fiscal year so that a surplus will exist to reduce the tax rate for the next year.

Supervisor MacPhee added to Supervisor Gallagher's statements by saying that the Board should give more consideration to requests for new employments, retirement benefits and for additional services or anything that will in any way tend to increase the tax rate.

**Requesting Information as to Whether or Not It Would Be Feasible to Remove the Bowling Greens at Sigmund Stern.**

Supervisor Mancuso requested that a letter be sent to Mrs. Sigmund Stern inquiring whether or not she would have any objections to the Recreation Department removing the bowling greens at Sigmund Stern Grove and establishing a children's recreation center. A copy of said letter to be forwarded to Miss Randall of the Recreation Commission.

Supervisor Lewis objected to the letter being sent from the Board.

The Chair ruled that the letter be sent out over Supervisor Mancuso's signature.

**Urging Support of Senate Constitutional Amendment No. 14 Relative to Reimbursement of Cities for Exemptions Granted Veterans.**

Supervisor Mancuso urged that whole-hearted support be given to Senate Constitutional Amendment No. 14 that will appear on the November ballot. If this matter carries it will mean a return of approximately \$2,000,000 annually from the State as a result of exemptions that had been given to veterans on their homes, etc.

**Requesting That Further Consideration Be Given to the Possibility of Making the Board of Supervisors a Full Time Position.**

Supervisor Mancuso stated that he believed the Board should be a full time Board. By being on a full time basis better service could be given the City and County of San Francisco and more economy could be practiced. Supervisor Mancuso requested that further consideration be given to the proposition of making the Board a full time position and not a part time position.

**Removal of Bowling Greens at Sigmund Stern Grove and Establishment of a Children's Recreation Center.**

Supervisor Mancuso requested that a letter be sent to Miss Randall, as head of the Recreation Department, and inquire whether or not we can have the bowling greens at Sigmund Stern put to a more useful purpose.

Supervisor Lewis objected to the communication.

Supervisor Mancuso then requested that a letter be sent by the Clerk to Miss Randall asking whether or not she can put the bowling greens at Sigmund Stern Grove to a more useful purpose, such as a children's recreation center.

The Chair ruled that this communication should be sent out under Supervisor Mancuso's signature.

**Employment of Full Time Budget Investigators by the Board of Supervisors.**

Supervisor McMurray remarked that the Board has appropriated \$20,000 to survey city departments. Believe that the Board should have its own investigation service on a full time basis to supply the Finance Committee with information they need in connection with city expenditures. Supervisor McMurray requested that the Finance Committee give this matter serious consideration.

**Adopted.**

**In Memoriam—Babe Ruth.**

Supervisor Mead presented:

Proposal No. 8203, Resolution No. 7835 (Series of 1939).

**Suspension of the Rules.**

Supervisor Mead, seconded by Supervisor Lewis, moved suspension of the rules for the immediate consideration of the proposal.

No objections and motion *carried*.

**Adoption.**

*Adopted by the following vote:*

ROBERT J. DOLAN, Acting Clerk.

## APPROVAL OF JOURNALS.

The Journals of Proceedings for May 17, 18, 19 and 22 and July 26, 1948, were considered read and approved.

## Mayor's Veto Overridden.

From the Mayor, vetoing Proposal No. 8167, relative to Wage Scales for Private Employment on Public Contracts.

## Reference to Committee—Out of Order.

Supervisor Mead stated that in view of the contents of the Mayor's letter wherein it was indicated that the Associated General Contractors were not given an opportunity to be heard in connection with the setting of rates for private employment on public contracts, he would move the matter be referred to the Finance Committee. Motion seconded by Supervisor John J. Sullivan.

## Point of Order.

Supervisor Gallagher rose to a point of order, stating that the motion was out of order because the only thing before the Board was whether or not to sustain the Mayor's veto.

The President ruled the point of order well taken.

**Motion to Postpone Consideration—Substitute Carried.**

Supervisor Mead moved, seconded by Supervisor John J. Sullivan, that consideration of the Mayor's veto be postponed for a period of two weeks.

**Statement by Supervisor Gallagher.**

Supervisor Gallagher, Chairman of the Finance Committee, refuted the charges made by the Associated General Contractors that they were not afforded a hearing on the matter. Telephonic notice was sent to the Contractors at the time the Finance Committee was meeting, and the committee was informed by a representative of the Contractors that his organization was meeting that very day with the Civil Service Commission on the same matter. The Civil Service Commission met and considered the claims of the Associated General Contractors and ruled that same were not in order. Since that time, the Board has passed the rates as recommended by the Civil Service Commission and there were no objections at the time the rates were up for consideration by the Board. However, since the adoption of the rates by the Board, he had heard that there was talk of some new rates.

**Communication Read.**

At the request of Supervisor Gallagher, the Clerk read a memorandum addressed to the Supervisor from Mr. Harry Albert of the Civil Service Commission bearing on the subject.

**Committee of the Whole.**

Supervisor Gallagher thereupon moved as a substitute, that the Board resolve itself into a Committee of the Whole for the purpose of considering the Mayor's veto. Motion seconded by Supervisor Halley.

**Privilege of the Floor.**

The privilege of the floor was accorded the following:

**Motion to Rise and Report—Carried.**

**Motion to Incorporate Communication Into Record.**

Supervisor Gallagher moved, seconded by Supervisor MacPhee, that the following be made a part of the record. No objection and motion carried.

**Statement Relative to Mayor's Veto of Resolution Establishing Wage Scales for Private Employment on Public Contracts.**

Supervisor Gallagher.

August 30, 1948.

The first point that the Mayor raises is that the representatives of the Associated General Contractors were not accorded a full hearing before the Finance Committee.

In this connection, the representatives of the A. G. C. appeared before the Finance Committee on Wednesday, August 11th, and protested against inclusion of certain rates in the resolution. At the time of said appearance, the rates in question had not been reported on by the Civil Service Commission to the Finance Committee, and the Commission was to hear arguments on said rates, and come to a determination regarding them, later on during the same afternoon, Wednesday, August 11th.

I quote from a letter addressed to the Board of Supervisors by the Civil Service Commission on August 10: "Will you please place an item on your calendar of the Finance Committee for Wednesday, August 11, as follows: Wage Scales for Private Employment on Public Contract. These wage scales will be adopted by the Civil Service Commission on Wednesday, and it is important that they appear on the calendar of the Board of Supervisors for Monday, August 16, 1948. There are new contracts to be let which should be let under the current rates of pay as indicated in the proposed resolution."

In view of the urgency indicated in the Commission's letter, the Finance Committee agreed to submit to the Board of Supervisors on Monday, August 16th, the rates to be recommended by the Commission.

In view of the hearing to be held that afternoon by the Civil Service Commission before it established the rates, it was suggested to the representatives of the A. G. C. that they make their representations before the Commission, as a means of expediting the entire procedure. No protest was made by said representatives and they in fact proceeded for the purpose mentioned to the chambers of the Civil Service Commission. In view of the A. G. C.'s acquiescence in the procedure followed, there would seem to be an element of estoppel which should result in a denial of their protest at this late date.

As to the impropriety of rates established by the Board of Supervisors for the four classifications mentioned in the Mayor's letter, it should be borne in mind that, even though the Board is not confined in its deliberations to consideration of data furnished by the Civil Service Commission, and *may* consider such other evidence as it deems proper, the Board is a legislative, not an administrative, body. It has no facilities with which to conduct an independent investigation as to the rates in question, and must of necessity place great reliance in the data furnished it by the Civil Service Commission. In cases of doubt or conflict the Board may in all propriety accept the data furnished by the Commission, and legislate accordingly.

In conclusion, there can be no doubt that the Finance Committee and the Board of Supervisors in their actions which culminated in the adoption of Proposal No. 8167, proceeded in an entirely proper, legal and ethical manner.

**Motion by Supervisor Lewis—Ruled Out of Order.**

Supervisor Lewis moved that before a vote is taken by the Board on the subject-matter, the City Attorney be asked to give an opinion as to the meaning of the phrase "highest, general prevailing rate."

The President ruled the motion out of order.

To a question propounded by Supervisor Lewis to Assistant City Attorney, Walker Peddicord, as to whether the "highest, general prevailing rate" would apply to only one contract, Mr. Peddicord stated that it would.

**Explanations of Votes.**

Supervisor Mancuso: This matter was only sent to the Board of Supervisors based upon the fact that the Mayor stated that the Associated General Contractors did not have the opportunity to be heard in committee. They have been heard in the Board and since Mr. Peddicord has stated that we are merely sitting as a legislative body and further, since the Civil Service Commission has certified the rates in the resolution, I cannot do other than to override the Mayor's veto.

Supervisor Halley: Since the objections of the Mayor have been met, I will vote to override the Mayor's veto.

**Question Put.**

The President informed the Board members that a vote on the Mayor's veto was now in order.

A vote "Aye" overrides the Mayor's veto. A vote "No" sustains.

Thereupon the roll was called and the Mayor's veto was *overridden* by the following vote:

#### Incorporation of Statement by Supervisor Edward T. Mancuso in Journal of Board.

Supervisor Mancuso requested that a statement by him as President of the County Supervisors' Association of California to the Senate Interim Committee on State and Local Taxation, Alameda Court House, Oakland, California, on August 27, 1948, be made part of the record.

No objection and so ordered.

Statement by Edward T. Mancuso, President, County Supervisors Association of California, to the Senate Interim Committee on State and Local Taxation, Alameda County Court House, Oakland, California, August 27, 1948.

Senator Hulse and Members of the Senate Interim Committee on State and Local Taxation: I wish to make a few introductory remarks today speaking to you from the standpoint of all the counties of California, as President of the County Supervisors Association. We are pleased to have been invited to appear before you. I say this sincerely because we know from past experience that you men are the friends of county government and local government generally in California. We know that you want to hear directly from us as to what our tax problems are.

In 1947 at the regular session of the Legislature we had good evidence of the sound approach of your Committee in its tax thinking in relation to local government in California. This was amply demonstrated with reference to the distribution to local government of receipts from the automobile "in lieu" tax and from the liquor license fee tax. Of even greater significance in this respect was your sponsorship of SCA No. 14 passed at the 1947 regular session, which is known as Proposition No. 18 at the coming November election. The recommendations of your Committee on these matters were also the recommendations of our Association. We gave them strong support and cooperated with the League of California Cities and other statewide groups in working for the enactment of these three measures. The favorable situation of local government in seeing eye to eye with the men on the Senate Committee has resulted in success right down the line.

Again at the budget session of the Legislature this year, your Committee's recommendation with respect to the method and rate of taxation which should apply to motor vehicles met with our wholehearted approval and support. Once more we found it a pleasure and a satisfaction to work with you in giving joint support for a proposition which was fair both to the automobile owner who pays the tax and to the fiscal requirements of local government.

Speaking for the counties of California, we are grateful for the tax relief already provided. In dollars and cents, this means something very tangible to the counties in relation to budgets and local tax rates. It means, for example, millions of dollars available to us from non-property tax sources which otherwise would have to be raised by increased levies on common property. Translated into terms of cents in the tax rate, we consider that your Committee's successful sponsorship of tax relief legislation means this year at least .08¢ taken off of county tax rates. In other words, except for this tax relief, tax rates of the counties of California on the average would be .08¢ higher than they are for the fiscal year 1948-49. This, gentlemen of the Committee, means much to us as responsible officials of local government interested in providing essential services and at the same time in avoiding a burdensome load upon the local property tax payer.

In expressing to you our appreciation for tax relief already accomplished I do not wish to imply that the counties have been inactive in furthering our own interests and welfare. On the contrary, we have attempted to miss no opportunity of presenting our side of the case both from the standpoint of policy and factual information. It has been our responsibility in many instances to give the reasons why in support of the measures which I have already mentioned. The counties of California for this purpose maintain a statewide Association with a full-time staff. It is our opinion that except for this organization and staff, essential information would be lacking in the consideration by the Legislature of matters basic to the counties' interests.

In connection with one of the tax relief measures which your Committee recommended and which the Legislature passed—SCA No. 14—Ballot Proposition No. 18, at the November election, we realize fully that much remains to be done in informing the people as to the nature of the proposition and the reasons why it should be approved. Our Association from the beginning has sponsored and affirmed its strong support of this proposition. This action has been followed by similar action by the League of California Cities and many other groups, including 6 out of 7 of the Regional Councils of the State Chamber of Commerce, the California Teachers Association, the School Trustees Association, the California Farm Bureau Federation and the California Congress of Parents and Teachers. We shall continue to give the proposition our active and vigorous support.

*Need of County Government for Additional Tax Sources*

Now I want to say a few words about what the counties of California are still facing so far as finances are concerned. We have made progress and we have received help. This has come partly from our own efforts and in the final analysis it was due to the help of those in the Legislature who voted in favor of the measures which we supported. We still have a serious problem to face in the form of unmet local needs for additional services and facilities without adequate financial resources to meet them. This situation has grown out of restricted activities during the war and an unprecedented growth in population.

The thinking of the counties on the subject, if I may venture to express it, is that programs designed to meet these local needs demand that counties have a broader base of tax support than is now available to them.

In meeting their fiscal problems, the counties are of the firm conviction that they must avoid placing an undue burden upon the owners of real property. They feel that additional revenues from other sources should be used to supplement present property tax revenues. At the same time, the counties are equally convinced that additional revenues should be local in character and subject to local spending and local control. We want our own money for our own purposes as we understand them. In the future, we do not want to be forced into a position of appealing to the Federal and State governments for grants and subventions beyond the point that such additions are justified on the basis of a recognized and obvious Federal and State interest in specific programs.

I do not wish to go into detail as to the specific measures we have in mind to help us out of our fiscal dilemma—others on the program will do that during the course of the day. You are interested, I think, in getting a broad sampling of what the county tax problems are straight from individual county men. As you can see, we have a goodly number of representatives here this morning to present the case for the counties. Most of these men will express to you what their individual situation is and how they see the future with respect to financing their operations. Other speakers will emphasize the regional point of view in their presentations. They will speak for groups of counties who are banded together for the purposes of effective action on an area basis.

Before closing may I again thank you for the opportunity of being here this morning on behalf of the County Supervisors Association and the counties of California.

**Request of Supervisor Mancuso on Rule Revision.**

Supervisor Mancuso requested that the Rules Committee consider a revision of Rule 50, Subdivision 22, so as to permit debate on a motion to suspend the rules.

**Request of Supervisor Gallagher Relating to Public Utilities Commission Budget Deficiency.**

Supervisor Gallagher requested that he be informed whether or not a resolution from the Public Utilities Commission prior to adoption of the Annual Appropriation Ordinance in which statement was made of the Municipal Railway deficiency to be met by the tax rate.

No objection and so ordered.

**RECESS.**

Supervisor Gallagher moved that the Board recess until the hour of 2:00 p. m., Wednesday, September 1st, 1948, to consider the Tax Rate Ordinance for the Fiscal Year 1948-1949; an ordinance amending the Annual Appropriation Ordinance to reflect certain revenue

and expenditure adjustments, and such other matters as may properly come before the Board. Motion seconded by Supervisor Christopher.

No objection and motion *carried*.

Board recessed at 6:30 p. m.

Quorum present.

Announcement of Meeting of Finance Committee.

UNFINISHED BUSINESS.

Passage for Second Reading.

The following from Finance Committee, heretofore considered, were taken up:

Present: Supervisors Gallagher, Fazackerley, MacPhee.

Bill No. 5507, Ordinance No. . . (Series of 1939).

August 30, 1948—Consideration continued to September 1, 1948.

Committee of the Whole.

Supervisor Gallagher moved that the Board resolve itself into a Committee of the Whole for the purpose of hearing persons interested in the subject matter before the Committee. Motion seconded by Supervisor John J. Sullivan, and *carried* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

Written Opinion From the City Attorney.

Supervisor Gallagher stated that he had asked several questions of the City Attorney with respect to increased appropriations to the Public Utilities Commission and up to the present moment, had not heard from that office.

The President informed Supervisor Gallagher that the Clerk had received a written opinion from the City Attorney. The Clerk thereupon was ordered to read the opinion relating to the Tax Levy Ordinance, Estimates of Revenue to Meet Expenditure Appropriations of Annual Appropriation Ordinance, a Function of the Board of Supervisors.

Supervisor Gallagher questioned Assistant City Attorney, Walker Peddicord, relative to legality of appropriating moneys from certain funds, and Mr. Peddicord advised the Supervisor that such a question should be directed to the Controller.

Supervisor Gallagher thereupon propounded the following question to Mr. Harry D. Ross, Controller:

Supervisor Gallagher: If there are some funds available for construction and extension of a public utility, may these amounts be deleted from the Annual Appropriation Ordinance?

#### Point of Order.

Supervisor Mead rose to a point of order, stating that the Board was sitting in Committee of the Whole and that Supervisor Gallagher's question was premature.

The President ruled that the question was permissible at this time.

Mr. Dion Holm, Public Utilities Counsel and Assistant City Attorney: The general rule would be this. Once you have adopted your budget, the Supreme Court ruled in the Sullivan case, that that becomes your fiscal Bible for the ensuing year. If you have made provision in the budget for capital expenditures, it is a matter of legislative duty to make appropriations in accordance with capital expenditures provided in the budget.

Mr. Harry D. Ross, Controller: Section 74 defines the power of the Board to make appropriations beyond the revenue of any utility. Every appropriation made for the Municipal Railway during the fiscal year is either for operation or maintenance. The Controller's office would not permit expenditure for any other purpose.

The President, at this point, read the fourth paragraph of Section 130 of the Charter, pertaining to the rates for utilities, and the procedure to follow should a deficiency occur.

Mr. James H. Turner, Manager of Utilities, requested Mr. Ross to amplify his previous statement.

Mr. Ross: At Budget time the Board of Supervisors appropriated money for operation and maintenance of the Municipal Railway. In July, under Section 151.3 of the Charter, the Board of Supervisors added some \$970,000 additional amount to be paid platform men. This brought the total of the budget in excess of \$20,000,000. It was not possible at the time of the budget to estimate amount of revenue. We had to wait. The problem before the Board is—

Supervisor Mancuso: If the Board of Supervisors does not provide any money for the Public Utilities Commission, is it incumbent upon them to raise the rates?

Mr. Ross: It becomes the duty of the Controller to curtail their operation.

Mr. Holm: The Charter contemplates that the Public Utilities will provide the exact rate to be fixed for the operation of the railroad. I don't suppose it is within the ken of any mind to anticipate what the railroad will do when you have abandoned many of the revenue-producing lines. I don't know if the members of the Commission or anybody in the world can anticipate the rate necessary to meet the operating expenses, requirements for bond interest, redemption, etc.

At this point, the President of the Board asked Mr. Holm if, as a condition precedent to the Board's action in establishing or enacting

a tax levy ordinance for the fiscal year, it is necessary that the Public Utilities Commission first recommend a fare structure for the Municipal Railway or for any utility under its jurisdiction, the revenue from which will be sufficient to provide for the maintenance and operation of such utility.

Mr. Holm: Going back to the President's question and yours, Mr. Mancuso, in view of the entire situation and the fact that a rate is now in existence, the answer would be "No," and if the Commission has failed to have adequate rates established, then it is incumbent upon you to go ahead and meet the requirements of the railroad until a reasonable period of time has been allowed the Commission to reach a conclusion as to what will be necessary to run the railroad.

Supervisor Mancuso: Is it not a fact that as early as April of this year, the Public Utilities Commission recognized the fact that fare revision is necessary and an investigation by the Commission revealed the fact that it would be necessary to have a larger fare than the  $8\frac{1}{3}$  cents or see an increase in the tax rate?

Mr. Holm: I do not know whether it was as early as April, but as you sit here today, if they were to say that a ten-cent fare might not be sufficient to realize sufficient revenues, I would say that it would not be sufficient to meet operating costs. I don't know but what it would take quite an extensive engineering survey to determine the correct rate in view of the extensive changes through which they are going.

At this point, Supervisor Mancuso inquired if a progress report on the activities of the Public Utilities Commission had been made to the Mayor. Mr. Holm could not answer; however, Mr. Phil Landis, President of the Commission, stated that such a report had not been made to his knowledge, unless one were to construe his recent letter to the Mayor and to the members of the Board of Supervisors as such a report.

Supervisor Christopher inquired of Mr. Turner whether a report he had requested with respect to existing employments was forthcoming, to which Mr. Turner replied that such a report was being prepared by Mr. Dave Lewis of the Mayor's office.

Supervisor Christopher: Mr. Turner, at the time of the consolidation of the Market Street Railway, that railway had about two thousand employments, and the Municipal Railway had some 1800. Has there been an increase?

Mr. Turner: Definitely.

Supervisor Christopher: What accounts for the increase in the operating expense of the Municipal Railway?

Mr. Turner: The increase is due to salaries and increase in service.

Supervisor Christopher: During the periods, 1945, '46 and '47, when some services were discontinued, you were increasing your office staff?

Mr. Turner: In order to meet the requirements of accounting and office procedure, it was necessary to undergo considerable reorganization and we used platform men to do clerical work during the war years.

Supervisor Halley requested Mr. Turner to elaborate on report of vehicular hours after consolidation in November as compared to July of 1948.

Mr. Turner: In November, there were 248,000 vehicular hours to 270,000 hours in July. Man hours of all employees in November, 720,000; in July, 727,000. Man hour per vehicular hour in November, 2.90; in July, 2.68, a differential of .22%, an indication of the efficiency under present conditions.

### Privilege of the Floor.

The privilege of the floor was accorded Mr. Gerald Pickle of the Electricians' Union, who urged passage of the proposed measures now before the Board.

Mr. Sam McKee, member of the Public Utilities Commission, also urged passage of the measures, contending that if the Commission were forced to raise the fares to 12 cents or 11 tokens for one dollar, Labor and the downtown people would complain.

Supervisor Mancuso: If I vote for the tax rate as proposed, under Section 130 of the Charter I am not doing my duty as a Supervisor.

Mr. James Hurst, representing the Municipal Conference Committee, stated that the increase in the tax rate would seriously affect the small property owner and doubted if the Municipal Railway will be able to pay for bond interest and redemption.

### Rise and Report.

Supervisor Lewis moved, seconded by Supervisor John J. Sullivan, that the Committee rise and report.

No objection and motion *carried*.

Supervisor Lewis: I maintain that our first job is to relieve congestion by the construction of freeways and subways. Money spent on street cars is being wasted away. Vehicles cannot move through congestion, and that is what's happening. The only thing we can do is to pass the tax rate. We are stuck with it.

### Motion to Pass Proposed Tax Levy—Withdrawn.

Supervisor Lewis moved that the proposed tax levy be passed for second reading. Motion seconded by Supervisor McMurray.

Supervisor Lewis withdrew his motion, there being no objection, because of statement by Supervisor Gallagher that those Supervisors who desired to express their opinions on the measure pending, had not been accorded the opportunity to do so.

### Five-Minute Recess.

Supervisor Gallagher moved, seconded by Supervisor MacPhee, that a five-minute recess be had. No objection and motion *carried*.

Upon the return from recess, the Clerk was directed to read Bill No. 5507, amending the Annual Appropriation Ordinance in order to reflect certain revenue and expenditure appropriation adjustments.

The Controller informed the members of the Board that the foregoing measure contained increases in the Municipal Railway budget to conform to state and charter law.

### Motion to Delete Appropriation From Municipal Railway—Lost.

Supervisor Gallagher moved, seconded by Supervisor Christopher, that the sum of \$806,277 be deleted from the Municipal Railway budget.

Supervisor Lewis asked for a legal ruling as to the propriety of the motion.

Mr. Walker Peddicord, Deputy City Attorney, ruled that as to parliamentary procedure, the motion was in order; as to legality, any alteration in the revenue estimates made in the Annual Appropriation Ordinance must be based upon fact, not upon conjecture, and the question of legality would be determined by the court's conception of whether the estimate was based upon guess or fact.

Supervisor Lewis: Is the motion of Supervisor Gallagher legal or illegal?

Mr. Peddicord: Since no facts have been presented, the motion is illegal.

Supervisor Mancuso: Is it true that we, as a legislative body, are also a fact-finding body?

Mr. Peddicord: Yes, sir.

Supervisor MacPhee: The passage of the ordinance is the only proper approach. To reduce the estimates now would be treading on dangerous ground. Savings must be effected by economy methods in the Municipal Railway.

Supervisor Mancuso: I want to explain my vote. I am going to vote for the motion. The Controller has advised us what will result if this is done. The Controller is probably correct, that there will be a curtailment of service if the amount is deleted, unless the Public Utilities Commission does something about it in accordance with Section 130. If the Board votes for the deletion, then it is incumbent upon the Public Utilities Commission to find ways and means of securing additional revenues.

Supervisor Gallagher: The Public Utilities Commission knew on April 24 of this year of the condition. When we passed the appropriation ordinance and budget, the Public Utilities Commission must have known at that time what the conditions were and should have asked for a fare increase at that time if they so desired.

Supervisor Mead: I am fearful that chaos will ensue if a reduction is voted for. This is a very serious matter. I suggest and move as a substitute motion, that the amendment be tabled.

*Motion withdrawn.*

Thereupon the roll was called on Supervisor Gallagher's motion and it lost by the following vote:

Ayes: Supervisors Christopher, Gallagher, Mancuso, J. Joseph Sullivan—4.

Noes: Supervisors Fazackerley, Halley, Lewis, MacPhee, McMurray, Mead, John J. Sullivan—7.

#### Passage for Second Reading.

The roll was then called on Bill No. 5507 and it was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Fazackerley, Halley, Lewis, MacPhee, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—8.

Noes: Supervisors Christopher, Gallagher, Mancuso—3.

#### Passage for Second Reading of Bill No. 5506, Tax Levy Ordinance, 1948-1949.

Supervisor Lewis moved, seconded by Supervisor John J. Sullivan, that Bill No. 5506, the Tax Levy Ordinance for the Fiscal Year 1948-1949, be passed for second reading.

#### Explanations of Votes.

Supervisor Christopher stated that it was his opinion that a Supervisor should not be compelled to vote under duress and he, accordingly, was voting against the measure.

Supervisor Mancuso: I have voted against the appropriation ordinance setting up increased compensation for members of the Municipal Railway as a result of an opinion from the City Attorney. That sum is now included in the tax rate. It was never my intention to appropriate the lion's share of the sales tax to subsidize the Municipal Railway. Section 130 of the Charter provides that rates for each utility shall be so fixed that the revenue therefrom shall be sufficient to pay all expenses for the next fiscal year, together with interest and sinking fund for any bonds issued for the acquisition, construction or extension of any utility. No such provision has been made. The Public Utilities Commission should have submitted to the Board a fare structure to provide for the operation of the Municipal Railway on a self-supporting basis.

## Statement of Supervisor Gallagher Made Part of the Record.

Supervisor Gallagher requested that his following written statement be made part of the record. There were no objections and so ordered.

Analysis of Tax Levy for 1948-49—Supervisor Gallagher,  
August 30, 1948.

The proposed tax rate for the fiscal year 1948-1949 is \$6.09 as compared with a tax rate of \$5.62 for the last preceding fiscal year. Those figures represent an increase of 47¢, which, in spite of generally advancing costs on every hand, would seem to indicate that our budget should have been inspected with a more economy-focused eye. And yet I believe that a brief review of the items which comprise the proposed tax levy will prove that, as to those matters over which the Board of Supervisors has the power to exercise control, rigid and proper economies have been effected, and the tax levy for such items is generally lower than it was in the preceding budget.

Under Section 78 of the charter, the tax levy must not exceed the rate of \$1.65 on each \$100 valuation of the property assessed in and subject to taxation by the city and county, exclusive of certain enumerated items. Last year the levy for this item was approximately \$1.49—this year it will be approximately \$1.42—a reduction of 7¢. Within this amount of \$1.42 is an allocation of \$1.12 for the General Fund, to meet the general expenses of the City and County. Last year the allocation was \$1.22 for this purpose, and therefore it will be readily seen that this item, responsibility for which lies in the Board of Supervisors, has been materially reduced, despite having to contend with rising costs.

When it is considered that the compulsory school tax for the San Francisco Unified School District has leaped from approximately \$1.37 to approximately \$1.65, an increase of 28¢, and that the tax rate this year will include an unprecedented item of 21½¢ for the purpose of subsidizing Municipal Railway operations, you will realize that, but for those matters, not traceable to this Board of Supervisors, the tax levy for this year would have been less than that for last year. Bear in mind that those two items alone represent an increase of 49½¢ and yet the tax rate will be increased by only 47¢.

Thereupon the roll was called and Bill No. 5506 was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Fazackerley, Halley, MacPhee, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—7.

Noes: Supervisors Christopher, Gallagher, Lewis, Mancuso—4.

Reference to Committee.

Requesting That the Department of Public Works, the Police Department and the California Automobile Association Adopt a Policy That Would Provide Ways and Means of Disposing of Useless Poles and Signs and Standardizing the Future Erection of Poles and Signs. Supervisor Christopher presented:

Proposal No. 8309, Resolution No. . . . (Series of 1939).

*Referred to Police Committee.*

Request of Supervisor Christopher.

Supervisor Christopher requested that the Mayor give consideration to the appointment of a citizens' committee for the purpose of examining into work stoppages on the waterfront and for the further purpose of submitting recommendations for the effective avoidance or speedy settlement of work stoppage problems which may occur in the future.

The Clerk was directed to communicate the above suggestions to the Mayor.

Rescission of Previous Board Action on Bill No. 5532.

Supervisor Christopher moved, seconded by Supervisor Fazackerley, that the Board rescind its action whereby it gave final passage to Bill No. 5532, appropriating \$474,711 out of surplus in appropriations of the 1947 Municipal Railway Rehabilitation Bond Fund to provide funds for purchase of 40 trolley coaches.

No objection and motion *carried*.

Discussion.

Question arose as to just what amount was appropriated by the Board on passage for second reading and on final passage of Bill No. 5532, i. e., whether it covered the total amount of \$524,711 or \$474,711.

Mr. Walker Peddicord, Deputy City Attorney, stated that the Board had heretofore passed for second reading said bill appropriating the sum of \$474,711 and had caused such bill to be published.

The President ruled that the Board had on September 17, 1948, passed for second reading Bill No. 5532 (Series of 1939), appropriating a total of \$474,711.

The President inquired of Mr. Peddicord whether or not the Board could legally finally pass said bill in the total amount of \$524,711 today, to which Mr. Peddicord replied that if said bill could be construed as meeting the emergency provisions contained in Section 16 of the Charter, it could be so finally passed.

Supervisor Mead suggested that the disputed \$50,000 be added to the appropriation heretofore passed by the Board and that an emergency clause be inserted.

No action was taken by the Board with respect to said suggestion.

Motion—Carried.

Supervisor Gallagher, seconded by Supervisor Mancuso, moved rescission of action whereby Bill No. 5532, on September 17, 1948, was passed for second reading, in the total amount of \$474,711.

No objection and motion *carried*.

**Motion—Held in Abeyance.**

Supervisor Gallagher, seconded by Supervisor Christopher, moved that Bill No. 5532 be passed for second reading in the total amount of \$524,711.

Motion held in abeyance.

**Motion to Expunge Previous Action—Carried.**

Supervisor Gallagher, seconded by Supervisor Mead, moved that the entire record of the Board of Supervisors' proceedings on September 17, 1948, and on this date up to the present moment, insofar as it pertains to actions of the Board with respect to Bill No. 5532, be expunged.

No objection and motion carried.

## Consideration Continued.

## SPECIAL ORDER—2:00 P. M.

Hearing of Appeal from Decision of City Planning Commission by Its Resolution No. 3475, Dated August 19, 1948, Disapproving Application to Rezone Property Located on the Southwesterly Line of Oakdale Avenue and Quint Street, from Commercial District to Light Industrial District.

## Privilege of the Floor.

The privilege of the floor was extended to the following:

*Proponent: Attorney Jefferson E. Peyser.*

The Board was informed by Mr. Peyser that the rezoning appeal, if successful, would not change the nature of the business in any

way; it would merely permit the present dyeing and cleaning establishment to take in additional work that would be available from commercial establishments; that property across the street and down the block was zoned light industrial and since no change in the physical structure of the plant would take place, Mr. Peyser appealed to the Board members for a favorable vote.

*Opponents:* The following persons spoke against the proposed rezoning appeal:

Mrs. A. Squaglia, Joseph Cereghino. These parties stated they desired to enjoy their properties and not be annoyed by additional business.

#### Explanations of Vote.

Supervisor Mead stated that he was fearful the people in the neighborhood were afraid of a bugaboo that didn't exist; that normally the plant is closed on Sundays, thus permitting the people to enjoy the use of their property; that many industries have been moving either down the peninsula or to the east bay and that efforts should be made to put a stop to such industrial migration.

Supervisor Christopher stated that he could not go along supporting the appeal because he felt that assurances should be given people when purchasing their homes, that such districts will not be put to a different use; that the adjacent area offered opportunities for expansion and that the parties affected should move to such area.

#### Communication.

A petition was presented by the Clerk, signed by property owners living in vicinity of Oakdale Avenue and Quint Streets, protesting the appeal.

#### City Planning Commission Sustained.

The President of the Board explained the parliamentary situation, thus:

A vote "Aye" overrides the City Planning Commission and sustains the appeal; a vote "No" sustains the City Planning Commission and defeats the appeal.

The Clerk presented the following proposal:

Disapproving Decision of the City Planning Commission by Its Resolution No. 3475 dated August 19, 1948, Disapproving Application to Rezone Property Located on the Southwesterly Line of Oakdale Avenue and Quint Street from Commercial District to Light Industrial District.

Proposal No. . . . Resolution No. . . . (Series of 1939).

NOTE: The following matter set out in italics and bracketed is ordered expunged from the record:

*[The roll was then called and the City Planning Commission was sustained by the following vote:*

*[Ayes: Supervisors Gallagher, Halley, Lewis, Mancuso, McMurray, Mead, John J. Sullivan—7.*

*[Nocs: Supervisors Christopher, Fazackerley, MacPhee, J. Joseph Sullivan—4.*

#### *[Rescission of Action.*

*[Supervisor Mead moved, seconded by Supervisor John J. Sullivan, that the Board rescind its action whereby it had adopted a proposal sustaining the decision of the City Planning Commission, disapproving application to rezone property located on the southwesterly line of Oakdale Avenue and Quint Street from Commercial District to Light Industrial District.*

*[Statement by Walker Peddicord, Deputy City Attorney.]*

[Mr. Walker Peddicord, when questioned as to the propriety of such a motion, stated that an off-hand opinion would indicate that there was some question in his mind as to the legality of such a procedure; however, he would have to look further into the matter before a formal, written opinion could be given.]

**Record Expunged.**

Supervisor Gallagher moved, seconded by Supervisor MacPhee, that the record beginning with the vote on the appeal, be expunged.

Talk Delivered by Supervisor Edward T. Mancuso at Denver October 5, 1948, at Conference of National Tax Association.

### WHY LOCAL GOVERNMENT URGES TAX PAYMENTS ON FEDERAL REALTY

I wish to take this opportunity of expressing the appreciation of myself and the County Supervisors' Association of the State of California for the privilege of appearing on your program today to present the California Counties' views on the question of "in lieu" tax payments in connection with federal land ownership.

As a local legislator in one of the counties which is vitally affected by the increasing trend of federal land ownership and its effect on the ad valorem tax base, and as President of the County Supervisors' Association of the State of California, I am naturally very much interested in this problem as it begins to become increasingly dangerous to the very existence of local autonomy.

You are all aware, as well as I am, of the tremendous increase that has taken place in tax exempt federal property. It has grown to such alarming proportions that unless soon checked, local tax insolvency and destruction of "home rule" may be the inevitable results.

This disastrous effect upon local tax structures is one of the many serious problems now confronting public officials, and it strikes at the very heart of local government itself.

It is the feeling of our Association that one of the most constructive means of counteracting the accelerated rate of increase in federal land ownership is by passage of "in lieu" payment legislation at the earliest possible date.

One of the major obstacles encountered so far in seeking a practical solution to the problem has been the lack of nation-wide coordination and the failure of all groups who should be wholly and vitally interested, to recognize that fact, regardless of the type of property in which they are interested, or the time and manner of its acquisition, use or location.

The effect of federal ownership and tax exemption insofar as the local tax structure is concerned, is the same in principle as it affects all parties, varying only in degree.

Therefore, we have taken from the very beginning, and continue to take the stand that legislation embodying all the acceptable and

reconcilable features of the present conflicting laws, dealing with individual problems, is the only intelligent solution of we are to free local government from this intolerable tax burden.

We are now in the process of preparing, and hope shortly to have completed, a draft or several drafts of legislation which will accomplish this purpose and which will include relief for all the communities of the United States in the hope that it might be eventually submitted to and passed in the 81st Session of Congress.

It is our express desire and hope that your organization, being at least as well informed as we are of the necessity for tax relief, will not only endorse such legislation, but will also take a leading part in recommending and urging adoption by all of your respective legislative bodies of resolutions calling for the passage of such legislation, and urging further, that proper representative groups from all communities be sent to Washington when congressional committee hearings are held, to present a united front, and aid in procuring favorable action.

It is our thought that when these drafts are completed, comprehensive consideration will be given to the effect on all sections of the nation, from every angle of the problem.

No one will dispute the fact that, should the ultimate result be the enactment of such remedial legislation, there would be an immediate retrenchment in federal holding of lands which are no longer needed by the federal government, with a corresponding return of this property to local tax rolls, thereby giving additional relief to the presently burdened taxpayer.

The general property tax is still the most important tax in our local revenue structure. It is the basic source of revenue of local government. No adequate substitute has as yet been devised. Therefore, if we are to maintain our cherished system of "home rule," and thereby keep government close to the people, it is imperative that we preserve the property tax base. Let us not weaken our basic form of taxation lest we jeopardize the very continuing existence of strong, local government.

I believe the statement issued by Keith L. Seegmiller, Washington representative of the National Association of County Officials, concerning federal land ownership, is very timely at this time:

"The Federal Government has a strangle hold on local governments today. Its tightening grip has restricted breathing capacity by 25%. Absolute right is claimed to increase the pressure indefinitely to the point of ultimate strangulation, and the tendency is in that direction."

We should all recognize the fact that the functions for which federal property is held are not restricted to the areas in which it is located, but on the contrary, the property owned and administered for the benefit and enjoyment of the nation as a whole, and consequently, *it is the logical responsibility of the federal government which represents all the people, to bear its equitable share of the cost of the respective local governments within whose jurisdiction such property is located.*

If Uncle Sam persists in being our biggest property owner, he should not in all fairness, shirk the responsibility borne by any other property owner, nor should he be given any privilege not granted to any other property owner. Any other approach would be false and misleading.

The Government has contended and still contends that benefits to communities in the form of increased payrolls, increased land values and improved health and sanitary conditions resulting from the improvements it owns, should be given consideration by the communities in determining their taxability.

Surely, if this theory is correct insofar as the federal government is concerned, why should not the private owners' tax bill be adjusted

downward because his use of the property gives rise to benefits of the same kind?

Why are we in California worried? Because in California, Federal ownership of property has become a most serious problem facing local government. A recent survey by the County Supervisors' Association of the State of California, revealed astonishing information concerning loss of revenue as a result of tax-exempt federal property. At the present time many local treasuries are losing more than thirty-five million dollars a year. In 1937 the loss amounted to only \$4,500,000. The survey further revealed the urgent necessity of a comprehensive program looking to all interested parties receiving relief in the form of "in lieu" legislation, to protect the tax base of all local agencies, counties, cities, school districts and special districts.

Do you realize that the federal government owns 47% of the entire area of the State of California *which is tax-exempt*? In 1937 it was 41.62%. At the present time it is estimated that the assessed valuation of land owned by the federal government is more than 900 million dollars on a 50% basis or approximately 8% of the total assessed valuation of property subject to taxation in California.

History has taught us that there are many ways to undermine local government and the sooner we, as leading officials, interested in protecting the welfare of our own citizens, *realize* that the most serious threat to local autonomy *today* is the present upward trend of government ownership, which is slowly but surely undermining the local government's tax base, the sooner will relief come.

In California, local government derives 55% of its support from the general property tax, which, to repeat, is still the most important tax in our local revenue structures.

Total revenues from this source this year may well aggregate more than one-half billion dollars.

As examples of the inroads made by the federal government in consistently eating away at this source of the local tax income, we find that the federal government owns the following percentages of land in some of our counties:

Alpine .....	90%	Plumas .....	69%
Mono .....	77%	Del Norte .....	67%
San Bernardino .....	73%	Inyo .....	65%
Trinity .....	70%	Modoc .....	63%

These counties, it is true, are principally rural in character.

In 1937 federal land ownership was confined chiefly to national forests, national parks and public domain lands in the rural sections of the state. Now it has spread by leaps and bounds to the metropolitan areas of the state. It is important that we realize it is no longer the problem of rural counties in which heretofore federal ownership has been concentrated. And not only is this a problem peculiar to the State of California, but one which exists on a nationwide scale.

In the last ten years, the expansion of military holdings of the federal government has created another problem, and intensifies the already developed spread of federal ownership which hits the metropolitan areas, particularly, in all of the counties in the San Francisco Bay Area, in the Los Angeles region and in the San Diego territory.

For example, in 1939, the federal government owned tax-exempt property in Alameda County with an estimated assessed valuation of \$2,200,000. In June, 1947, this figure had jumped to an astonishing sum in excess of sixty million dollars, and, mind you, this is exclusive of holdings by the War Department.

In the City and County of San Francisco we find a like situation. In 1938, the assessed valuation of federally-owned property was \$2,400,000. In 1947, it was approximately sixty million dollars.

The counties of San Joaquin, San Mateo, Santa Clara, Solano and Sonoma have already shown the same or larger gains during the last ten-year period.

In our largest county, Los Angeles County, the growth of federal ownership of tax-exempt property is especially impressive because of the large amount of money involved. In 1938, federal ownership amounted to an estimated 27 million dollars worth of property. In 1947 this figure had grown to the astonishing total of more than 87 million dollars. You can imagine what these figures would be if the holdings by the Army were available to add to these figures!

In the extreme southern part of the state, San Diego County, federal holdings of tax-exempt property, exclusive of Army holdings, increased from \$22,220,000 in 1938 to \$98,437,000 in 1947.

Unless something is done and done at once to solve the problem created by the tax-exempt status of federally-owned property, local governments will be faced with the alternative of continually increasing the tax rate of their counties to meet the mounting demands made for service to the general public. In fact, this is exactly what has occurred in all counties of our state.

In the fiscal year of 1940-1941, California's joint county, state and district levies subject to local taxation amounted to about three hundred million dollars. For the fiscal year 1947-48, the joint local levies for these units amounted to five hundred forty million dollars, or an increase of 80%.

During the same 8-year period, the population of the state increased 50 per cent.

The Board of Directors of the County Supervisors' Association of the State of California, in its meeting January 16, 1948, adopted a policy with respect to federal lands legislation in Congress, which received the support of all of the counties. Our Association, in conjunction with the National Association of County Officials, is now actively engaged in securing passage of legislation in Congress which will provide for "in lieu" tax payments on all tax-exempt federally-owned property, with certain specific exemptions.

We recognize and appreciate the hardships that have resulted because of the large amount of federal forest land holdings in certain communities as well as the effect upon the tax base of federal holdings in the larger communities.

We have therefore been very fortunate in having received support of our program for "in lieu" tax relief from Congressman Clair Ingle of Red Bluff, who introduced the proposed Federal Lands Bill, H.R. 2725, as well as the support of Senator Butler of Nebraska who introduced a similar bill in the Senate, S.B. 959.

One of the principal obstacles to favorable action on these bills at the last session was the lack of reliable information as to cost. Figures submitted by 12 different states were reasonably accurate as far as they went, but fell short of providing a basis for a satisfactory national policy.

To the best of our ability, on the information furnished, under the terms of the bills introduced by these gentlemen, it was estimated it would cost the government approximately one hundred million dollars annually, in addition to the fifteen million dollars now being paid by the federal government in specific instances.

It is now our thinking, since other bills have been introduced which attack this problem on what may be termed a "piece-meal" basis, that concrete, beneficial results may be obtained in the coming congressional session only if all interested parties, all Congressmen and Senators, unite in support of one bill, and that we persuade all interested Congressmen and Senators to act as joint sponsors thereof.

This is our aim and goal for the coming congressional session, and we are, at the present time, accumulating data and facts relating to

all bills which have heretofore been introduced, with the thought in mind of accomplishing this very purpose.

It is our opinion that if such a program be adopted, the delays experienced in past congressional committee hearings as a result of lack of unity, will be eliminated.

Because our plans call for a united front of all interested parties, with substantial backing, we are not interested in a bill which will provide "in lieu" tax payments *subject to reduction in proportion to the benefits that the federal government might feel accrue to the community by reason of federal acquisition.*

Surely this problem can and must be solved. It must be solved before it is too late. Right is might and we are right in our thinking. "In lieu" payments are not a new request being made upon the federal government, because at the present time the federal government is paying "in lieu" taxes amounting to many million dollars per year, and it is also paying "in lieu" taxes to the District of Columbia.

As far as California is concerned, the cold, hard facts are, that the federal government's ownership of tax-exempt property has become a threat to local autonomy, and if local autonomy is to survive, this threat must be checked and stopped immediately.

What affects California certainly must affect other states in the Union. If it does not affect your state now, just as night follows day, and day follows night, it will ultimately affect your community as it affects those in California at the present time.

### NEW BUSINESS.

Consideration Continued—Set as Special Order of Business.

Referred to the Board by the President.

Communication Dated October 13, 1948, From the Manager of Utilities, Transmitting Resolution of the Public Utilities Commission, Containing a Revised Schedule of Rates, Fares and Charges to Be Charged by the Municipal Railway.

#### Discussion.

The President of the Board inquired as to the effective date when the proposed rates were to go into effect.

Mr. Dion R. Holm, representing the City Attorney's office, stated the Public Utilities Commission was acting within its authority as to when it would set the effective date, as obviously time would be needed to effectuate the many changes necessary by such a change in rates.

#### Motion to Refer to Committee—Out of Order.

Supervisor Mancuso moved, seconded by Supervisor Gallagher, that the foregoing communication be referred to the Joint Finance and Public Utilities Committee.

The President ruled the motion out of order, contending that to refer the subject to committee might involve a delay and since the Board must act on the matter within 30 days of receipt of the request from the Public Utilities, the proper procedure to follow would be to consider the matter in committee of the whole.

Mr. Holm stated his opinion that the matter should be referred to committee but admitted that such a procedure might involve a delay.

Mr. Holm further stated that under the charter the fixing of rates is performed by the Public Utilities Commission and such rates are then submitted to the Board of Supervisors either for approval or disapproval. If the Board is dissatisfied with the schedules, they can vote against them and return them to the Public Utilities Commission for further revision.

#### Motion to Re-refer to Public Utilities Commission—No Second.

Supervisor Mancuso moved that the matter be re-referred to the Public Utilities Commission with the request that an effective date be inserted therein.

No second to the motion.

Mr. Holm stated that if the Board took no action within the required 30 days from the time the proposed schedule was received by the Clerk of the Board, then such schedule would go in effect but it would be up to the discretion of the Board to fix an effective date.

#### Setting Date to Consider Proposed Schedule of Rates.

#### Motion.

Supervisor Gallagher moved, seconded by Supervisor McMurray, that the consideration of the proposed schedule of rates be set as

a Special Order of Business for Monday, November 1, at 3:00 p. m., the Board sitting in committee of the whole.

#### Statement in Opposition.

Supervisor MacPhee spoke in opposition to the motion, contending that until the effective date is known, the Board is assuming a lot. The matter should be referred to the Public Utilities so that an effective date may be set.

In answer to a query by Supervisor McMurray as to whether the rates would go into effect after thirty days should the Public Utilities Commission return the proposed schedule of rates without an effective date, Mr. Holm replied that the present charter is wholly unsatisfactory but the best interpretation he could give is that the present schedules appear to be a deficit schedule in that the proposed ten cent rate will not produce sufficient revenue to pay all expenses. Since it appears to be a deficit rate, it would require a two-thirds vote of the membership of the Board to approve such schedule, and should it not be a deficit schedule, it would require but four votes to approve.

#### Statement by Supervisor Mancuso.

Supervisor Mancuso: I agree with the City Attorney's office that if we do not take action in thirty days, the Public Utilities Commission can automatically increase the rate. I think we should send this matter to committee and then we should also pass a resolution requesting the Public Utilities Commission to advise the Board of Supervisors in an amended resolution as to when they expect the fare increase to become effective.

#### Motion Carried.

There being no objection to Supervisor Gallagher's motion that consideration of the proposed schedule of rates be set as a Special Order for Monday, November 1, at 3:00 p. m., the Board sitting in committee of the whole, the motion *carried*.

#### Request for City Attorney's Opinion.

Supervisor Gallagher requested that the City Attorney inform the Board as to the number of votes required by the Board to approve the recommended increase proposed by the Public Utilities Commission and if possible, to have the opinion available by Monday, October 25.

No objection and Clerk directed to so communicate with the City Attorney.

Supervisor Mancuso desired that the City Attorney take into consideration, when rendering his opinion, as to whether any further resolution by the Board of Supervisors is necessary in connection with the clarification of the letter from the Public Utilities Commission dated October 13th.

#### Refused Adoption.

The following recommendations of Finance Committee were taken up:

Present: Supervisors Gallagher, Fazackerley.

The following, from Finance Committee without recommendation, were taken up:

Present: Supervisors Gallagher, Fazaackerley.

**Authorizing Waiver of the Statute of Limitations in Action of Strother vs. the City and County of San Francisco, Filed for Recovery of Back Salary Alleged to Be Due.**

Proposal No. 8393, Resolution No. 8022 (Series of 1939).

Supervisor Lewis moved, seconded by Supervisor John J. Sullivan, that the foregoing proposal be adopted.

**Discussion.**

General discussion ensued.

Supervisor McMurray expressed the opinion that if an injustice has been done, it should be rectified.

Supervisor Christopher expressed the opinion that the City Attorney should prepare legislation to protect the city in future cases that may arise.

**Statement by Supervisor Mancuso.**

Supervisor Mancuso stated that he has always maintained that the waiving of the Statute of Limitations is tantamount to a gift of public funds; that it is unconstitutional and against the supervisorial bond; that even though the Board on two previous occasions had waived the Statute of Limitations, a third mistake should not be permitted.

Supervisor Halley inquired of Mr. Dion R. Holm, representing the City Attorney's office, as to the facts of Supervisor Mancuso's statement.

Mr. Holm, in replying to Supervisor Halley's query, stated that the Supreme Court has ruled that a municipality has the right to waive the Statute of Limitations if, in its discretion, it sees fit to do so; that it has the same right as any individual.

### Query by the President.

The President asked Mr. Holm whether or not the Board might properly waive or disregard the requirement of Section 87 of the Charter that all claims for damages against the City and County must be presented to the Controller within sixty days after the occurrence from which it is claimed the damages have arisen, as distinguished from waiver of the bar of the Statute of Limitations.

Mr. Holm replied that Section 87 of the Charter applies to tort actions, and that the weight of authority seems to be that the provisions of said section would not apply to actions based on contractual obligations.

Thereupon the roll was called and Proposal No. 8393 was *adopted* by the following vote:

Ayes: Supervisors Christopher, Halley, Lewis, McMurray, Mead, John J. Sullivan—6.

Noes: Supervisors Fazackerley, Gallagher, MacPhee, Mancuso, J. Joseph Sullivan—5.

### Passage for Second Reading.

Bill No. 5525, Ordinance No. . . . (Series of 1939).

Supervisor Halley moved, seconded by Supervisor McMurray, that the foregoing bill be Passed for Second Reading.

### Opinion Requested.

Supervisor Fazackerley asked City Attorney O'Toole if the payment of the judgment is either mandatory or discretionary on the part of the Board, to which Mr. O'Toole replied that if the obligation rests upon the Board to pay the obligation, then it is mandatory and that he did not know where that duty began or ended.

Thereupon the roll was called and Bill No. 5525 was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Halley, Lewis, McMurray, Mead, John J. Sullivan—6.

Noes: Supervisors Fazackerley, Gallagher, MacPhee, Mancuso, J. Joseph Sullivan—5.

### Consideration of Matter Relating to the Closing of Twentieth Street.

Supervisor Lewis moved, seconded by Supervisor John J. Sullivan, the suspension of the rules for the purpose of considering the matter of closing Twentieth Street between Mission and Valencia Streets, for carnival purposes.

No objection and motion *carried*.

Mr. Cohen, representing both the Mission Street Merchants Association and the carnival people, stated that he had applied for a permit to conduct the carnival but was advised to seek permission from the Board of Supervisors with respect to the closing of the area.

The President ruled that the petition heretofore mentioned and signed by people living on Twentieth Street, between Mission and Valencia Streets, is now officially before the Board.

October 18, 1948—Consideration continued to October 25, 1948.

**Motion to Continue Consideration.**

Supervisor Halley moved, seconded by Supervisor McMurray, that consideration of the foregoing bill be continued to the first Monday in April, 1949.

**Opposition to Amendment.**

Supervisor Fazackerley spoke against the amendment, stating that the County of Los Angeles had already enacted legislation prohibiting the use of self-service stations because of the fire hazard involved.

**Discussion.**

Supervisor Halley called the Board's attention to the wording of Section 80 of the Fire Code, contending that the provisions of said

section granted broad powers to the Division of Fire Prevention and Investigation and that such powers provided sufficient protection to the city against possible fire hazards.

Supervisor McMurray contended that there was as much fire hazard attached to the common gasoline service station as there would be to the proposed self-service stations; that he had been a service station operator for fifteen years and that many of his friends had taken the privilege of personally providing themselves with gasoline and that no fire of any kind had occurred.

#### The Previous Question—No Second.

Supervisor Lewis moved the previous question. No second and motion lost.

#### Discussion (cont'd).

Supervisor Mancuso stated that since no organization had proposed the measure now being considered by the Board, he believed the request of Supervisor Halley for the postponement was in order. This would permit self-service stations, if operated here, an opportunity to provide the answer to the charge that they constituted a fire hazard, and that if such proved to be the case, the necessary legislation which would ban them could then be enacted.

#### Temporary Postponement.

Supervisor Mead moved temporary postponement, pending appearance of Frank Kelly, Chief of the Division of Fire Prevention and Investigation. Motion seconded by Supervisor McMurray.

No objection and motion *carried*.

#### Consideration Continued.

The following recommendation of Rules Committee, heretofore considered, was taken up:

Present: Supervisors J. Joseph Sullivan, Gallagher, McMurray.

An Ordinance Prescribing and Regulating Legislative Procedure and Defining Certain Terms Used in Connection Therewith, and Repealing Bill No. 3036, Ordinance No. 2877 (Series of 1939), and Bill No. 4569, Ordinance No. 4309 (Series of 1939).

Bill No. 5564, Ordinance No. . . . (Series of 1939).

October 18, 1948—Consideration continued to October 25, 1948.

Supervisor Lewis moved, seconded by Supervisor Mead, that consideration of the foregoing be continued for one week.

No objection and motion *carried*.

#### Set as Special Order, November 8, 3 P. M.

The following recommendation of Education, Parks and Recreation Committee, heretofore considered, was taken up:

Present: Supervisors John F. Sullivan, Fazackerley, Lewis.

(Supervisor Lewis dissenting.)

Approving the Setting Apart of a Portion of Golden Gate Park by the Park Commission for the Purpose of Proposed Improvements by the Academy of Sciences, Including the Proposed Addition to the Simson African Hall, the Morrison Auditorium, the Lovell White Memorial Hall of Man and Nature and the Hall of Astronomy, Known Collectively as the New Hall of Science, and the Proposed Alexander F. Morrison Planetarium.

Bill No. 5551, Ordinance No. . . . (Series of 1939).

October 18, 1948—Consideration continued to October 25, 1948.

### Statement by Supervisor Lewis.

Supervisor Lewis spoke at length regarding the foregoing bill, stating that he favored the construction of the Planetarium on Twin Peaks; that the San Francisco Call-Bulletin, in an editorial published in September, 1947, advocated the construction of a planetarium on Twin Peaks and outlined the many advantages to be gained by the city by such a move.

### Motion.

Supervisor Mancuso moved, seconded by Supervisor McMurray, that consideration of the subject bill be made a Special Order of Business for Monday, November 8, at 3:00 p. m., the Board to sit in committee of the whole.

### Questions Propounded.

Supervisor Lewis propounded several questions to Mr. J. F. Landis, representing the California Academy of Sciences, regarding certain monies purportedly to be set up by trust funds or life estate for the specific purpose of constructing a planetarium.

### Setting of Special Order.

The roll was thereupon called on Supervisor Mancuso's motion and it was *carried* by the following vote:

Ayes: Supervisors Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

Absent: Supervisor Christopher—1.

**Resumption of Consideration of Bill No. 5347, Amending the Fire Code to Provide for the Dispensing of Volatile Liquids to the Public.**

### Privilege of the Floor.

The privilege of the floor was accorded Mr. Frank Kelly, Chief of the Division of Fire Prevention and Investigation.

Supervisor Halley: If a permit were requested for a self-service station, would it be within your power to refuse such a permit?

Chief Kelly: I do not know of any regulation or law that would prohibit the issuance of such a permit.

Supervisor Fazackerley: Do you believe that the legislation that the Board is now considering, desirable legislation?

Chief Kelly: It is desirable and should be adopted before we have an accident, and realize after the accident, that such legislation should have been adopted. It has been reported to me that there has been several accidents in Los Angeles. There is no law prohibiting them and there is no law permitting them.

Supervisor Mead: If I were running such a station, and the Board would later pass a law prohibiting them, what would be my status?

Chief Kelly: It would be a matter for the courts to determine if such legislation is retroactive.

Supervisor Mead: Have you not heard that during the war practically every station had no help and that every person served himself?

Chief Kelly: I did not know of any station where you served yourself.

### Explanation of Vote.

Supervisor Mead: I am voting for this postponement. My question, however, has not been answered, and I am fearful, in voting for the postponement, some people might start that type of business and six months from now if we adopt this ordinance, their business might be jeopardized.

### Motion Lost.

Thereupon the roll was called on the motion to postpone consideration to the first Monday in April, 1949, and it lost by the following vote:

Ayes: Supervisors Halley, Mancuso, McMurray, Mead, John J. Sullivan—5.

Noes: Supervisors Fazaackerley, Gallagher, Lewis, MacPhee, J. Joseph Sullivan—5.

Absent: Supervisor Christopher—1.

Noes: Supervisors Fazackerley, Gallagher, MacPhee, J. Joseph Sullivan—4.

Absent: Supervisor Christopher—1.

### Statement by Supervisor Lewis.

Proposal No. 8411, Resolution No. . . . (Series of 1939).

Supervisor Mancuso stated that he did not desire to vote on the matter at the present time because he wanted to obtain certain data from Mr. Hadeler and Mr. Varley, both of them, at the present time, directors of the Golden Gate Bridge and Highway District, relating to the policy and workings of the District.

**Motion—Carried.**

Supervisor Mancuso moved, seconded by Supervisor Fazackerley, that consideration of the foregoing be continued for a period of one week.

**Substitute—No Action.**

Supervisor Mead moved, as a substitute, seconded by Supervisor Fazackerley, that consideration of the matter be temporarily postponed and that Mr. Hadeler be sent for.

It was finally determined that sending for Mr. Hadeler would not be feasible nor practicable, and that if Supervisor Mancuso wanted certain information, he could contact the director personally and obtain from him such information as he believed necessary; consequently, no roll was called on the substitute motion.

#### Explanations of Vote.

Supervisor Mead stated that in view of the fact that he had been advised that a group of contractors had not been informed of the meeting of the committee on the foregoing, he would vote against the bill.

Supervisor Lewis stated that he was opposed to picking on certain classifications; that if a general income tax were proposed, that would be one thing, but he was opposed to picking on certain classifications for revenue purposes.

Supervisor Lewis added, however, that he was voting "aye" on the legislation before the Board, based on the representation that the contractors had not objected to the license proposed to be imposed.

For an increased fare:

#### Proponents.

Manager of Utilities, Mr. James H. Turner, who submitted the following statement to the Board.

Statement of J. H. Turner, Manager of Utilities, Regarding Fare Increase on the Municipal Railway, November 1, 1948.

Mr. Chairman and Members of the Board of Supervisors:

You have before you for approval, Resolution No. 9310 of the Public Utilities Commission, adjusting the fare structure of the Municipal Railway. In general, the adjustments involve a change in the basic fare structure from  $8\frac{1}{3}$  cents to 10 cents, and an increase in school fares from  $3\frac{1}{8}$  cents to 5 cents.

The action of the Public Utilities Commission in approving the adjusted fare structure is made pursuant to a report dated September 20, 1948, by the Manager of Utilities, copies of which were sent to you at the same time the report was submitted to the Public Utilities Commission. That report outlines the progress that has been made on the Municipal Railway towards a modernized system and shows that service improvements have been substantial. The report also discusses the financial condition of the Municipal Railway, which is not unlike that of every urban transit system in the United States, and in many instances is far better. Financial estimates have also been given to support the fare adjustment recommended.

I do not intend to recount in detail the substance of that report but I appreciate the opportunity to bring forth certain salient facts with reference to the matter before you.

The budget as passed in the Spring by the Board of Supervisors for the operation of the Municipal Railway, was an absolute minimum requirement; it was even \$216,151 under that recommended

by the Public Utilities Commission. This budget was also supported by a use tax of \$728,030 to cover bond interest and redemption costs. As you know, the recommended budget was increased in July to cover wage increases granted under Section 151.3 of the Charter, and when revenue estimates were revaluated at the time of fixing the tax rate, an additional tax subsidy was found necessary in amount of \$1,776,703. Thus the operation of the Municipal Railway during the current fiscal year is supported by a tax subsidy of \$2,504,733, and even with this tax support the management of the Railway has found it difficult in the first three months to operate within the budget and maintain the service now given, and regardless of the modernization which has taken place, efficiencies which are being instituted, and continued attempts to reduce costs, it will be impossible to make any sizable reduction in the total over-all cost of maintaining service.

Estimates show that in the next fiscal year 1949-50, there will be a deficit in the Municipal Railway budget in amount of \$3,660,800.

There are four methods by which the City government can meet this deficit, and I mention them in the order of their preference.

1. The approval of the fare structure as recommended by the Public Utilities Commission, which you have under consideration. Placing this fare structure in effect on December 1, 1948, will eliminate any further tax support for the fiscal year 1949-50, and in all probability eliminate any further tax support for the fiscal year 1950-51.

2. If the 10-cent fare structure is not approved by the alleged necessary 8 votes from your honorable body, that consideration be given to fixing a 12-cent fare, or similar revision of the fare structure, which then can become effective under the vetoing power of the Board of Supervisors by receiving only 4 favorable votes.

3. By supporting the operation of the Municipal Railway with a tax subsidy in amount of \$3,360,000 in the tax rate for the fiscal year 1949-50, to be fixed in September, 1949.

4. If none of the other remedies is taken, the Public Utilities Commission will have the unhappy task of meeting any reduced budget that the Board of Supervisors may adopt through curtailments or eliminations of certain services now rendered the riding public.

The answer to the problem of choosing one of these four procedures is squarely in the hands of the Board of Supervisors.

In recommending the 10-cent fare structure, the Manager of Utilities considered all of the four methods mentioned, in addition to other factors which I would like to enlarge upon.

The fare structure recommended is a logical increase, being the minimum raise without creating complexity in collection; in other words, it provides a one-coin fare which approximately 20 per cent of the riders are now paying. Test estimates were prepared on many of the available methods of increasing revenues such as charges for transfers, zone fares, weekly passes, shoppers' passes, etc., and all were found undesirable principally from the fact that they did not bring in the amount of revenue necessary to finance the estimated costs of operation.

Detailed and extensive analyses of the experience of every railway in the United States that raised fares from 8 $\frac{1}{2}$  cents to 10 cents showed, and our estimates contemplate, that such an increase has no adverse long term effect on the riding habit. Actual experience indicates that loss of riders of approximately 5 per cent obtains for the first 2 months following the institution of an increase, after which time the riding pattern returns to normal.

Further, the 10-cent fare instituted December 1, 1948, will definitely eliminate any further tax support of any nature in connection with the operation of the Municipal Railway until June 30, 1950, and in all probability until June 30, 1951. Thus for at least 1 year

and 7 months, and probably for 2 years and 7 months, no further tax support will be required. As the modernization program under the \$20,000,000 bond issue will be practically completed by that time, it is not unlikely that with modern equipment, improved shops and other general improvements and efficiencies contemplated, that the 10-cent fare may well suffice for several years beyond 1951. Of course, these statements must be qualified to give consideration to economic conditions of the future.

In considering the 10-cent fare, it must be remembered that even with this fare, San Francisco will be in the low bracket as compared with other cities of the United States. Attached to my report of September 20 is a statement showing a comparison of wage rates and fare structures of comparable cities. Your attention is directed to the fare structure of Cleveland at 12 cents with maximum wages for operators of 1.41; Detroit at 13 cents and a wage of 1.42; Cincinnati with a 12-cent fare and a wage of 1.27; all compared to a flat wage rate of 1.484 in San Francisco. Recently the Capital Transit Company of Washington, D. C., increased fares to 13 cents. Practically every major operating property has a fare of at least 10 cents and I can name many more with fares above 10 cents. Further, most of these major railways charge 5 cents or more for student rides.

On the basis of comparisons, I believe the Municipal Railway is giving more for the fares charged and doing this cheaper than many other similar railway properties. True, we have a small, compact city, but for one fare a rider can, and many do, travel distances from 8 to 10 miles. San Francisco is covered by a network of transit and 80 per cent of the riders do not have to walk more than 2 blocks to a transit line. Further, no daytime schedule of the Municipal Railways exceeds 15 minutes. All of these items represent service and this service is rendered at costs comparable to any other property and at wages higher than any other property.

Gentlemen, may I say in recommending an increase in fares, that I do so with the conviction that it is the best of remaining alternatives. I am fully cognizant of the economic conditions surrounding the lives of the majority of the riders of the Municipal Railway. These same economic conditions, however, surround us all. The same factors and trends which affect the riding public are in a like measure and for like reasons adversely affecting the Municipal Railway.

The Public Utilities Commission and its Railway management are confronted with a problem identical to that of similar businesses such as railroads, air transport companies, water, light and telephone utilities. The increased cost of operation in the face of decreasing revenues must be balanced, and there is only one sensible way of doing this in the operation of an urban transit system, and that is to adjust the fare structure. Almost all other street railway properties have already done this, or are now planning to meet the problem in the very same manner. It is fortunate indeed, that we in San Francisco can meet operating costs with a 10-cent fare, while many other major transit companies are forced to far higher fares.

I recommend that the Board of Supervisors approve the adjusted fare structure recommended by the Public Utilities Commission.

#### Proponents (Cont'd).

Mr. Lloyd S. Ackerman, member of the Public Utilities Commission, who pleaded for the passage of the requested fare increase.

Mr. Philip F. Landis, President of the Public Utilities Commission, who submitted the following statement to the Board.

**Statement by Mr. Philip F. Landis, President of the Public Utilities Commission.**

This is my first speech before this Honorable Board of Supervisors and I wish I were espousing a reduction in water rates or a clam bake so please pardon any nervousness.

You may be interested in the reasoning and consideration given by the Public Utilities Commission to this matter and in some interpretation of background material.

To reach our conclusions it was necessary to study and review the following material—reading time 36 hours and 10 minutes.

The Budget for the past several years—Mr. Turner's Three Reports—The Analysis of Income Per Passenger, Per Mile and Per Car Hour—The Expense Per Passenger, Per Car, Per Mile—The Loss or Profit from Car Line—Comparative Costs—National Experience to Date—The De Leuw Bingham and Management Man Report and supporting documents and analyses.

We accepted what in our best judgment was the best and most equitable proposal submitted by the Manager of Utilities at our request. That proposal is before you for a basic straight 10-cent fare.

The very theory of the Charter according to our legal advisors is that the Public Utilities should be on a self-sustaining revenue basis including all capital charges, and in the exercise of due diligence a proper fare structure should be presented to the Board of Supervisors. Further the Commission is the authorized body for the setting of the fare structure. The legal situation as to its acceptance or rejection is a matter up to legal advisors of the Commission and this Honorable Board—though it is an indicated principle that the Board is in the position of guardians of the tax rate. (Parenthetically it may be noted that the Commission has elected to present a fare structure which in its opinion comes close to a balanced economy but inasmuch as it is based upon estimates it is the apparent ruling of the City Attorney that this rate may not be considered high enough to cover all charges and therefore requires some tax support and therefore requires a favorable two-thirds vote of this Board if same is to be effected. It is not in our province to dispute this ruling—though others may.)

The conclusion to be drawn from this thesis is simply that if in the opinion of your Honorable Board you do not choose to approve by a two-thirds vote or by such other vote as may be legally determined, the proposed fare structure, it should only be interpreted by the Utilities Commission as a refusal of the Board to permit this Utility to set a fare structure less than that required by legal interpretation to be high enough to meet all charges. It would then seemingly be incumbent upon the Commission to consider the advisability of submitting to your Honorable Board a higher fare structure which would cover all charges and which could then be subsidy sustained by a one-third favorable vote of this Board.

There are two basic reasons why we are reluctant to do this. First of all, based upon estimates, the 10-cent fare structure will for the next fiscal year and possibly the ensuing fiscal year come close to meeting all charges except depreciation and or bond interest and redemption. Historically, depreciation has never been funded and it would be an undue burden upon the people of San Francisco to commence suddenly to fund it. Moreover, it is our understanding that it is not possible of funding during a tax supported operation in accordance with the Charter. Secondly, we believe that a 10-cent fare structure is an equitable one, not unduly burdensome to the people that use the System.

We do not feel therefore at this time that it is necessary to go to a higher cash fare with some token adjustment for quantity rides.

On the other hand, it will be extremely harmful to the operation and improvement program of the Municipal Railway if no increase in fares is granted. This viewpoint is based upon Section 74 of the Charter, which provides that during tax support, extensions, improvements and betterments cannot be provided for by budgetary allowance. They can only be provided for out of bond issues. Bond

monies, while valuable for the purchase of major capital assets, are always of a restricted nature and are not available for the usual repair, renewal, improvement and extension of existing facilities. If the rehabilitation of the Railroad, in the long run is to be successful, the sooner this restriction is lifted by getting out from under any tax subsidy of any kind the better. Therefore, the further and more deeply the Railroad goes into the tax support area the less chance that goal of rehabilitation and efficient operation has of being reached.

On the other hand, if a 10-cent straight fare were approved and accompanied by sales tax support for bond interest and redemption then you are in an area that would allow efficiencies and economies to tend to meet all of the requirements at that fare level, in which event rehabilitation and efficiency would be aided rather than retarded.

To reach this same objective "a sound balanced economy" at the present low fare structure is only possible under one method. That method is certainly wholly undesirable insofar as the interests of the people of San Francisco are concerned. That method would be by extensive curtailment of service and the abandonment of non-paying lines which at a low fare structure are numerous, some going as high as 15 cents per passenger.

A reasonable degree of efficiency and economy can be attained. Management has numerous plans looking toward this objective. In addition, Management would welcome an objective and intelligent survey or analysis by outside consultants of its financial and operative structure and has so recommended to this Board. We are not concerned with the auspices under which such a survey is conducted but objectively would like to see it done. We will cooperate with this Board or any committee thereof to the fullest extent to work out this and other objectives.

On the other hand, it is the considered judgment of the Commission that such a survey or its own and Management's plans for economies and efficiencies cannot possibly meet the differential between a 10-cent fare structure and the present level of fares.

Mr. Turner has adequately and efficiently outlined the financial situation, but I would like to highlight the Commission's impressions.

May 20, 1946, the basis for the present 8½-cent fare structure—showed 224 million revenue riders. The amount estimated for the present base for the new fare structure is 207 to 209 million riders or a decrease of 6.5 to 7.5%.

During the same period—Auditing expenses, operations, went from about 18 million to 19 million 400 thousand or an increase of 7.3%, and during the same period wages went from 90-95 cents per hour to 1.36 or projected 1.48 per hour or an increase of some 49%.

This is not stated for controvention of the high rate but indicates costs that have to be met.

It is noted that over 70% of operation costs are in wages and salaries.

Car houses remained within a 2% average differential.

An upward adjustment of Retirement Pensions was voted.

Average fare increase sought is but 15.5%, and makes no provision for increase in Capital Costs. We have a backlog of claims, we owe \$20,000,000 which must be paid back, \$1,000,000 a year plus the interest—and all surplus was swept away by the purchase of the Market Street Railway—and we are Tax Supported this current year.

The only decrease was in Capital Expenditures and these must now go up—Operation savings were effected to meet

some of the increased rate of costs. More detailed figures are appended hereto.

It is inconceivable that the burden of increased wages and increased costs can be voted or placed upon the operating cost of the Municipal Railway without giving the Railway the wherewithal to meet these costs, through a raise in fare or a tax subsidy.

Economy, efficiency and consolidation cannot keep pace even under the future prognosis of the various engineering reports such as De Leuw, etc., with the indicated rapid mandated rise in costs.

It is obviously necessary to correct one of four things.

One, Accept the equitable level of a 10-cent fare which for practical purposes will present an efficient operation of the Utility and put a balanced economy within reach; and if a reasonable number of supervisors support this a courtesy vote of the required number would be sensible to remove all legal doubt.

Second, to provide a higher fare structure, say 12 cents, nine tokens for a dollar, but which would be definitely burdensome to the people of San Francisco who ride the Utility, but which would comply with the full intent and technical legal interpretation of the Charter.

Third, Retain the present fare structure and give the Railroad for some considerable period of time a substantial tax subsidy somewhere between \$3,000,000 and \$3,500,000, maybe \$4,000,000; which subsidy in my opinion places the Utility under a restricted covenant doing extreme damage to the eventual establishment of a pay-as-you-go basis or a balanced economy and also doing violence to the principle of forward development which would give decent, good and extended service to the people of San Francisco and which requires a 2/3 vote of the Board to do and may not be corrected.

Fourth, Recognize the principle of a balanced economy as necessary, and again on the basis of the present fare structure and tax subsidy, or further to revise tax subsidies and the board simply cut operations to fit the income and eliminate all unprofitable services that are now given to the people of San Francisco; this is the Commission's own prerogative, but would only be resorted to if forced to do so by failure to receive help through other alternatives by this Board.

Data has been presented to show that San Francisco at a 10-cent straight fare level will be operating a Municipal Railway comparable to all other cities and comparable to private utilities. Certainly the wage level of the Municipal Railway is higher or equal to the wages of other cities. Certainly San Francisco Utility operates under more mandate and less authority than most other jurisdictions. These mandates and lack of authority on the part of the Public Utilities Commission have been detailed to you previously.

It is axiomatic in my opinion in all writings on the subject of municipal transportation that success in the transportation field is dependent upon the centralization or reasonable centralization of authority. Or if that centralization is not provided, then it is necessary that the responsible directing authority of the Utility have at least the full cooperation and assistance of the component parts of the City Government under which it operates.

We respectfully submit that we believe our position to be wholly tenable, to be entirely in the interests of the people of San Francisco, both the rider and the taxpayer. We submit further that the alternatives to our proposal are of such drastic nature as to place us in uncharted seas—uncharted as to the experience of high fares, uncharted as to the limitations of tax support or uncharted as to the effects of a further depleted transportation system.

We therefore urge upon you and plead with you that our position be sustained.

Answering specific differences of opinion: We are satisfied the negative votes on the Commission are concerned with timing only, these Commission members realize the fundamental necessity and time to us seems important in avoiding drastic alternatives, in fact time is the essence.

On timing, we regret our divergence from His Honor the Mayor's viewpoint. He presents a succinct analysis of his reasons for having a tax subsidy. We, on the other hand, fear a tax subsidy. If the economy of the Railroad is not close enough to a balanced economy to have a chance through care, caution and courage to effect economies that will succeed, why try? We're in the tax rate—relax and enjoy it—ride high, wide and handsome—your success will never be noticed and your failure never condemned.

Now as to special rates—zone routes, etc., passes, etc.—we have carefully considered these phenomena. National experiences show their impracticability and one-coin rates give optimum results.

Let us look at the philosophy of the tax support principle. What becomes of incentive to do an economical job. Why consolidate? Why improve service? What's the difference if revenue falls off—tax support will be forthcoming to make it up. It is one thing to grant a direct subsidy of so much money, such as the payment of bond interest and redemption with Sales Tax and it is another thing to make up the deficit of operating costs over revenues by ad valorem tax support. In the latter case, the incentive disappears, the incentive to maintain revenues, to give efficient service, to develop the Utility property, and is therefore detrimental to the people in the long run, in spite of the fact that low fares are of some value. It strikes us that the citizens of San Francisco would rather have a good flourishing, well-managed and adequately developed Utility at a fair and reasonable fare than a lackadaisical, tax-subsidized more inefficient system even though they are able to get cheap transportation. Certainly all groups appearing before the Commission say "Give us service, we're willing to pay for it—we want service."—The Charter in principle sets forth the idea that you should at all times seek to cover operating costs of the Utility and other charges out of revenue. There is a provision for the emergency assistance by tax support but that should be kept to an absolute and unequivocal minimum and within a range that hard work, good planning and efficient operation can tend to meet.

You will not have a flourishing Utility until that Utility gets out of the tax rate at an adequate fare level and with some chance of earning a small surplus for the purposes of depreciation and expansion and service to new districts.

Immediately upon granting tax support for the second time, which is one alternative, if nothing is done to correct the income structure by a fair and equitable adjustment of fares, the point will be reached when the moral and factual disintegration of the principle set forth in the Charter and the principle of sound operation of a Utility, whether public or private, will render them futile and meaningless.

Thus if this fare increase is defeated, there may be no use in submitting a 10-cent fare again. Tax support will be too deep. It will take a higher fare to get out or a permanently low fare and higher and higher and more and more tax support. We respect the opinions of our adversaries but close observation indicates the sound course to be a reasonable fare increase at this time.

We have presented our best and most equitable proposal. We should not be forced by technicality or antagonism to resort to undesirable alternatives.

It's up to others to say if we have made progress or not, but it is up to us to plead for what to the best of our ability seems right; and Gentlemen, let it be understood these are not idle thoughts. We have the temerity to do what must be done. Your decision is to chart the course.

*In re: Proposed Adjustment of the Fare Structures  
of the Municipal Railway.*

You have before you this afternoon the question of whether a new fare structure should be approved for the Municipal Railway.

I believe it proper to inform you that on the 11th day of October, 1948, I appeared before the Public Utilities Commission and advised them of my policy with reference to this matter. Thereafter the majority of the Commission voted to submit the proposal of a fare raise to your Honorable Board.

I repeat here the thought I expressed to them, that the Public Utilities Commission as a whole and their individual members are entitled equally with me to their opinion of matters coming before them, and that I believe that an honest difference of opinion as between public officials makes for good and healthy government.

I am fully informed of the economic picture of the Municipal Railway system, and I am mindful that progress has been made in the rehabilitation of our transit system. Likewise, I am aware of the complexities confronting management with reference to the acquisition of new equipment and the putting of that equipment into service.

In considering this proposal, the distinction must be drawn between the necessity for revenue to meet operating expenses or to meet bond redemption and interest. Likewise, due consideration must be given to the street rehabilitation program and the traffic improvement thus and otherwise made possible both of which will reflect advantageously on the economic future of the transit system.

There can be no real dispute that so soon as our transportation system is rehabilitated and modernized to render the service contemplated when the bonds were voted for that purpose on the day I was elected Mayor in 1947, the Railway should be so operated as to bring in a revenue sufficient to meet at least its operating expenses.

I am of the firm belief that a fare increase at this time is neither necessary nor justified for the following reasons:

1. Your Honorable Board very recently recognized the validity of my position here today by voting a tax subsidy in an amount which, by good management practicing rigid economy, should be sufficient to meet the necessities of the transit system for the current fiscal year.

2. One of the reasons given for the justification of a fare raise is that your Honorable Board in a disputed interpretation of the Charter recently voted a substantial wage increase to the operators of our transit vehicles. The question of whether or not this increase was required by the Charter is now before the Courts and until that has been adjudicated no one is in a position to state that the increase in wages will stand and become a fixed charge against the operating costs of the Municipal Railway. Should the Courts finally hold that the wage increase is required by law then that will prove probably one of the most important factors in future consideration of a fare raise.

On the other hand should the Courts finally hold that the wage increase was not mandatory under the Charter then the funds contemplated to pay such increased wages should reduce operating expenses hundreds of thousands of dollars per year.

3. I have stated on many occasions and I repeat now that I cannot favor a fare increase until the service rendered the riding public of San Francisco can justify that increase. At the present time, a part of the rehabilitation and modernization of the transit system has been and is being put into effect. However, a great number of vehicles needed to accomplish the short range program, to wit: 50 motor coaches, and 175 trolley coaches now under order for purchase, have not yet been delivered and consequently have not been placed in service. Until such time as the additional rolling stock has, in great part at least, been put into service, there is no opportunity for anyone to determine the riding habit of San Francisco's people nor to estimate to what extent increased returns from use of the additional equipment will ease the financial problem of the transit system.

When these new vehicles are placed in service the old broken down trolley cars acquired from the Market Street Railway requiring 2-man operation will be retired and there will be a definite savings in operation as well as in maintenance.

On September 20, 1948, the Manager of Utilities, Mr. James H. Turner, in a report to the Public Utilities Commission, said:

"In spite of higher costs of the above requirements and of other conditions beyond its control, management is making every effort to reduce over-all expenses through the following program:

- (a) Abandonment or radical change of '40' San Mateo line.
- (b) More rapid conversion to full complement of buses and trackless trolleys.
- (c) Consolidations of duplicated lines.
- (d) Consolidations of operating headquarters.
- (e) Modernization of operating headquarters and shops.
- (f) Personnel training for greater efficiency.
- (g) Improved safety conditions.
- (h) Improved service through improved traffic control and other public facilities by other City Departments."

All of this should be accomplished without delay and all economies effected given full consideration in estimating operating costs and in considering any future proposal to revise the fare structure.

Immediately following your Honorable Board's determination of the pending question I shall address a communication to the Public Utilities Commission requesting that a report be submitted to me and to the Board of Supervisors, monthly, with reference to the progress made in accomplishing the aforementioned and all other possible economies.

There has been some talk of a curtailment of transit service in the event the proposal before your Honorable Board today should not be approved. In my opinion, a curtailment of service is no answer to our problems and would be contrary to the best interests of San Francisco and all its people who, after all, are the owners of the Municipal transportation system.

The basic and only function of the Municipal Railway is service to the people, and so long as I am Mayor of San Francisco, if within my power to prevent, there will be no curtailment of service, where service is justified and riders are using the service. Furthermore, I shall insist at all times on the carrying through of economies and the elimination of wasteful or unused facilities. This is an entirely different matter than curtailment of necessary services.

I cannot harmonize any thought of curtailment of service with the now pending expenditure of many thousands of dollars for the acquisition of 50 additional gas busses and 175 trolley coaches. The consistency of a program of expansion and a thought of curtailment of service is beyond my comprehension. You cannot contract and expand at the same time.

The riding public of San Francisco cannot be expected through increased fares to absorb the economic shock to the municipal transit system caused by the acquisition of the Market Street Railway for the sum of \$7,500,000 or of the cost of the \$20,000,000 bond issue for modernization and rehabilitation. It should not be expected that this shock could be absorbed by revenue from fares.

Moreover, in this connection, it must be realized that most of the inventory acquired from the Market Street Railway is rapidly being retired from service, the tracks and streetcars are being disposed of as junk, and the new equipment to be acquired by the bond money has not as yet been delivered or put into service. A fare raise sufficient to support a capital investment of \$27,500,000 would be atomic amortization. To contemplate such a raise is truly the wildest of dreams. I am completely convinced that if there is to be a fare increase the time for that increase is certainly not now.

I am reluctant to believe that our downtown merchants and property owners find it desirable to encourage decentralization by now increasing transit fares. For some time it has been my thought that the purpose of mass transit was to bring people into the downtown central business district and to get them back to their homes.

I sincerely believe that the owners of our great downtown properties, which properties are the backbone of our City's economy, will find it much more to their benefit, if, during the rehabilitation program, a reasonable tax subsidy is provided rather than discourage the bringing of people to our central shopping area by raising fares now.

The record of our own San Francisco Municipal Railway system as well as that of every other major city of the United States reveals that a fare increase is followed by a startling decrease in riders.

It must be borne in mind that the rehabilitation and modernization through which the Municipal Railway system is being put is in furtherance of the short range transit program. Until that short range transit program has been pretty generally accomplished there is insufficient experience background upon which to predicate a sound determination of a fare rate structure.

I am not stubborn, but I am firm in my conviction that now is not the time for a fare raise. When the short term program of modernization and rehabilitation of the transit system has been generally accomplished and all possible economies and good management practices have been put into effect; if it then appears that the transportation service rendered the riding public justifies it and the revenues prove insufficient to meet operating expenses, I shall acquiesce in a reasonable fare adjustment.

Again in closing. Gentlemen, may I emphasize that no fare increase should be voted on the premise of speculation and I particularly direct to your attention that there is nothing before you to support the belief that an adoption of the proposal before you today could or would produce sufficient revenue to meet even the operating expenses of the Municipal Railway.

#### Address by the Mayor.

MR. MAYOR: The proponents of a fare raise have consumed about one hour and 45 minutes. I do not propose to burden you with response to the same degree of time. However, I can talk on the subject for days if the occasion presented itself. It is not a subject that can be disposed of so easily as some people would lead you to believe. I have prepared a statement which, first, I should like to read to you. Then I shall direct myself to responding to some of the observations of the proponents. At this time it is not my intention to digress from the prepared script but sometimes I will as I proceed.

#### "REPORT OF MAYOR"

Now to proceed to a discussion of some of the matters discussed by the proponents of the fare raise for San Francisco. Our city, over 40 years ago, embarked on a program of municipal ownership of its transit system. Repeatedly since that time, our people have again and again voted their confidence and their desire that we maintain our transit system under municipal ownership plan. Municipal ownership, as you all know, varies in a great many respects, from private ownership or private enterprise. There are many things that private owners may do that public officials, representing governmental ownership, cannot do. I will not attempt to enumerate many of them but you know very well that private ownership can go out and compete in the open market. Likewise private ownership has no civil service for its employees, has no retirement system for its employees. You and I, and every member of the Board of Supervisors have a mandate from the people to make municipal ownership work; that is the charter by which all of us are governed. Raises in fares in other cities where private ownership is involved, is entirely different from fares under municipal ownership. It takes mass transportation to bring people to the downtown area and to give service to the people. We have 850,000 people who own the Municipal Railway of San Francisco. It is true a great portion of

them do not ride the Municipal service. It is true that many of those in opposition are not the best customers, but nevertheless it belongs to all of the people of San Francisco and the downtown property owners who have spoken here today, are the greater beneficiaries of the transit system of San Francisco, and while I am speaking, I would ask a question of those who believe in increased taxes, and let me ask you, how many downtown owners would have sold their real estate at the time the rate was \$4.20. The tax rate has gone from \$4.20 to \$6.09. Do you believe that you can buy property represented by persons here today for 100 per cent more than they could have been purchased in the open market when the tax rate was \$4.20? Of course you can't. I am getting tired of hearing the Board of Supervisors called upon to provide money for this and for that, provide all the services in the world for the property owners of San Francisco, and on the other hand cut the tax rate. Don't pay anybody, cut the tax rate but give us more service. All these people ask for more police and fire service; we want this, we want that.

\* \* \*

Let me say this to you. There have been many speakers today. Many of them are good friends of mine. Some of them not too kindly disposed toward my position on this subject. I am sure it is not personal.

The element of fear has been injected into this today. As I recall, one or two speakers injected the element of fear about you Supervisors being here next year. Let me tell you this, if you are so spineless about doing the thing that you should, you should not be here and if I succumb to fear I should not be here either.

I would like to give you the complete answer to the economic problem that really confronts you so that you will not be easily bullied when people say that they object to an increase in the tax rate.

I have a copy of a San Francisco newspaper before me, bearing date of November 1, 1948, in which I find this language:

"... The Municipal Conference reports that it cost the Municipal Railway \$6.47 for each passenger carried. . . ." Of course this is ridiculous. It is absolutely untrue. I won't name the newspaper because I do not want the Bureau of Governmental Research to say that they have been misquoted. Take the figure of \$6.47 as mentioned for each passenger. Is this figure per mile, or per day, or per weight or age? You cannot carry a passenger under a good mass transportation system in a metropolis for less than 4½ cents per mile. In San Francisco according to Mr. Turner, the Manager of Utilities, you can ride from 8 to 10 miles for 8½ cents. Ten miles at 4½ cents a mile is 45 cents. Now, if you increase the fare to 10 cents what are you going to do with the lost difference between the 10 cents and 45 cents it cost to ride 10 miles. So you are not, gentlemen, and don't be fooled, you are not going to be able to make the mass transportation absorb \$27,500,000 now being expended by us and carry people 45 cents' worth for 10 cents any more than you can for 8½ cents. It is ridiculous on its face.

Now I want to ask this question, "What immediate chance under this state of circumstances is there for a 'pay-as-you-go' program?" If you are going to have a "pay-as-you-go" program in San Francisco it should have been started 20 years ago and not at this time. During the years when we could have afforded to do so we should have done it. A shortsighted economy, a pressure group bearing down, kept San Francisco from a "pay-as-you-go" program and we who are public officials today have the responsibility of trying to direct our way through that type of a picture.

Had we able and capable management then, during those years when money was available, we would not be paying \$1.33 for every

dollar received and not getting 50 cents for every dollar paid out.

Great emphasis is laid on the matter of the economic problem and much has been said about the service to the riding people, and if the purpose of the mass transportation system is not for the riding public what are we in the transit business for? We are not in business to make money. Our business is to get people downtown and back home again.

My good friend, Commissioner Landis, spoke of centralization of authority. Of course centralization of authority is desirable. I said that through the 10 months I have been in office but it is not stated in the charter on this matter.

Now, Commissioner Ackerman, I repeat what he said, "he says he is a good friend of mine, I say I am a good friend of his." He stated that private ownership may readily abandon lines. That is not the law in any state in the Union or any metropolitan city unless somebody wants to give a franchise away. If you want to abandon a line under a franchise you cannot abandon that line unless you get the permission of the governmental agency. Many private owners will tell you that of course they are operating a line that is not showing a profit because otherwise they would not be in business. Under the franchise they must operate a service for the people.

Commissioner Ackerman said that he finds it most unfortunate that the Mayor is opposed to the commission's viewpoint. I find it most unfortunate that the commission is opposed to the Mayor's viewpoint. Someone repeated what I read in a letter very recently "the rider should pay for the service rendered."

Very recently I received from the Downtown Association a letter and in that letter they said "we believe that the people should pay for the service they are getting." I was tempted to write back that I was glad to see that they agreed with me and that we should both go to the Board and ask for a reduction in fares.

Commissioner Ackerman stated that the charter provides that they should fix a rate sufficient to pay. Let me illustrate a point. Assuming that your dentist advises you that he was opening a new office and to come down and get your dentures repaired. You went down and he had his name on the door, and a nice reception room filled with magazines. You sat down and waited and finally he opened the door and said, "Now that you are here, I can't do anything for you because I do not have a dental chair or any instruments, but for the service you had by sitting in my office, you must pay." That is just about the same thing as with the streetcar fare. We are giving only an 8 $\frac{1}{2}$ -cent ride and that is what the people should pay. We are not rendering the service and until we render the service under what possible excuse can we ask them to pay for it.

Now, two or three of the speakers threw the word "subsidy" at you gentlemen like it was a "stink bomb." I do not like subsidies, and we could be great heroes if we could go out to the people and say that we will leave the fare as it is and at the end of the year we will have a great profit. It is great to offer an increase in wages and decrease in taxes. Very lovely if we could do that for the people of our city, but it is not possible. Now I was greatly interested to hear these gentlemen representing the various groups, Mr. Fisk of the Chamber of Commerce, Mr. Smith, Judge McAtee and Ed Wobber, the Downtown Association and Carroll Newburgh: all good people, but the one from whom I would like the privilege of response is Mr. Fisk.

"When the matter was heard by the Chamber of Commerce or its directors, or its membership, where both sides were heard, I would like to know if the Mayor of San Francisco was invited to be present and express his position, and I would also like to know how many opponents were invited to be present for discussion of the matter." Mr. McDonald, of the Chamber of Commerce: "The subject was heard by the Civic Projects Committee of the Chamber.

The Committee was handled by Mr. Fisk who had to leave because of a previous engagement. I am told that the Committee was very much concerned that the Mayor of San Francisco had not been present at the meeting of the committee and that his views were not made known to the committee prior to the transmitting of the committee's recommendation to the Board of Directors. The Committee was instructed to communicate with the Mayor by telephone, asking him if he desired the opportunity of appearing before the Board of Directors before action was taken on the Committee's recommendation, and what disposition the Mayor made of that invitation, I do not know."

The Mayor: Let me ask Mr. Smith, was the Mayor invited to be present to discuss this proposal before the Bureau of Governmental Research?

Mr. Smith: This is a statement of fact. The facts justify the increase in fare of the Municipal Railway. We based our conclusions on facts. No Mayor has ever appeared before the Bureau of Governmental Research. We base our conclusions on a report prepared by our staff. The Mayor was not invited."

The Mayor: Did you poll your membership who voted on this resolution, so that we might know how many are riders of the Municipal Railway?

Mr. Smith: Certainly not.

The Mayor: Did you poll your members to see how many are residents of San Francisco?

Mr. Smith: Certainly not.

The Mayor: Mr. Newburgh, on what night did the Apartment House Industry act on the matter for the increase in fares?

Mr. Newburgh: The apartment house industry had a discussion without your presence about two weeks ago. We discussed this and other things. The other associations felt the same way; they felt as I stated here, that the Municipal Railway should pay its own way, and may I say that all of our people live in the city of San Francisco; all of our people are good citizens who have invested their savings in San Francisco, and I want to say that a great percentage of the representatives here today are friends of yours. There were two meetings of the Owners and Lessees Apartment House Association and we asked the membership if we should go and attend as they saw the danger of a tax increase, and with the approval of yourself as Chairman, I would like to qualify one point: Both organizations voted against any further tax subsidy as they are definitely afraid of a tremendous increase in the tax rate because once the Municipal Railway gets into the tax rate it is very, very difficult to get it out."

The Mayor: May I ask one further question? Did either organization to which you make mention notify any opponents of the fare raise to present their side before they came to a conclusion?

Mr. Newburgh: To my knowledge, no.

The Mayor: To get back to the subsidy mentioned by Mr. Newburgh. A subsidy is a subsidy whether based upon a use tax or an ad valorem tax. How it is all right to use a use tax subsidy but not a tax subsidy is something I cannot explain. I am talking about the building of a transportation system to render service to San Francisco, that, I believe, is the primary purpose of the municipal transportation system. It is desirable to make it pay its way as much as you can, but until you have service to sell you should not charge for it. Those people downtown must appreciate that we are going to have to come to the rescue of this transportation system until we can make it operate and render a service.

Supervisor Lewis, you, at one point, asked for information on zoning rates. In view of the fact that this matter cannot be pursued at the present time I request that you withdraw your request until sometime in the future.

Supervisor Lewis: That is not what I requested. He said that he pursued that. I want to see the figures relative to the falling off of fares within two months after a fare raise.

Mayor: I will say that the transportation system never recovers from a fare raise. Until you can give a man a transportation system that competes with his own private vehicle and make it more of a burden he is going to use his private vehicle.

#### Reading of Proposal.

The Clerk read the following proposal:

Approving Revised Schedule of Rates, Fares and Charges to Be Charged by the Municipal Railway as Adopted by the Public Utilities Commission.

Proposal No. 8441, Resolution No. . . . (Series of 1939).

#### Statement by Supervisor John J. Sullivan.

Supervisor Sullivan: I have heard both sides and will go along with the Mayor.

#### Statements by Other Supervisors.

Supervisor Mancuso stated that he disagreed with the Mayor and proceeded to give his reasons why he believed the fare increase should be approved.

Supervisor Mancuso stated that what the Board must consider is not the current deficit in the Municipal Railway, which has been taken care of by a tax subsidy but what will happen in the future and if the proposed ten-cent rate is not approved, the subsidization of the Municipal Railway might well reach to 40 and 50 cents.

Supervisor Lewis stated that it was a rather peculiar argument that had been made in urging increase in fare because the population of San Francisco is decreasing. That if such is the case, the OPA is not aware of it; that action should be taken with respect to getting an independent survey made of the Municipal Railway; that the Municipal Railway must remove duplicating lines; that to him the ten cent fare did not mean a thing; that the Municipal Railway can give more service; that the Public Utilities Commission should give consideration to the establishment of short-hauls and lower rates for such hauls and for the establishment of express service to the people's homes, and that his vote against the proposal to raise rates was not against the taxpayer but for him, and for the good of San Francisco.

#### Telegram From Supervisor Christopher.

The Clerk read a telegram received from Supervisor Christopher, who is on authorized leave, stating that he was opposed to the proposed increase in fare.

Supervisor MacPhee remarked that while members of the Board are willing to vote against the fare increase, yet they do not say where the money is coming from; that the Public Utilities Commission can do a better job than it has been doing insofar as operating the railroad is concerned; that many lines are operating at a loss and can be handled with more efficiency and dispatch; that he would like to vote against the fare increase and against the tax subsidy, but the money must come from somewhere; that the Public Utilities should pay its own way and that he was in accord with Supervisor Mancuso's thought that the increase should be authorized.

Supervisor Gallagher stated he was against a fare increase, that when the proposed Market Street Railway purchase was under discussion, he recalled Mr. Cahill, then the Manager of Utilities, making a statement before the Board to the effect that if the Market Street Railway was purchased, there would be no need to raise the fare, that it would stay at five cents; the State Public Utilities Commission had reduced the then 7-cent fare on the Market Street Railway to six cents; however, since the purchase of the Market Street Railway, fares have increased, subsidies have increased and the management has not been efficient; that some twenty thousand dollars had been budgeted for the purpose of investigating whether the railway is being managed efficiently; that the Water Department is self-supporting and that the railway should also be.

Supervisor McMurray stated that he was very much interested in the young lady who circulated petitions in various districts opposing the proposed increase in fare and if the entire city were petitioned, at least 98 per cent of the people would oppose the raise, and that the Mayor did a fine job for a great majority of the people.

Morrison Planetarium.

Bill No. 5551, Ordinance No. . . . (Series of 1939).

October 25, 1948—Consideration continued to November 8, 1948—Special Order, 3:00 p. m.

#### Committee of the Whole.

Supervisor Mancuso moved, seconded by Supervisor Lewis, that the Board sit in Committee of the Whole for the purpose of considering the foregoing bill.

No objection and motion carried.

The President to Act as Chairman of the Committee of the Whole.

Supervisor Mancuso moved, seconded by Supervisor Lewis, that the President of the Board act as Chairman of the Committee of the Whole.

No objection and motion carried.

#### Privilege of the Floor.

The privilege of the floor was accorded the following:

Mr. Harvey E. Teller, President of the Park Commission, who informed the Board members that consideration of the matter involving expansion by the California Academy of Sciences was considered by the Commission as a routine matter. In answer to a question propounded by Supervisor Lewis as to whether the Park Commission, at the time of considering the request of the California Academy of Sciences that park land adjacent to their present buildings, be set aside for the construction of a Planetarium, had considered any other location, Mr. Teller replied that the Commission had not.

Mr. Teller further stated that he desired to go on record that he would not make a recommendation at this time, on behalf of the Park Commission, as to any other location.

Mr. F. C. Hutchins, counsel for the Academy of Sciences, informed the members of the Board that the site in the Park selected by the Academy of Sciences possessed very distinct advantages, such as being centrally located, accessible to transportation, schools, and adjoined other buildings under the jurisdiction of said Academy; that the Twin Peaks site had been considered by the Academy and that the cost of such an undertaking at this time would be at least twice what it would cost to construct the one proposed in the park; that plans and specifications have already been completed and all that was needed was the Board's approval of the ordinance to send the project on its way; that the people of San Francisco were well aware of Supervisor Lewis' desire to construct a planetarium on Twin Peaks and if such a location had popular appeal, finances for such a project would have been forthcoming.

#### Reading of Telegrams.

The Clerk read telegrams received by Supervisor Lewis from the Curators of Planetaria of Los Angeles, Pittsburgh, Pa., and Chicago, responding to queries concerning proposed location of the San Francisco Planetarium, as well as communication from the Eureka Valley Promotion Association, advocating that Planetarium be constructed on Corone Heights.

### Privilege of the Floor (Cont'd)

Mrs. Hans Klusmann represented the Federation of Arts, stated her organization was opposed to the construction of any more buildings in Golden Gate Park, and suggested that the matter be referred to the city's improvement clubs and associations so that they may be afforded an opportunity to study the matter.

Mrs. Ann Dippel, President of the Federation of Women's Clubs, advocated that the planetarium be constructed on Twin Peaks.

### Rise and Report.

Supervisor John J. Sullivan moved, seconded by Supervisor Lewis, that the Board rise and report.

No objection and motion *carried*.

### Explanations of Vote.

Supervisor Mead stated that in view of the importance of the project, the Park Commission erred in treating the matter as routine and because of this action, he could not conscientiously vote for the proposed construction.

Supervisor Fazackerley stated that the Committee on Education, Parks and Recreation held two meetings on the bill, and that all interested parties were notified.

Supervisor Mancuso stated that apart from the beauty angle, the Twin Peaks location did not have the advantages to be enjoyed by locating the planetarium in the Park, such as service to adults and children, accessibility, etc., that considerable more money would have to be expended for the construction on Twin Peaks, whereas the plans and specifications for the Park site construction were ready to be put into effect immediately, and accordingly he would vote for the park site.

### Roll Call.

Thereupon the roll was called and Bill No. 5551 was *Passed for Second Reading* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, J. Joseph Sullivan, John J. Sullivan—9.

Supervisor MacPhee moved, seconded by Supervisor Halley, that the foregoing be tabled.

Supervisor MacPhee withdrew his motion, there being no objection.

### Statement by Supervisor Christopher.

Supervisor Christopher stated that the ultimate solution of the problem would be the construction of an observatory, and suggested that the foregoing proposal be sent to the California Academy of Sciences for appropriate action.

**Amendment—No Action.**

Supervisor Lewis moved, seconded by Supervisor Mancuso, that the word "observatory" be inserted in lieu of word "planetarium."

## SPECIAL ORDER—2:00 P. M.

City Planning Commission Sustained.

Hearing of Appeal From the Decision of the City Planning Commission by Its Resolution No. 3461 Dated October 20, 1948, Approving Certain Stipulations Permitting the Construction of Single Dwelling Units on the Northwest Corner of Belle Avenue and Chester Street, a Commercial Zone.

### Privilege of the Floor.

The privilege of the floor was accorded Mr. J. C. Duerner, one of the protestants, who stated that his protest was based on the assumption that Mr. Haley, for whom stipulations were approved, was going to build an auto court, catering to transient guests, and that such an establishment was not conducive to the best interests of the residential area adjacent to the proposed construction.

### Verbal Opinion of Mr. Holm.

At this point, the President of the Board, Supervisor J. Joseph Sullivan, inquired of Mr. Dion R. Holm, representing the City Attorney's office, as to whether this matter, affecting the subject of stipulations and not an actual reclassification of property, was a proper one for the Board to consider, to which query Mr. Holm replied that he had studied the Charter as well as Section 47 of the City Planning Code and believed that the matter under discussion was a proper one for the Board to consider.

### Privilege of Floor (Cont'd).

Mr. J. O. Coleman of 395 Chester Street voiced his objection on the grounds that the proposed construction was rumored to him to be an auto court, and that he believed such type of construction should not be permitted in the area.

### Proponents.

Mr. James McCarthy, Director of Planning, informed the Board that the property in question was rezoned in 1946 with stipulations that it would be used as a garden nursery; however, subsequently it developed that action by the State Department of Public Works affecting a portion of the area, because of highway construction, made it impractical to construct a garden nursery in that area. Mr. C. R. Haley, for whom the stipulations were originally made, then decided to build separate single-family dwelling units in the area and accordingly petitioned the City Planning Commission to change the stipulations to provide for the construction of such single-family dwelling units. The City Planning Commission, after a thorough investigation, decided to permit the change in stipulations.

### Opinion of Mr. Holm.

The President of the Board, Supervisor J. Joseph Sullivan, stated that it was his understanding that the only time the City Planning Commission may attach stipulations is when a zone change is contemplated.

Mr. Dion R. Holm, representing the City Attorney's office, read Section 47 of the City Planning Code and reiterated his previous stand that he believed that the matter was properly before the Board.

At this point the President of the Board again stated his position in the matter to the effect that in his opinion the only time stipulations may be changed would apply in the case where a zone change is involved.

### Privilege of the Floor (Cont'd).

Mr. C. R. Haley, for whom the stipulations were approved, stated his plans for the construction of the single-family dwelling units. These units, Mr. Haley said, would be detached, would have the most modern of architectural designs, would cost around \$5,000 each, would be composed of three rooms and would have lawn and other landscaping. There would also be provided facilities for automatic washing of clothes for all of the units at a centrally located place.

### Presentation of Proposal.

The Clerk read the following proposal:

Disapproving Decision of City Planning Commission by Its Resolution No. 3461 Dated October 20, 1948, Approving Certain Stipulations Permitting the Construction of Single-Family Dwelling Units on the Northwest Corner of Belle Avenue and Chester Street, a Commercial Zone.

Proposal No. 8486, Resolution No. . . . (Series of 1939).

### Explanation by President.

The President of the Board, Supervisor J. Joseph Sullivan, explained that an "aye" vote on the foregoing proposal would disapprove the action of the City Planning Commission; a "no" vote would sustain the City Planning Commission.

Thereupon the roll was called and Proposal No. 8486 lost by the following vote:

Noes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

**Resumption of Consideration of Matter Regarding Certain Alleged Statements Purported to Have Been Made by Mr. Paul Beck, Valuation Engineer, City Attorney's Office, Before the State Public Utilities Commission When That Body Was Considering a Request From the Key Route System for a Fare Raise.**

Supervisor Lewis explained to Mr. Beck the reason why he, Mr. Beck, was called before the Board, and proceeded to ask him the following questions:

Supervisor Lewis: Was San Francisco officially represented at the Key Route hearing?

Mr. Beck: San Francisco was officially represented at the Key Route hearing.

Supervisor Lewis: Who was authorized to represent this city at the Key Route hearing?

Mr. Beck: Mr. O'Toole authorized me.

Supervisor Lewis: If the commuters originated in San Francisco, would you believe it would be to our best interest to get the best fare possible for San Francisco?

Mr. Beck: The Key Route System came in with a proposal of fares. An engineer of the Railroad Commission came in with a lower schedule of fares. Hayward then came in with a proposed schedule of fares even higher than that proposed by the Key Route. In my opinion, as representing San Francisco, I feel that the proposal of the engineer of the Railroad Commission was to the best interest of San Francisco.

Supervisor Lewis then inquired of Mr. Beck as to certain statements concerning commuters, alleged to have been made by Mr. Beck, to which query Mr. Beck stated that he did not make any such statement.

Supervisor Fazackerley: Do you have a written statement made by you before the State Public Utilities Commission?

Mr. Beck: I made an oral statement which I have in my office.

Mr. Beck returned to the Chambers shortly with a copy of his oral statement and before reading it, asserted that the only party who objected to what he had to say before the State Public Utilities Commission was the city of Hayward and that neither Oakland, Richmond nor Berkeley objected.

Supervisor MacPhee asked Mr. Walker Peddicord of the City Attorney's office if any language in the Charter delegated authority either to the City Attorney's office or to the Board of Supervisors to formulate policy, to which Mr. Peddicord replied that he knew of no such provision in the Charter.

**Statement by Supervisor Lewis.**

Supervisor Lewis stated that he could not see how any city official could appear before the State Public Utilities Commission and line up with the Key Route System unless the Board of Supervisors, a policy-making body, had authorized that official to go. He was not blaming Mr. Beck but he was blaming the City Attorney's office. There is nothing else for the Board to do but adopt a resolution repudiating the position taken by a city representative before the State Public Utilities Commission, declaring that the Board of Supervisors had not given any authority to any person to represent this city, and asking that a rehearing be requested.

The proposal was prepared and the following was submitted to the Board for its consideration:

Repudiating Position Taken by the Representative of the City Attorney's Office Purporting to Represent the Views of the City and County of San Francisco, in Urging Approval by the State Public Utilities Commission of an Increase in Key System Rates.

Supervisor Lewis presented:

Proposal No. 8513, Resolution No. . . . (Series of 1939).

*Referred to the Public Utilities Committee.*

#### Request of Supervisor Gallagher.

Supervisor Gallagher requested that a communication be sent to the Manager of Utilities, signifying to him that one of the members of the Board of Supervisors has received many calls with reference to the filth in many of the street cars which, apparently, is allowed to remain therein day after day, with a view of instituting corrective measures.

*Clerk directed to so communicate.*

#### Survey of Street Garbage Cans.

Supervisor Gallagher requested that a survey be taken of the number of dilapidated garbage cans belonging to the Department of Public Works, which are located on various street corners, with a view of replacing them with new cans. (Mr. Brooks responded to the effect that the appropriation for said cans has been consistently reduced, but upon being informed by Supervisor Gallagher that some \$4,000 was available for such use, Mr. Brooks signified that compliance would be given the foregoing request.)

#### Reference to Committee.

Requesting Consideration of Program Whereby Inspection of Municipal Railway Rolling Stock and Transportation Operations Will Be Accomplished by Actual Rider Experience Rather Than Through the Use of Automobiles.

Supervisor Lewis presented:

Proposal No. 8511, Resolution No. 8126 (Series of 1939).

#### Reference to Committee.

Requesting Public Utilities Commission to Give Consideration to Provision of Daily Bus Service to the California Palace of the Legion of Honor.

Supervisor Lewis presented:

Proposal No. 8512, Resolution No. . . . (Series of 1939).

*Referred to the Public Utilities Committee.*

**Adopted.**

Supervisor Lewis informed the Board members that he had attended a meeting of the California Toll Bridge Authority at Sacramento recently at which meeting consideration was given to the subject of a parallel bridge crossing. The proposed crossing would be a one-way affair, with the present bay bridge carrying one-way traffic as well. A surprising statement was made at the meeting by Mr. Tudor, State Engineer, when he stated that such a proposed crossing should connect with a freeway at Tennessee Street. Supervisor Lewis further stated that another meeting of the California Bridge Authority was scheduled to be held on December 14th and expressed the opinion that such a meeting should be held in San Francisco because this city is the one that actually needs the bridge, and accordingly introduced the following proposal, and moved the suspension of the rules for the purpose of considering its adoption. Motion seconded by Supervisor John J. Sullivan. No objection and motion *carried*.

**Urging That the Public Hearing on the Proposed Second Bay Crossing Scheduled for December 14, 1948, in Sacramento, Be Held Instead in the San Francisco Bay Area.**

Supervisor Lewis presented:

Proposal No. 8509, Resolution No. . . . (Series of 1939).

**Amendment—Carried.**

Supervisor Lewis moved as an amendment, seconded by Supervisor Christopher, that the words "City and County of San Francisco" be inserted in lieu of the words "San Francisco Bay Area."

**Substitute—Withdrawn.**

Supervisor Fazackerley moved as a substitute, that in lieu of the words "San Francisco Bay Area," the words "San Francisco and Oakland" be inserted.

Motion *withdrawn*.

Thereupon the roll was called on Supervisor Lewis' amendment and it *carried* by the following vote:

Ayes: Supervisors Christopher, Gallagher, Halley, Lewis, McMurray, Mead, John J. Sullivan—7.

Noes: Supervisors Fazackerley, MacPhee, Mancuso, J. Joseph Sullivan—4.

**Explanations of Vote.**

Supervisor Mancuso stated that he was not opposed to a hearing being conducted somewhere in the Bay Area but that he intended to vote against the proposal to meet in San Francisco for the reason that he believed the contemplated action was a selfish one and that it would defeat the very purpose that we desired to accomplish.

Supervisor Fazackerly stated he would vote for the proposal because he felt that when the Governor read the resolution and saw "no" votes, he would assume that San Francisco did not know what it wanted.

**Adopted.**

Thereupon the roll was called and Proposal No. 8509, as amended, was *adopted* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

No: Supervisor Mancuso—1.

Proposal No. 8532, Resolution No. 8138 (Series of 1939).

**Discussion.**

Supervisor Mead expressed the desire to know if the adoption of the foregoing proposal would provide a complete and full analysis. Supervisors Gallagher and MacPhee attempted to supply the desired information.

Supervisor Lewis expressed the opinion that he believed a proposal should be adopted requesting the Mayor and the Public Utilities Commission to inform this Board of Supervisors that they approve of Jenkins and that whatever report is rendered, it should be carried out, and that such a commitment should be given to the Board.

Supervisor Christopher stated that he did not believe it would be proper for the Mayor to make a commitment before Jenkins has had an opportunity to begin the survey.

**Amendment—Lost.**

Supervisor Lewis moved, seconded by Supervisor Mead, that in the paragraph beginning with "Be It Further Resolved" appearing after No. 13, include the following at the end of the sentence: "to conduct a full and complete analysis and report as above indicated for a cost not to exceed twenty thousand dollars."

The roll was called and the foregoing amendment lost by the following vote:

Ayes: Supervisors Lewis, Mead—2.

Noes: Supervisors Christopher, Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, J. Joseph Sullivan, John J. Sullivan—9.

Mr. Harry D. Ross, Controller, called the Board's attention to the first paragraph of the proposal, reading in part as follows: "... an analysis and report of the existing organization, personnel and work program of each office and subdivision of the San Francisco Municipal Railway, together with recommendations for physical changes in organization, personnel or work programs . . .," and that such language covered the subject completely; further, he had gone into the matter with Mr. Turner and had satisfied himself that a complete report would be forthcoming.

Supervisor Mancuso stated that he believed the money could be put to better advantage by investigating other city departments and that he could not see how anything can be done about the Municipal Railway once the report is in. He believed the Board was assuming jurisdiction of a matter over which they had no control, and that if a report is desired, it should be requested by the Mayor. However, the Supervisor concluded, he would vote for the proposal since it seems to be what the Finance Committee wants.

Supervisor McMurray stated he would vote against the matter because in his opinion it is a waste of money and further, it seems to be a personal matter with certain members of the Board.

The roll was called and Proposal No. 8532 was *Adopted* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, Mead, J. Joseph Sullivan, John J. Sullivan—10.

### Privilege of the Floor.

The privilege of the floor was extended to the following:

To the Hon. Charles M. Wollenberg, Director, State Department of Social Welfare.

Mr. Wollenberg: The passage of Constitutional Amendment No. 4 has thrown the State Department concerned for the payment of aid to the aged and blind into somewhat of a confused state. That amendment provides that payments shall be made for January on January 1st in advance. The new state director shall take over the counties' administration of all phases of aid to the aged and blind. There are two hundred thousand people who should get their relief checks on January 1st. The present director has no power to approve payrolls for those two hundred thousand people. The new director does not come in until January 1st. We have had a number of meetings. We have met with the State Department of Finance, the State Controller, and the Attorney-General and our meetings are reflected in the contracts which I am presenting. It can only be done if the state enters into contract with the counties. The contract briefly is this: The city will continue the people who are working on the blind and aged through the month of December. If you adopt the resolution, Mr. Born will become the representative of the state and approve the new payrolls. The state takes over every item of expense which the county usually has. The county will have no expense whatever.

Mr. Harry D. Ross, Controller, informed the Board members that there were two proposed contracts: one that would provide the Controller to act for and on behalf of the Comptroller of the State of California, and the other, for the Director of Public Welfare to act for and on behalf of the Director of Social Welfare of the State of California, to provide payment to the aged and blind commencing January 1, 1949.

Supervisor MacPhee: Mr. Ross, is the city fully protected?

Mr. Ross: The city is fully protected. (Here Mr. Ross read portion of agreement wherein the state shall hold the county harmless in every respect and shall reimburse county for all and any losses, costs and expenses, damages or liabilities, whether direct or indirect, existent or incurred, as a result of carrying out the provisions of this agreement.)

Supervisor MacPhee: Do you recommend that we pass this at this time?

Mr. Ross: It is a difficult question. I don't see how the aged and blind can be paid unless the Board takes action.

The state will allow the period between now and the first of the month for changes to be made by the Controller and the Director of Public Welfare. There will be about three hundred thousand dollars in county monies unexpended because of this change.

Supervisor MacPhee again repeated his previous query of Mr. Ross as to whether he recommended that the Board adopt the proposal before it, and Mr. Ross stated that he would so recommend.

### Rise and Report.

Supervisor Halley moved that the Board rise and report. Motion seconded by Supervisor MacPhee. No objection and motion *carried*.

Thereupon the roll was called and File No. 3378 was *Adopted* by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan—9.

Absent: Supervisors Gallagher, John J. Sullivan—2.

### Objections to Approval of Journal.

Supervisor Lewis objected to the approval of the Journal of Proceedings for November 8, 1948, and desired that the following corrections be made therein:

On page 809, last paragraph, change the organization "Federation of Arts" to "Federation of Women's Clubs."

Supervisor Lewis further stated that it was his understanding that the first paragraph appearing under "Privilege of the Floor," relating to a statement made by Mr. Harvey E. Teller, President of the Park Commission, should contain an additional statement of fact purported to have been uttered by Mr. Teller to the effect that the Park Commission, in considering the request of the California Academy of Sciences for a portion of park lands adjacent to its present buildings on which to construct a planetarium, did not consider the selection of any other location.

The Clerk was directed to ascertain from Mr. Teller if Supervisor Lewis' understanding was correct.

*Approval of Journal continued one week.*

Supervisor Mead moved, seconded by Supervisor Halley, that the President of the Board, the Hon. J. Joseph Sullivan, act as Chairman of the Committee of the Whole. No objection and motion *carried*.

#### Communication.

The Clerk read a communication from the Amalgamated Street Railway and Motor Coach Employees of America, Division 1380, A. F. of L., urging postponement or disapproval of the proposed measure abandoning the No. 40 street car line.

#### Privilege of the Floor.

The privilege of the floor was extended to the following:

Mr. Charles R. Wood, representing the Amalgamated Street Railway union mentioned above.

However, before Mr. Wood was permitted to speak, the President of the Board, Supervisor J. Joseph Sullivan, asked Mr. Walker Peddicord of the City Attorney's office, why the Public Utilities Commission was bringing the matter of abandonment of the No. 40 car line before the Board for its approval or disapproval, whereas in the past, when other street car lines were removed such action was not brought before the Board for its consideration.

Mr. Peddicord, in reply, stated that an off-hand opinion would indicate that previous action by the Public Utilities Commission in removing street car lines reflected but a change in service and not an actual abandonment.

Mr. Wood: The No. 40 car line has been serving the residents for over 40 years. The purpose of this abandonment is that the line is operating at a loss. Forty-eight out of fifty bus lines are operating at a loss so the 40 car line is not the only one operating at a loss. One reason for loss in revenue on the 40 car line is that they are operating today as they did 40 years ago. Equipment is slow and in bad shape. The railway does not have through service to downtown San Francisco and the people want to come to downtown San Francisco. The

terminal instead is at Daly City. People don't like to transfer when they could have through service to the downtown area. The track down to San Mateo is not in bad shape but the rolling stock is. If the street cars were streamlined, service improved, the line would be money-making. The street car may be operated through the Twin Peaks Tunnel. Our organization asks that no action be taken on this proposal to abandon and that No. 40 car line continue to operate.

At this point the President of the Board inquired if there were others in the audience who desired to speak against the proposed abandonment. Mr. Henry Foley, representing the Carmen's Union, C.I.O., stated that he would like to speak but preferred to make his remarks after the proponents have had their opportunity to speak.

Mr. John Elliott, International Vice-President of the Amalgamated Street Railway and Motor Coach Employees of America, Division No. 1380, A. F. of L., stated that he failed to understand why the No. 40 car line should be abandoned in the light of the constant population growth of the peninsula and why steps should not be taken to improve the service by means of improved equipment.

#### Proponents.

Mr. Philip F. Landis, President of the Public Utilities Commission, when called upon for remark, stated that the 40 car line was losing around thirty-two thousand dollars a year; that the rehabilitation of the 40 car line does not fit in the use of any bond monies or current income of the Municipal Railway and that San Francisco should not continue to support a losing proposition.

Mr. James H. Turner, Manager of Utilities: The No. 40 car line rehabilitation has been considered in each plan submitted to you. During the last year, four plans have been submitted by the department. We have considered rerouting to give improved service to the peninsula. We have considered bus substitution. We found that any investment would not pay. The reason for this is obvious. When the line was built some 50 years ago, it was confined to service to the peninsula. It was one of the best traveled routes some 50 years ago. As of the last 25 years, there has been bus service provided and that has drawn paying riders away from the Municipal Railway. The Southern Pacific runs service; the Greyhound Lines have been built up. Their service is more attractive. Then, also, local bus service has been developed in San Mateo, Burlingame, Millbrae and this also has removed from our street cars those riders that helped pay for the line. The people just don't use the line. I personally checked that line and found instances where there were no riders on the cars. Its present purpose is the carrying of school children from South San Francisco to San Mateo County and we cannot make any money on school children. Plans for rapid transit to the peninsula have not been abandoned. We do own the right-of-way from the cemeteries to Burlingame and at a later date we can possibly join with San Mateo County in construction of rapid transit but as of today that particular street car line is not being used sufficiently to warrant its maintenance.

The President: Has any question been raised regarding its franchise?

Mr. Turner: The franchise has been reviewed by the City Attorney and no trouble is anticipated.

Mr. Turner added that the city pays some \$18,000 a year taxes on city-owned property in San Mateo County, and suggested that some members of the Board accompany him to a meeting with San Mateo County officials to be held in the near future.

Mr. James McCarthy, Director of Planning: The City Planning Commission has not had this matter before it formally and therefore I cannot speak for the Commission, but I can state informally that

when the transportation study was made during the past years by Mr. DeLeuw, consideration was given to the present service on the No. 40 car line and it was the general consensus of the consultants that the present service on the No. 40 car line has failed and that it be abandoned without detriment to the primary service area. As part of the long-range plan that will be submitted to you during the next month, consideration was given to the ultimate incorporation of the San Mateo line into rapid transit on the proposed Mission Street Freeway.

The President asked if any other member of the Public Utilities Commission desired to speak and none expressed a desire so to do.

Supervisor Lewis: Mr. Turner, the reason for abandoning the line is due to a large extent to the competition of the Southern Pacific Company and the Greyhound Lines and the San Mateo bus line. Do you know the Greyhound charge from San Mateo County into San Francisco?

Mrs. Rose C. Walker of the Greater Mission Improvement Association was permitted to answer Supervisor Lewis' query and she stated that the Greyhound Lines charged 25 cents from the county line to San Mateo.

In response to a query as to present operations of the No. 40 car line, Mr. Turner stated that the line is now operating from the county line to San Mateo.

Supervisor Lewis: If the Southern Pacific and Greyhound can make money I don't know why the city can't do likewise. Mr. Turner, do you believe there is any possibility that something can be done to bring back the riders in sufficient numbers and operate the line on an efficient and sound basis?

To the above query, Mr. Turner replied that the investment in such a program would be heavy and that he considered the present line a losing proposition.

Mr. Henry S. Foley, representing Carmen's Union, Local 250, C.I.O.: The organization I represent is opposed to the abandonment of the No. 40 car line. The people of San Mateo should be considered. That is their business. In the absence of these people this matter should be postponed so that these people can come here. During the recent campaign for Mayor, one of the candidates kept telling the people that he had a plan in his pocket, intended to streamline service to San Mateo. Well, here is the result of that plan. We are also concerned about the people going to the cemeteries three times a year. People are tired of being shunted off cars at Daly City. This is just another promise made to the people and thrown out the window. Further investigation should be made and this Board of Supervisors should at least take the matter under consideration and give it further study before definite action is taken.

#### Rise and Report.

Supervisor Lewis moved, seconded by Supervisor Mead, that the Board rise and report.

No objection and motion carried.

Supervisor Lewis: The City Planning Commission should work in close contact with the Public Utilities Commission of this city and with this Board of Supervisors in matters of this importance that concern the master plan and operation of the railway lines, particularly those bordering the lines across the county line. I feel we should have the very best advice of experts and staff of the City Planning Commission as well as the Commissioners themselves. I don't say this in criticism, but we are doing a service to the city if we keep the City Planning Commission's attention to the provisions of the charter. Here the City Planning Commission has not considered the matter. There has been but informal discussion. The Board of

Supervisors is entitled to intelligent advice from the City Planning Commission for abandonment is going to affect the public interest of the citizens of San Francisco. All we have here today is the side of the Public Utilities Commission. We have nothing so far before us and I would like to hear from the City Planning Commission insofar as the citizens are concerned. We should not do anything at this time to make our neighboring counties feel we are not concerned about them when we speak about mass transportation between counties. I would like advice from the City Planning Commission whether the No. 40 car line should be kept in operation. We should do nothing that will establish ill will between San Francisco and her neighboring counties, that would hurt mass transportation in the future. We must be far-sighted in this matter. More automobiles increase congestion and when congestion increases, we must go to the people to vote bonds to relieve the congestion. Maybe it pays to let the railway have money in order to relieve congestion. I am really arguing against the removal. I do want a report from the City Planning Commission as to their views and I move that the Board of Supervisors ask the City Planning Commission for a report on this all-important matter and that this report be forwarded to this Board of Supervisors by next Monday afternoon and that the matter be continued until Monday afternoon at 3:00 p. m.

Motion seconded by Supervisor McMurray.

Supervisor MacPhee: We would like to maintain that line. Perhaps it might be possible for us if we had money to subsidize that line for a long period of time, running against other forms of competition. I think the matter is something the Board should consider. I see no reason for a report by the City Planning Commission. I think the Board of Supervisors wants to see it operated as part of the Municipal Railway and owned by the City and County of San Francisco. You just can't go on losing money and operate as a municipal railway. The Board should consider it today and take action.

Supervisor Fazackerley stated that in his opinion the No. 40 car line was not offering service and should be abandoned, and that the matter should be acted upon today if for no other reason than to stop losing \$340 daily.

Supervisor Mead: Is this a complete abandonment or does the Public Utilities Commission intend to use some other form of transportation on the route?

Mr. Turner: The proposal before you now is the complete abandonment below the cemetery. In the modernization of Mission Street, regular service on the No. 14 bus as far as Holy Cross will be made. Below Holy Cross, no service will be provided. We are not closing the door toward a total program with San Mateo for rapid transit. Studies have been made but the investment is large and there is no immediate program for constructing such improved service. In order to avoid this continuing loss of money, we proposed complete abandonment below Holy Cross Cemetery.

Supervisor Mead: What is the approximate time when such program will begin?

Mr. Turner: The Mission Street program contemplates a system which will afford a combination trolley coach and gasoline system. We hope to make this conversion at the same time we abandon the No. 40 car line on January 15, 1949. The tracks will be removed while buses are in operation.

Mr. Turner went on to explain to the Board members that upon abandonment he would hold discussions with the people in San Mateo and that he had been requested to name a date for meeting.

Supervisor Mead: Will we have complete service upon abandonment?

Mr. Turner: I don't think we can run buses into San Mateo now but we are not closing the door to entering into agreement with San Mateo for the improvement of transit system into San Mateo.

Supervisor Lewis: In answer to Supervisor MacPhee, this does not come from the City Planning Commission and says that it is not economically wise to continue this route. The point is the congestion on the streets of San Francisco is heavy and should be considered in the abandonment of any line. We are going to Sacramento to argue for a southern crossing to fight congestion and I feel that it is only right to have the opinion of the City Planning Commission as to the effect the abandonment of the No. 40 car line will have on congestion.

Supervisor Lewis: I want a direct opinion from the City Attorney one way or the other. Must we refer this matter to the City Planning Commission?

Mr. Peddicord: I think if we are going to answer that question as to legality, we must have more time. There is no master plan in effect in relation to this area upon which the City Planning Commission can possibly report conformity at the present time.

#### Explanation of Vote.

Supervisor Mancuso stated he was in favor of the position taken by Supervisor MacPhee in that immediate action should be taken abandoning the No. 40 line and that the Public Utilities Commission should be congratulated in recommending the abandonment of a line that served no useful purpose.

Supervisor Christopher stated that he had heretofore found reason to complain about the Municipal Railway's operation, but here was a case where the Municipal Railway was advocating the abandonment of a line that did not concern the people of San Francisco. He has had occasion to be in San Mateo recently and in answer to a question relating to amalgamation he was told: "Get yourself a railroad and we will start getting along with you."

Supervisor Lewis reiterated his previous stand that he desired a report from the City Planning Commission on the subject-matter; that there were questions of public policy involved with respect to the future of rapid transit and that all he was asking was for a week's postponement so that the City Planning Commission may have an opportunity to tell us whether the question of finances was the primary reason for abandonment.

Thereupon the roll was called on Supervisors Lewis' motion to postpone consideration for a week and it lost by the following vote:

Ayes: Supervisors Lewis, McMurray—2.

Noes: Supervisors Christopher, Fazackerley, Halley, MacPhee, Mancuso, Mead, J. Joseph Sullivan—7.

Absent: Supervisors Gallagher, John J. Sullivan—2.

#### Refusal of Supervisor Lewis to Vote.

Supervisor Lewis declared that he would not vote on the pending proposal for abandonment until he has had a report from the City Planning Commission.

Supervisor Mead moved that Supervisor Lewis be excused from the Chambers.

No second.

#### Statement by Supervisor Lewis.

Supervisor Lewis: I have felt all along there has been an ignoring of the City Planning Commission. I feel it is high time for someone to step in and see that the provisions of the charter are carried out. It is the oath of every member to see that the provisions are carried out. All I have asked for is one week for the City Planning Commission to guide one member of the Board, which this Board is deny-

ing. I am now requesting the City Attorney to give me a written opinion as to the legal authority of the Board to vote on the matter at this time.

I will break the impasse, and will vote for the following reason: The only reason I have heard before the Public Utilities Committee of this Board is the one phase of the question, that dealing with the financial operation of the No. 40 line. Certain findings were brought in to me to prove that the line was unsound. I have not been given the opportunity to hear from the City Planning Commission as to whether other public interests of San Francisco aside from the question of finances will be affected, such as question of added congestion by the taking up of this line, question of endangering rapid transit in the future and other questions. Not having that before me, and not being given the opportunity to hold the matter over one week only, and with the understanding that my vote is being confined solely to the question of finances, I will vote "No."

#### Explanation by President.

The President, Supervisor J. Joseph Sullivan, called the Board's attention to the fact that the proposal read in part: "Disapproving Recommendation of Public Utilities Commission . . ."

#### Explanation of Vote.

Supervisor McMurray stated he would vote against the proposed abandonment for the reason that he believed Supervisor Lewis should have been accorded the courtesy of one week's postponement so that he could procure the information he desired.

Noes: Supervisors Christopher, Fazaackerley, Halley, Lewis, MacPhee, Mancuso, Mead, J. Joseph Sullivan—8.

**Motion to Refer to Committee.**

Supervisor Lewis, seconded by Supervisor Mancuso, moved that the matter be referred to committee.

**Explanation of Vote.**

Supervisor Mead, in explaining his vote, stated that he was going to vote against reference to committee because the only thing that was being considered was the request for an expression of opinion.

Supervisor Lewis remarked that he was going to refuse to vote on the matter because under the Charter he is required to vote only on those things that can be legally considered by the Board, and that the City Attorney has ruled that the Board does not have the power to enact legislation of this type.

The Chair ruled that each Supervisor must vote on the legislation.

**Request for Legal Opinion.**

Supervisor Lewis stated that as a member of the Board he was being requested to vote upon a matter that the Charter states is illegal, and that he would not vote upon it.

Supervisor Lewis requested that a legal opinion be secured on the matter.

Supervisor Mancuso remarked that he believed that Supervisor Lewis should be required to vote or leave the Chambers.

The Chair stated that Supervisor Lewis would either have to vote on the legislation or that he would be escorted from the Chambers. The Chair then read the first paragraph of Rule 39 of the Rules of Order of the Board of Supervisors.

File No. 3477, Resolution No. 8216 (Series of 1939).

#### Discussion.

Supervisor Lewis inquired of the representative of the Real Estate Department as to whether or not the land would sell for more than \$30,000 if the water tank on top of the hill were removed.

Mr. Earl Cutting, representing the Real Estate Department, replied that the property would be increased in value but it would cost a considerable amount of money to remove the tank. By removing the tank the property would increase in value by approximately 50 per cent.

#### Motion to Refer.

Supervisor Lewis, seconded by Supervisor John J. Sullivan, moved that the matter be re-referred to committee for further hearing.

Supervisor Gallagher, in explaining his vote, said that he did not believe that the matter should be referred to committee because the property was sold in good faith and the City would not be living up to its end of the deal by delaying the matter.

Motion defeated by the following vote:

Aye: Supervisor Lewis—1.

Noes: Supervisors Christopher, Fazackerley, Gallagher, Halley, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—10.

Mr. M. Smith, representing the Public Utilities Commission, informed the Board that the new manager of the Water Department was aware of the situation and that he had stated that it would be impossible to either remove or place the tank underground. The tank is necessary to supply water to the residents and if anything is done to it, it should be elevated more.

Adopted by the following vote:

Ayes: Supervisors Christopher, Fazackerley, Gallagher, Halley, Lewis, MacPhee, Mancuso, McMurray, Mead, J. Joseph Sullivan, John J. Sullivan—11.

Supervisor Lewis requested that the matter of removing the tank from its present location or placing it underground be referred to committee for further study.

## Discussion.

Mr. Turner, being informed of the previous remarks of the representative of the City Planning Commission, explained that this particular matter has not been referred to the City Planning Commission for report. The over-all picture has been referred to the City Planning Commission and has its approval. This is only a transfer of funds and provides the means for the completion of the Market Street job.
